1 | Letter to Shareholders

Chairman:
Lo, Chih-Hsien

President:
Huang, Jui-Tien

Dear Shareholders,

In 2019, the global economy was turbulent, the minimum wage in Taiwan continued to increase, and businesses continued to face significant challenges. Despite an unstable external operating environment, President Chain Store Corporation (PCSC) continued to serve as a creative, convenient, safe, welcoming community center, offering customers innovative and convenient products and services. PCSC worked with all the subsidiaries to achieve consolidated revenue of NT\$256.06 billion and net profits of NT\$12.11 billion in 2019. PCSC was selected as Don Jones Sustainability World Index and Don Jones Sustainability Emerging Markets Index this year, underscoring the fact that PCSC's outstanding economic, environmental, and social performance meet the standards of world-class corporations around the globe.

Operating Performance

7-ELEVEN Taiwan aims to provide customers with an even more comfortable and friendly place to shop. In addition to providing larger, more featured stores, PCSC integrated resources, including beauty, fitness, bakery, fast foods, etc., further launched lifestyle stores to satisfy the needs of the business area and provide customers with a diversified shopping experience. This year for the first time, PCSC worked with such leaders in business as Maserati, and Disney, etc. to set up co-brand stores to create unique enjoyable settings for shoppers. PCSC also introduced a new customers model and unveiled the future of convenience stores with its X-STORE and Big7 lifestyle store, employing state-of-the-art technology to serve customers. To ensure food safety, PCSC set up an internal monitoring mechanism and a product quality testing lab. Together, these initiatives enable PCSC to control the supply chain and create a rigorous food safety net to protect customers. PCSC has worked together in strategic partnerships with well-known restaurants and chefs to launch a diverse selection of delicious food products and specialty restaurant cuisine to meet customer needs. PCSC has continued to improve the quality and flavor of CITY CAFE and has introduced more CITY PRIMA products to satisfy different target customers, continuing to drive future growth. PCSC selects the best products around the world, including Japan and Korea etc., and is a member of strategic partnerships with notable brands. By offering premium, differentiated, and exclusive products, we attract customers seeking products that reflect their personal style. In addition to physical products, PCSC has leveraged the intensive store network and comprehensive logistics system and equipment to enhance digital platform and application services. In 2019, PCSC introduced "My Ship", a digital supporting platform integrating three major services, cash, material (logistics), and information flow, to provide C2C vendors a sound, secure transaction platform. We handled pickup and delivery of more than 200 million packages, providing customers with reliable, convenient delivery services. In response to recent trends and to increase customer loyalty, PCSC offers a variety of payment options by which OPENPOINT can be collected through diversified channels. With more than 6.5 million members, PCSC continues to build a convenient and comprehensive digital platform for customers.

In addition to 7-ELEVEN Taiwan, PCSC has also expanded into other retail businesses. As of the end of 2019, PCSC operated a total of 9,900 stores, including 2,850 7-ELEVEN stores in the Philippines. In addition to enhancing in-store product offerings, it is actively strengthening digital services. Uni-Wonder Corp. (Starbucks Taiwan) continues to enhance

VIP membership program and brand experience, infusing new life into the coffee market with innovative services and diversified stores. To meet the growing e-commerce and distribution needs, President Transnet Corp. has continued to open new locations and to enhance its logistics capabilities. President Drugstore Business Corp. (COSMED) has brought together online platforms with physical resources, providing quality products and services to meet customers' rapidly changing needs. Taking advantage of the business opportunity of mobile reading, Books.com Co., Ltd. offers e-book services, a diversified, quality book-purchasing experience. PCSC and all the subsidiaries strive to continue to improve and provide innovative and outstanding services to meet customers' needs. In 2019, PCSC and Uni-Wonder Corp. (Starbucks Taiwan) won the gold in the convenience store and coffee franchise categories, respectively, by Next Magazine Top Service Awards. 21 Century Co., LTD was awarded the top position in the fast food industry category in a service survey conducted by Global Views Monthly.

Social Responsibility

For many years, PCSC has worked tirelessly to achieve sustainable operations and fulfill our responsibilities in the areas of corporate governance, social engagement, and environmental protection. In 2019, we were selected as Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets Index for the first time, showing that PCSC is in step with world-class corporations. In the area of corporate governance, for the fifth year running, PCSC ranked among the top 5% of all TWSE-/TPEx-listed companies in the annual Corporate Governance Evaluation. PCSC was also selected as a constituent stock of the MSCI Global Sustainability Indices, FTSE4Good Emerging Index, and Taiwan Sustainability Index. In the area of social participation, PCSC held almost 17,000 Good Neighbor Funfest events this year, using OPENPOINT for sign up and converting the points earned for donating books to support early intervention for sick children from disadvantaged families, providing a diversified public welfare service platform. For disadvantaged senior citizens, PCSC has developed a senior-friendly network, Good Neighbor meal delivery, and a program in which demented elderly serve as store employees. In the area of environmental protection, in 2019, PCSC took the initiative to expand its plastic reduction policies, introducing strawless sip lids into 7-ELEVEN stores around Taiwan, gradually using sip lids and environmentally-friendly straws in the subsidiaries, thereby reducing the use of plastic. PCSC received an award for excellence at the 2019 Taipei Energy Conservation Leadership Awards for its efforts. PCSC also received Taiwan Corporate Sustainability CSR Report Award from TCSA the only recipient in the convenience store industry.

Business Prospects

Global economic uncertainty will continue in 2020. Nevertheless, PCSC will maintain integrity and honesty in our business operations, while continuing to advance the company's seven key building elements: people, stores, products, systems, logistics, policies, and culture. PCSC has evolved from a "convenience store that provides basic necessities" to "a service platform that customers depend on and that surpasses their expectations" and which offers customers an environment characterized by experience, entertainment, and education.

By focusing on operations and consolidating company resources, PCSC's subsidiaries will also continue to achieve outstanding performance. The total number of 7-ELEVEN stores in the Philippines is expected to exceed 3,000. We will continue to expand our product mix and promote lifestyle stores to meet customer needs. Uni-Wonder Corp. (Starbucks Taiwan) will continue to create innovative products characterized by differentiation, enhance the customer experience, and optimize VIP membership program. President Transnet Corp. will continue to expand its warehouses and launch the home delivery services from residences to 7-Eleven stores to offer customers pick-up services characterized by quality and flexibility. President Drugstore Business Corp. (COSMED) will focus on introducing a variety of products as well as quality services offered by beauty specialists, make-up artists, and pharmacists to ensure a rich and novel shopping experience. By enhancing products and services, 7-ELEVEN Shanghai and 7-ELEVEN Zhejiang will continue to provide customers with a convenient shopping experience.

PCSC is "determined to become the most outstanding retailer by offering convenient services and being a good corporate citizen". To achieve this vision, PCSC focuses on three core goals, creating a happy company, positively impacting society, and achieving environmental sustainability. We strive to make life more convenient for our customers, ensure steady profitability for our franchisees, create a fair and friendly working environment for our employees, and increase shareholder value for our shareholders.

(4) The below includes analysis of total remuneration (as a percentage of net income) given to directors, president and senior vice presidents by PCSC and all consolidated companies over the past two years along with a discussion of the remuneration policies, standards, arrangements, procedures for defining compensation and the relationship between remuneration packages and the company's performance and future risk:

1. Remuneration paid over the past two years as a percent after-tax net income:

	Title	Directors	President and Senior Vice Presidents
2019(Note)	PCSC	2.55%	0.75%
	All consolidated companies	2.68%	0.76%
2018(Note)	PCSC	2.71%	0.80%
	All consolidated companies	2.79%	0.82%

Note : PCSC's net income after tax in 2019 was NT\$10,542,860,000. PCSC's net income after tax in 2018 was NT\$10,206,388,000

2. Remuneration policy, standards, and arrangements, the procedures for determining remuneration, and the relationship between remuneration and company performance:

- (1) PCSC's remuneration policy is based on the Company's business strategy, human resource policy, and financial capability. Every year, the Company participates in salary surveys undertaken by specialist salary survey organizations; the company's remuneration levels are then reviewed based on the results of these surveys.
- (2) According to Article 32 of PCSC's Articles of Incorporation, if the current year's profit situation (pre-tax profits prior to deduction of employee compensation and director remuneration) is deducted by accumulated deficit, no more than 2% of said surplus shall be distributed as director remuneration. Reasonable compensation has been assessed and given to directors based on PCSC's operational achievements, continuous educations, engagement of business sustainability, and the director's respective contribution to the Company which includes financial KPIs such as company's profitability. In addition to PCSC's overall performance, remuneration is based on the performance of individual directors and their contributions to PCSC. Relevant performance and reasonableness of remuneration are to be assessed by PCSC's remuneration committee and the Board of Directors. The remuneration system is to be reviewed and adjusted as necessary based on actual operational status and relevant regulations as PCSC seeks to realize sustained operations and risk management. ("Employee, director, and supervisor remuneration" on page 50.)
- (3) Remuneration paid to the PCSC president, senior vice presidents and vice presidents is set according to their individual performance including financial KPIs, such as company's profitability, and their contribution to the company's operations. Said remuneration shall also conform to PCSC's remuneration regulations and take into consideration typical remuneration levels paid by other companies (using data compiled by market research firms). Bonuses shall be awarded based on PCSC's performance management regulations and take into consideration both PCSC's operating performance and the individual's own performance.

3. Implementation of Corporate governance

(1) Operations of the Board of Directors:

As of publication of the Annual Report, there had been a total of 9 (A) meetings of the Board of Directors over the past fiscal year. Director attendance is detailed below:

Other issues to be noted:

1. In the event of either of the following situations, dates, sessions, contents of resolutions of the Board Meetings, opinions from all independent directors, and Company responses to their opinions should be noted:
 - (1) Issue specified in Article 14-3 of the Securities and Exchanges Act: The Company has set up an Audit Committee, so it is not applicable of Article 14-3 of the Securities and Exchange Act. Please refer to page 25 "Operations of the Audit Committee" for more information regarding to Article 14-5 of the Securities and Exchange Act.
 - (2) Other issues opposed by independent directors or about which said directors have reservations should be recorded in writing in the meeting minutes of the Board: None.
2. Should a director recuse him or herself from a decision about which he or she has a conflict of interest, the name of the director, contents of the resolution, reasons for recusal, and the results of the vote should be noted:

- (1) The proposal of PCSC to obtain the right to use real estate assets was raised and discussed during the company board meeting held on April 29, 2019. Chairman Lo, Chih-Hsien as well as Directors Kao, Shiow-Ling, and Chen, Jui-Tang recused themselves from discussion and voting due to conflicts of interest, and the Chairman designated Director Shu, Pei-Gi to be the proxy Chairman; otherwise, the resolution was adopted unanimously by all directors in attendance.
- (2) The proposal to terminate the service contract with Kao Chyuan Investment Co. Ltd. was raised and discussed during the company board meeting held on August 2, 2019. Chairman Lo, Chih-Hsien and Director Kao, Shiow-Ling recused themselves from discussion and voting due to conflicts of interest, and the Chairman designated Director Shu, Pei-Gi to be the proxy Chairman; otherwise, the resolution was adopted unanimously by all directors in attendance.
- (3) The proposal of PCSC to obtain the rights to use real estate assets was raised and discussed during the company board meeting held on November 1, 2019. Uni-President Enterprises Corp. Representative Directors and Director Kao, Shiow-Ling recused themselves from discussion and voting due to conflict of interest, and the Chairman designated Director Shu, Pei-Gi to be the proxy Chairman; otherwise, the resolution was adopted unanimously by all directors in attendance.
- (4) The Company 2020 donation plans were raised and discussed during the company board meeting held on December 11, 2019. With the exception of Director Huang, Jui-Tien, who recused himself from discussion and voting due to conflict of interest, the resolution was adopted unanimously by all directors in attendance.
3. TWSE/GTSM listed companies shall disclose evaluation cycles, periods, scopes, methods, and details used to conduct general self-evaluations (or peer evaluations) for their boards: The proposal for Performance Evaluation Guidelines and Evaluation Methods for the Board of Directors was raised and adopted during the company board meeting held on November 1, 2019. PCSC will hold company board meetings, the Audit Committee and Remuneration Committees, to conduct self-evaluations and peer evaluations and report the results before the end of the first quarter of the following year starting in 2020.
4. During this and recent fiscal years, PCSC has worked to strengthen the function of the Board (e.g., establishing the Audit Committee and enhancing information transparency) and evaluate the implementation of such measures:
 - (1) On March 8, 2005, in accordance with the Company's Corporate Governance Code of Practice, PCSC established Rules of Procedure for Board Meetings, which was reported to the General Shareholder's Meeting held on June 14, 2005. (5) Implementation of Corporate Social Responsibility

Items Evaluated	Status			Variations (if any) with the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies and reasons for such discrepancies
	Yes	No	Brief Explanation	
1. Has PCSC conducted risk evaluations on environmental, social, and corporate governance issues related to company operations based on the materiality principle?	V		1. PCSC abides by the Company's five principles, the context of sustainability, the materiality principle, completeness, and stakeholder inclusion, establishing a systematic and standardized materiality assessment process to evaluate how much issues that our main stakeholders are concerned with influence the economy, environment, and society. 2. We integrate major themes into our daily risk management system, and are committed to maintaining the completeness of our risk management system. PCSC has included the entire group organization and subsidiaries in the system and the Board of Directors, managers and employees at all levels participate in and promote the implementation. In addition to complying with relevant laws and regulations, we also actively identify, analyze, measure, monitor, respond to, report, and improve potential risks that appear in various operational activities based on their risk characteristics and degree of impact. While reasonably ensuring that the Company achieves its strategic objectives, PCSC also effectively maintains and controls relevant potential risks. (Note 1)	Compliant

Note 1: Evaluation and management on ESG Risks

ESG Topic	Risk Type	Implementation of risk management
Environmental	Climate risks	PCSC has integrated our climate risk management into the extant risk management framework, in which each department identify climate risks, including transitional risks from pertinent laws and regulations as well as physical risks, such as increases in the seriousness of extreme weather events and dramatic changes in weather patterns and proposes countermeasures based on their functions.
Social	Food safety risk	PCSC invest each year to ensure rigorous quality control is maintained. From production to stores, we are continually setting up rigorous food safety protection networks for our consumers: <ol style="list-style-type: none"> Establishing the Merchandise Safety Committee and holding regular meetings to review contract manufacturers and supplier and implementation progress. Establishing the Product Safety Information Collection and Inventory Tracking Operational Standards and setting up inventory and tracking procedures to ensure the safety of Company products. Using measures like contractual cooperation, production site management, ingredient tracing mechanisms and systems, supplier grading, management and on-site assessment system, distribution centers and periodic store checks, as well as occasional sampling of raw materials and finished products, to stay on top of the entire supply chain from production to store.
	Risks related to demographic structure changes	Our major area of operations is the region of Taiwan. Convenience stores and logistics services, the important parts of our business, are both labor intensive. Taiwan has been faced with such issues as an acceleration in the aging of the population, and a declining birthrate. Thus, we consider the decrease in the labor force to be a risk for us. Countermeasures: <ol style="list-style-type: none"> Continuing to keep tabs on changing trends in consumer groups and develop products needed by senior consumers to take advantage of related business opportunities. Hiring re-employed women, middle-aged and senior workers. Taking advantage of technological developments, such as AI, and optimize business structure and processes, and human resource allocation at stores to increase efficiency and lower personnel costs. Incorporating automation of warehousing processes and ordering systems in logistics to increase operational efficiency and reduce the need for manpower.
Corporate Governance	Market risks	PCSC has an inter-division Regulation Identification Committee and periodically holds "Regulation Identification Meetings" to keep abreast of the newest changes to laws and regulations so as to be able to adopt appropriate countermeasures. Additionally, each unit's supervisors also establish a "Crisis Management Team" to effectively control and manage any potential or current market risk or crisis.

	Yes	No	Brief Explanation	
2. Has PCSC designated personnel to implement corporate social responsibility policy with senior management authorized by the Board of Directors to manage them and do they give status reports to the Board of Directors?	V		In order to implement and manage CSR, PCSC established an interdepartmental CSR Committee, which is a functional committee directly responsible to the Board, and has been promoting CSR concepts in concrete ways for many years. It is composed of six members, three are upper-level PCSC managers and three are independent directors. The committee is responsible for proposing and implementing concrete plans related to CSR policies and reporting the status on a regular basis. It is to convene a minimum of two times each year. It also reports achievements of the current year and future plans to the Board of Directors once a year.	Compliant
3. Environmental Topic				
(1) Has PCSC established an environmental management system that is specifically designed with PCSC operations in mind?	V		PCSC is committed to reducing our carbon footprint and emissions of greenhouse gasses to ensure a better living environment for the nation. For example, long before a new location opens its doors, energy-saving considerations drive the design process, while existing stores focus on phasing out inefficient equipment. We have also built Taiwan's largest national recycling platform. In addition, PCSC's headquarters has implemented environmental measures to reduce electricity, water, and paper use. We continue to implement green procurement and offer high quality eco-friendly products to our customers to grow the green consumer marketplace. Using our green accounting system, we convert these concrete actions to improve the environment into financial data, which helps the Company manage environmental costs and analyze overall effectiveness.	Compliant
(2) Has PCSC endeavored to make more efficient use of resources and use renewable materials that have a lower impact on the environment?	V		PCSC continues to introduce concrete energy conservation plans in our stores. Energy saving measures, such as proper insulation, energy-efficient lighted signs, fewer light fixtures, utilizing inverter systems, outdoor energy conservation, indoor lighting management, and LED fixtures, are incorporated in every new store design. Existing stores focus on phasing out inefficient equipment and investing in energy efficient options. In 2019, PCSC invested NT\$21.41 million to install energy-saving refrigerator door heater strips in 2,847 stores, saving 1,846 kWh every year. In coordination with government academic institutions, PCSC is working to improve store energy efficiency and reduce operational costs, while also introducing store energy use self-evaluations to ensure efficient operations.	Compliant
(3) Does PCSC evaluate potential risks and opportunities of climate change for the Company now and in the future, and make countermeasures to issues related to climate change?	V		PCSC continues to focus on energy saving and carbon reduction issues and has established an energy policy to optimize its energy management structure. Since 2005, PCSC has performed annual greenhouse gas inventories, energy managements based on the spirit of ISO50001, promoted energy-saving measures for its headquarters and stores, improved energy efficiency of equipment, as well as educated and trained employees to enhance energy-saving awareness. In addition, PCSC takes advantage of its distribution system and the fact that its stores are open 24/7 to help disseminate disaster notifications and early warning information. In response to disasters related to climate change, PCSC has deployed a weather information distribution system, enhanced the training of store personnel, teaching them how to respond to typhoons and floods, and established construction standards for waterproof gates and low walls in low-lying areas to enhance the ability of the stores and the nearby communities to deal with climate change.	Compliant
(4) Did PCSC calculate greenhouse gas emissions, water use and total weight of waste in the past two years and did it establish policies for saving energy, reduction carbon, reduction of water use, as well as waste management?	V		1. PCSC is committed to environmental protection issues. The largest source of the Company's greenhouse gas emissions is the electricity consumption of our stores. Electricity consumption is linked to store size, equipment used, and business types and is eventually reflected in operating income, therefore, we calculate emission intensity per million New Taiwan dollars in turnover as a quantitative indicator for overall medium and long-term reduction targets. In addition, PCSC continues to analyze store water consumption patterns and introduce water-saving equipment to reduce water consumption at the stores. Since 2018, PCSC has surveyed stores served by the waste removal company hired by the Company. The total weight of waste is estimated based on information provided by the waste removal company on the total weight of waste each month and the correlation between types of operation activities and waste at the store side. These serve as a basis for setting reduction targets. In addition to our stores, PCSC has set up saving goals and performance indicators for electricity and paper at headquarters. Using goal management and enhanced publicity, PCSC has actively worked to save on water and electricity. 2. Please refer to chapter 6 and the appendix of the latest PCSC CSR Report for detailed descriptions of the Company's greenhouse gas emissions, water consumption, and the total weight of waste in the past two years and our reduction goals. We will continue to review and follow up on the various stats to serve as a basis for reduction performance and progress towards the goals for the medium and long-term reduction.	Compliant

4. Social Topic				
(1) Has PCSC established management policies and procedures in accordance with relevant laws and regulations and international human rights conventions?	V		PCSC consulted such international human rights conventions as the "International Human Rights Law", "Core Labor Standards, Fundamental ILO Conventions", and "Ten Principles of the United Nations Global Compact" when formulating its human rights policies. Our seven major policies are to provide a friendly and safe work environment; eliminate forced labor; abolish child labor; eradicate discrimination to ensure equal opportunity to work, access to training and benefits, rewards, and advancement; freedom from workplace violence, sexual harassment, and coercion; treating employees with dignity; support the physical and psychological well-being of employees; ensure a balance between work and personal life; establish diverse channels of communication, and a grievance mechanism to ensure the rights and interests of stakeholders. Specific management and implementation plans include, regular annual reviews of occupational safety and health as well as labor conditions; employing comprehensive internal and external training channels to give employees inter-company and interdisciplinary work rotation experience as well as important positions and challenges to cultivate outstanding talents; conducting regular online questionnaires to determine the status of workplace violence to ensure a fair workplace environment; hold annual health check-ups and implement health promotion campaigns based on the data analysis findings of health exams over the years to enhance the employee health index; and PCSC has a variety of communication channels available in its auditing office, joint service center, and in the stakeholder area on its official website. In addition, it also has a comprehensive system and mechanism to ensure that feedback and suggestions are actually handled.	Compliant
(2) Does PCSC have and implement employee welfare measures, including bonuses, holidays, and other benefits, and is its operational performance and achievements reflected in their pay?	V		1. Comprehensive employee benefits: (1) In accordance with the Official Letter Taipei City Social II No. 58459 of the Department of Social Welfare, PCSC established the Employee Benefit Committee on December 21, 1987. Members of the Committee are jointly elected by both labor and management. The Committee regularly hosts a variety of activities, organizes health check-ups for employees, and provides other benefits, such as subsidies for in-service education programs. (2) The PCSC benefit scheme includes self-selected benefits, trips for senior employees, health examinations, employee stock ownership plans, club subsidies, discount purchasing, wedding and funeral allowances, paid maternity and paternity leave, group insurance, employee travel allowance, and other benefits provided by Employee Benefits Committee to meet employee needs. 2. Comprehensive rewards system: PCSC gives employees annual bonuses based on the Company's net profit and gross profit growth to encourage them to stay and grow with the Company.	Compliant
(3) Does PCSC provide employees with a safe and healthy work environment and regularly implement safety and health education programs for employees?	V		1. PCSC provides employees with comprehensive education and training programs and works to realize our objectives of showing human care and improving their physical and mental health, focusing on the wide-ranging implementation of our Health Management Program to help employees care for their own health. The Company has engaged specialized nurse practitioners and works with doctors specializing in workplace health services to provide health consultation services. To promote employee health education, in addition to boasting a Healthy Life Circle APP for employees, issuing regular e-newsletters, and holding lectures to promote health, PCSC encourages employees to manage their personal health and create a healthy, harmonious, and safe work environment. 2. In accordance with revisions to the Occupational Safety and Health Act, PCSC launched programs for maternal protection, ergonomics hazard prevention, unlawful mental or physical harassment prevention, and a physical and psychological overload prevention program. (4) Has PCSC established an effective career skills development training program for employees?	V		<p>PCSC attaches a great deal of importance to personnel training. We help our employees be all that they can be through job rotation, overseas experience, giving them important jobs and challenges, and by broadening their horizons.</p> <p>1. Since it set up an employee career development path and management mechanism in 2016, PCSC has continued to promote personnel rotation and to set up various systems. In 2019, it continued to build up the PCSC multi-function TEAM management talent pool and sent managers and specialists abroad to obtain experience and training to enhance their skills through job rotation, overseas experience, giving them important jobs and challenges, and by broadening their horizons.</p> <p>2. In accordance with the Company's core values, PCSC has clearly outlined a training program to equip employees with the skills and standards required for positions throughout the organization. Managers and employees can enhance their abilities to help them achieve their career goals by participating in internal or external training courses. With the exception of 2018 when it organized 20 classes, PCSC once again held four classes in 2019 on 360-degree report analysis that put the focus on employee growth and learning, helping managers learn how to assist employees enhance their skill levels and work planning. For some key employees, PCSC mapped out a program of training and development to help them reach their ideal positions within the Company.</p> <p>3. PCSC also encourages employees to pursue self-enrichment in their spare time to strengthen their foundation and professional knowledge through scholarships for outside training and foreign language courses.</p>	Compliant
(5) Does PCSC's product and service marketing and labeling adhere to relevant laws and regulations and international standards as well as the laws and regulations related to customer health and safety and personal information and has it established policies and grievance procedures to protect consumer protection rights?	V		<p>The Company's food safety policies focus on operations, food traceability, and gaining customer recognition. The packaging designs for PCSC's own-brand products have all passed the packaging inspection process, and the labeling and advertising have been further checked and approved by the Company's Supplier Management, Quality Assurance, and Legal Departments to ensure they conform to laws and guidelines set forth by regulating authorities. PCSC has established the Integrated Services Call Center and stakeholder's mail box to serve as a communication channel that consumers can use to ensure that their suggestions or concerns are handled satisfactorily. Internally, the Company also has operating measures for handling product suggestions made by customers to ensure that they are handled satisfactorily.</p>	Compliant
(6) Has the Company established supplier management that requires that suppliers adhere to regulations dealing with such issues as the environment, workplace safety and health, worker rights and, if so, what is the status of implementation?	V		<p>To determine whether suppliers are legally established, the quality of their products, how well they cooperate with inspections, and whether they adhere to laws and regulations and PCSC's standards, we have established a section in our internal control regulations dedicated to product safety management. Suppliers and OEM factories that produce PCSC's own-brand products have a greater impact on PCSC's operations and brand name, so we have set up different management measures for them based on their different characteristics, clearly requiring that the product production, packaging, inspection, and evaluation processes are all carried out in accordance with specific standards. PCSC holds spot checks of raw materials suppliers and OEM factories and employs hierarchical supplier management, giving them different classifications based on their evaluation scores. Items evaluated include food safety, product safety, environmental safety, workplace safety, and corporate social responsibility issues. In 2019, 237 spot checks were carried out on raw materials suppliers and only one did not pass. We are no longer dealing with that supplier. We also carried out 99 spot checks of suppliers and OEM factories that produce PCSC's own-brand products. They all passed. In addition, our Internal Audit Office holds spot checks at raw material suppliers and OEM factories to create a rigorous food safety net for consumers.</p> <p>In addition to supplier management regulations and evaluation system, PCSC has also set up the "Code of Conduct for PCSC and Subsidiary Subcontractors", requiring all suppliers to sign "Ethical Corporate Management and Corporate Social Responsibility Agreements", to which have been incorporated five major standards, including worker, health, environmental safety, ethics, and fairness. PCSC also regularly carries out supplier education and training dedicated to helping suppliers realize ethical corporate management and corporate social responsibility and set up management systems for them.</p>	Compliant

5. Does the Company follow international recognized reporting criteria or guides when disclosing non-financial Corporate Social Responsibility reports? Did it obtain assurance or verification statements from third-party certification bodies for previously disclosed reports?	V		PCSC issues and discloses its CSR Report annually on the Company website. The 2018 CSR Report was in accordance with the core options of the GRI standards of Global Reporting Initiative. SGS Taiwan was entrusted with the task of verifying that the information in the CSR report meets the requirements of the AA1000 Type Two High Level. For the specific Subject Matter Information, we engaged PricewaterhouseCoopers (PwC) Taiwan in limited assurance to draft this report in accordance with the Republic of China Standard on Assurance Engagements Bulletin No. 1 Assurance Engagement Other than Audits or Reviews of Historical Financial Information. The third-party independent verification report was released after being submitted to the Board of Director's CSR Committee for review.	Compliant
6. If PCSC has drawn up a code for CSR based on the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies, please describe any differences between said code and the Best Practice Principles:			In accordance with the Corporate Social Responsibility Best Practice Principles for TWSE/ GTSM Listed Companies, PCSC drew up the Rules for the Practice of Corporate Social Responsibility which we adhere to. It governs implementation of corporate governance, development of sustainable operations, protection of public welfare, strengthening of CSR information disclosure, and protection of stakeholder rights and interests. PCSC employees follow these regulations to manage Company risks and impacts on the economy, environment, and society.	
7. Other important information for facilitating the understanding of CSR and its implementation:			<p>(1) The Company is committed to the safety of our products. In 2019, we invested NT\$148,511,000 to enhance food safety management of the raw materials and we continued to ensure food safety through such activities as giving guidance and checking our OEM and suppliers and product inspection.</p> <p>(2) To respond to the issue of food safety, PCSC formulated the Product Safety Information Gathering and Inventory Tracking Operating Procedures to strengthen crisis management capabilities and perform self-reviews of potential major product safety incidents and related regulations to prevent latent food safety risks.</p> <p>(3) The PCSC quality assurance laboratory has been certified by the TFDA for seven testing areas (microorganism counts, coliform bacteria, E. coli, Salmonella, Listeria monocytogenes, eight colorants, Ochratoxin A, Patulin, and testing for residues of 48 veterinary drugs) and TAF certification for four testing areas. In 2012, PCSC received TAF Certification for the first time, and received TFDA Certification in 2014. The validity period is three years. We have continued to pass extension applications for accreditation, once again recognizing the management quality of our laboratories. In 2019, the quality assurance laboratory performed testing on over 800 raw materials and products to maintain strict control on the safety of food products.</p> <p>(4) To deal with changes in laws and regulations, PCSC took it upon itself to make adjustments to the items in its product inspection standards so that they comply with the requirements of laws and regulations.</p> <p>(5) PCSC has optimized the own-brand product raw material management system to strengthen traceability management of raw materials.</p> <p>(6) PCSC has optimized fresh food product ingredient labeling simplification and allergen labeling standards that meet with government standards and allow consumers to more easily determine food product ingredients and potential allergens.</p> <p>(7) In order to realize our "Franchise Utopia", PCSC has established a comprehensive franchise system, paying particular attention to responding to questions posed by franchisees and solving problems as quickly as possible. In June 2016, PCSC set up a "franchisee question and complaint hotline". Franchisee issues are dealt with as special projects and follow-ups made to determine how the solutions are progressing. This has served to enhance franchisee confidence and satisfaction.</p> <p>(8) ISO14001 is not applicable to PCSC, because it is not in the manufacturing industry.</p> <p>(9) Please refer to the Corporate Social Responsibility section on the PCSC website for more information at https://www.7-11.com.tw/company/csr.asp</p>

3. Operation of the Company's Violation Reporting System				
(1) Has PCSC established a concrete violation reporting and rewards system, set up convenient reporting channels, and appointed suitable personnel to handle these cases?	V		<p>1. Both PCSC's Internal Audit Office and Integrated Services Center have set up exclusive reporting hotlines. Stakeholders may also report any violations through the stakeholder section of our website. In addition, we also have a complete system and mechanisms to ensure stakeholder feedback is followed up properly. After a stakeholder sends their opinion by email through our website, their message is passed through the system directly to the responsible party, who is then required to update the status of the case within a specified period of time. PCSC keeps track of the number of reports received each month and the status of each case.</p> <p>2. In 2019, 2,064 messages were received through the stakeholder feedback section of the website.</p> <p>3. The violation reporting and rewards system has been implemented in accordance with the Standards Governing Awards and Discipline and Regulations Governing Product Safety Protections as set forth by human resources and quality assurance divisions. The Awards and Discipline Committee conducts deliberations according to these policies and the results of its appraisals are published on the Company's internal website.</p>	Compliant
(2) Has PCSC established an investigation an SOP for violation reporting, follow-up measures, and relevant mechanisms to ensure confidentiality?	V		PCSC has established an internal investigation SOP for violation reporting and a relevant confidentiality mechanism. Information related to reported violations is only available to auditing personnel and their direct supervisors, while related documents are placed on file by the audit supervisor. If follow-up investigations show any violations of Company regulations or Company's losses, violators are to be disciplined in accordance with PCSC regulations and correction are to be made.	Compliant
(3) Does PCSC have any measures in place to protect individuals from possible mistreatment arising from reporting violations?	V		PCSC has the duty to keep information about individuals who report violations confidential. Information about such individuals cannot be released without their prior consent to keep them from being improperly punished or their personal information being exposed.	Compliant
4. Strengthening information disclosure Does PCSC disclose the content of its Best Practice Principles and its effectiveness on their website and the TWSE market observation post system?	V		PCSC discloses our Ethical Corporate Management Best Practice Principles, operating procedures, and code of conduct on our investor relations website and TWSE Market Observation Post System.	Compliant
5. If the Company has established a code of ethical corporate management based on the Ethical Corporate Management Best Practice Principles for TWSE/GTSM-Listed Companies, please discuss the specifics of the code and implementation below:				
On December 19, 2014, PCSC established its Ethical Corporate Management Best Practice Principles as required by the Financial Supervisory Commission. On August 4, 2015, the Board passed revisions to the Best Practice Principles and established Ethical Corporate Management Operating Procedures and Code of Conduct, implemented as written by the Ethical Operations Team. The Ethical Corporate Management Practice Team holds meetings on these issues on a regular basis.				
6. Other information that will assist in the understanding of Company ethical corporate management practices: (such as reviewing and revision of the Company's existing Ethical Corporate Management Best Practice Principles)				
In addition to operating according to PCSC's Ethical Corporate Management Best Practice Principles, the Company has also established working rules, which clearly specify rights and obligations of both employers and employees, and the Procedures for Ethical Management and Guidelines for Conduct Bulletin that sets up standards for moral conduct, gender interaction, gift giving and meals, and behavior with outside firms. PCSC employees sign a convention of self-discipline in this regard. PCSC has also established a system that implements appropriate disciplinary measure in cases of rules violations. The ethical corporate management provision is now part of all contracts with outside parties and suppliers. In order to ensure ethical operations are implemented fully, we have also set up an internal control mechanism where internal auditors perform evaluations regarding adherence to related regulations. Our subsidiaries also follow these regulations to ensure operations are conducted ethically. External marketing and manufacturing trade contracts, external contracts with relevant units, and "Code of Conduct for Subcontractors" all include an ethical corporate management provision. In addition, to ensure the realization of ethical corporate management, PCSC has established effective internal control system and internal auditors also carry out checks on a regular basis to determine adherence. Company subsidiaries also follow Company standards of ethical corporate management.				

(7) Company procedures for processing material information:

Although the Company has not set up procedures regarding the processing of material information, in order to properly manage important internal information, PCSC has established the Operating Standards for Unscheduled Announcements and the 7-ELEVEN Spokesperson System to serve as standard procedures for directors, managers, and employees. These standards are posted on the Company's internal website for employee reference. As required by law, the standards are reviewed annually and revised as necessary. Furthermore, as part of our internal control mechanism, PCSC has established management practices to prevent insider trading to eliminate the possibility that directors or employees will use internal information gleaned from their positions for their material benefit. In the future, these standards will meet all applicable regulations and laws.

(8) Status of internal control system implementation:

1. Internal Control Declaration: Please refer to page 83 of this report.

2. If PCSC has commissioned external auditors to review the company's internal control system, the external auditor's report should be disclosed: N/A

(6) Dividend policy and implementation:

1. Dividend policy

(1) Dividend policy as outlined in the Company's Articles of Incorporation

The current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses. Should there still be a surplus, 10% of the remaining amount is to be set aside as a legal reserve. After setting aside and reserving a special reserve, the remaining amount combined with accumulated unappropriated earnings from prior years will be distributable earnings for the period. The distribution of accumulated distributable earnings is proposed by the Board of Directors in consideration of industry conditions, the Company's future operations, and investment plans, which are disbursed following approval of the proposal by the Shareholders' Meeting. Disbursement of shareholder dividends and bonuses are set as 50-100% of the accumulated distributable earnings, and 50-100% of which is to be issued as cash dividends, while the remainder is to be unappropriated retain earnings.

(2) PCSC business is growing stably. Taking the capital requirements and profitability of the Company into consideration, the Company's profit distribution over the next 3 years will consist primarily of cash dividends. In accordance with the Articles of Incorporation, 50%-100% of said profits are to be issued in the form of cash dividends.

2. The proposed distribution of 2019 profit approved by the Board of Directors will be submitted to the 2020 Annual Shareholders' Meeting for approval. The proposal approved by the Board of Directors on February 27, 2020 is as follows: allocating NT\$9,356,600,295 from the 2019 distributable earnings to be issued as cash dividends, distributing NT\$ 9 per share. After the approval at the Shareholder's Meeting, the Board of Directors shall set a distribution record date.

(7) Impact on the Company's operating performance and EPS of the stock dividend proposed at the Shareholders' Meeting:

The Company did not distribute stock dividends this year, so this is not applicable.

(8) Employee compensation and director remuneration:

1. According to PCSC's Articles of Incorporation, if the current year's profit situation (pre-tax profits prior to deduction of employee compensation and director remuneration) is deducted by accumulated deficit, no less than 2% of said surplus shall be distributed as employee compensation and no more than 2% as director remuneration. Staff employed at the Company or subsidiaries meeting the requirements shall be eligible for compensation, distributed in the form of stock or cash. Relevant requirements are outlined separately.

2. The Board adopted the below employee compensation and director remuneration proposal for 2019 :

- (1) The Board proposed allocating the amount of NT\$567,096,064 as employee compensation and the amount of NT\$189,464,589 as remuneration for directors.
- (2) The amount of employee stock compensation and their proportion of overall earnings distribution: all employee compensation will be paid in cash.

	Distribution Approved by the Board
Distribution: (Unit: NT\$1000)	
Employee Compensation	\$ 567,096
Director Remuneration	\$ 189,465

3. Distribution of the previous year's remuneration to employees and directors:

PCSC's distributable earnings in 2018 were distributed as employee compensation and director remuneration as follows:

	Distribution Approved by the Board and at the Shareholder's Meeting
Distribution: (Unit: NT\$1000)	
Employee Compensation	\$ 576,995
Director Remuneration	\$ 192,772

4. The estimate of employees' compensation and directors' remuneration is made by calculating Company current year's profits (pre-tax profits prior to deduction of employee compensation and director remuneration) are deducted by accumulated deficit. In case of a discrepancy between the actual amount paid out and the estimate, it will be accounted for as changes in estimates and recognized as profit or loss in the following fiscal year.

5. In the 2018 financial statement, employee compensation totaled NT\$576,995,489, while remuneration for directors totaled NT\$192,771,948. These amounts are consistent with the amounts approved by the Shareholders' Meeting.

3. Present and future products and services

- Stores: To stay abreast of changing societal trends, PCSC has created a 3E shopping experience (Experience, Education, Entertainment), a service platform that customers can rely on and that surpasses their expectations. Through cross-industry cooperation, our lifestyle stores (Big 7), unmanned X-Stores, and co-brand stores offer new shopping environments to meet the needs of customers in business districts.

- Products:
 - (1) Fresh foods: In response to changes in demographics and lifestyles, our supply chain continues to provide stable quality products, optimize three major foods, sauces and seasonings, as well as improve production processes and equipment. PCSC also collaborates with famous restaurants and chefs to develop restaurant-quality meals. We are striving to become “the neighborhood kitchen,” providing safe, delicious, high-quality products to meet customer needs. In response to healthy lifestyle trends, PCSC has been developing vegetarian frozen food products, opened a vegetarian food section, and a section for selling “Simple Fit” products.
 - (2) Coffee: CITY CAFE continues to bolster its brand image and fresh quality management through the “eight major factors that ensure coffee quality”, including water, equipment, roasting, beans, dissemination, visual aesthetics, perception, and people. PCSC continues refining our differentiated products, promoting “CITY CAFE”, “CITY PRIMA”, “!+? CAFE RESERVE” three brands as well as “CITY Fresh Tea” and pearl refreshments to enhance customer loyalty.
- Services: PCSC has continued to increase store numbers throughout Taiwan, so that with our comprehensive logistic/POS systems, we can provide customers more convenient services. To establish a digital service platform that customers can always rely on, PCSC integrated OPENPOINT membership with multiple payment tools (OPEN Wallet, icash Pay, etc), allowing customers to use it to purchase as well as accumulate and redeem points.

(2) General economic and industry overview

1. General economic analysis

Affected by the trade war between the U.S. and China, global manufacturing output and international trade volume continued to decline in 2019, further slowing down world economic growth. However, factors like transferred orders, investments returning from abroad, and increasing investment in semi-conductor equipment have driven domestic demand in Taiwan. In 2019, Taiwan's economic growth was 2.71%, increasing 0.08% over 2018's 2.63%. Taiwan exports declined 1.4%, with a favorable balance of trade of US\$43.5 billion. As for commodity prices, in 2019, the Consumer Price Index (CPI) annual growth rate increased by 0.56%, down 0.79% over 2018's 1.35%, while the average unemployment rate for 2019 was 3.73%, representing a small increase over 2018.

2. Industry overview

In 2019, total sales in the retail sector reached NT\$3.8523 trillion, a 3.1% increase over 2018. The growth was a result of the gradually improving economy, which saw 66,000 jobs added and Taiwan stock market stay above 10,000 points, driving domestic consumption. In the general merchandise category, total sales was NT\$1.2727 trillion, representing a 4.1% increase over the previous year, including the convenience store industry which grew 3.1% over 2018 with NT\$331.6 billion in total sales. Influenced by lower prices in oil and in the communication sector, the Consumer Price Index (CPI) rose by 0.56% in 2019, 0.79% lower than 2018's 1.35%. The core CPI (which excludes vegetable, and fruit, and energy, which are easily affected by seasonal and unforeseen events) rose by 0.49%. Food prices increased by 1.91%; eating out increased by 1.55%. In 2019, the average monthly salary for all employed workers increased by 2.40%. Consumers wanted better quality products and more value for their money. This is a good principle for keeping tabs on the needs of consumers in their daily lives. PCSC will gradually focus on differentiating products and services to enhance the shopping experience of customers at our stores.

Through the end of 2019, key players in the convenience store industry had the below numbers of stores:

	7-ELEVEN	FamilyMart	Hi-Life	OK	Total
No. of Stores	5,655	3,553	1,405	794	11,407

3. Vertical supply chain

Based on “focused operations, traceability, and winning consumer trust”, PCSC's food safety policies have as their top priority safety and quality. We have established a Product Safety Committee that has set up a systematic management system for PCSC's own products. It meets regularly each year to discuss such topics as government regulations, OEM and supplier evaluations and deficiencies, product safety information as well as product safety monitoring programs and their implementation status to ensure that the products on our shelves are safe. To enhance the quality control of our own products, we worked with Taiwan Delica Foods to set up a management database to trace and manage materials and suppliers. In addition, as the first retailer to have an internationally certified quality assurance lab in Taiwan that meets ISO17025 standards as well as accreditation from both the TFDA (Taiwan Food and Drug Administration) and TAF (Taiwan Accreditation Foundation), PCSC continues to expand our testing capabilities to provide customers with safer, more convenient, and more delicious food products. In our franchise operations, we will expand individual store autonomy and individual product management to ensure sales growth in our stores. Operating efficiency of stores has increased through system optimization and the introduction of labor-saving equipment. PCSC continues to improve our franchise system, resulting in year over year increases in franchisee compensation and the proportion of franchise outlets. PCSC continues to build a happy Company, to positively impact society, and to work towards environmental sustainability. By valuing our partners, expanding store locations, and developing innovative products and services, we are creating a virtuous circle that benefits both business and our community.

Operating Highlights

4. Product development trends and competitiveness

(1) Product development trends

Factors such as an aging population, people choosing to have fewer children, and marry later or remain single, are driving changes in Taiwan's demographics and lifestyles. The dining-out market has continued to grow and the number of competitors to increase. Food safety is our top concern as we offer consumers high-quality, appealing products. Meeting the needs of our customers and winning their trust are important issues for us. In addition, in the face of rapidly changing technology, online shopping has become increasingly popular and online marketing more effective. With changes in consumption trends, PCSC not only strives to meet customer needs, but has also created a new shopping environment, offering customers experience, entertainment, and education. Industries continue to create business opportunities as they deal with these changes in consumer trends. Examples include differentiated products in our channel, C2C online shopping, business opportunities in senior citizen consumers, healthy foods, the lives of singles and small families, consumption patterns of those eating out. All of these represent potential for high growth.

(2) Product competitiveness

- Dining-out business opportunities: Faced with the lives of singles and small families as well as the preference for dining out, PCSC continues to develop a large variety of safe, tasty ingredients and foods for people looking for fast, safe, convenient meals. In addition, the food delivery business is thriving in response to the rise of the stay-at-home economy, which has changed customer behavior. PCSC has been working with food delivery platforms to serve more customers. The collaboration solved the shortage delivery manpower problem of our stores and meets customer needs when restaurants do not serve meals.
- Mobile business opportunities: The internet, social media, and smart mobile devices have greatly altered consumer behavior. PCSC continues to monitor new technologies and integrate the Group's resources to utilize our vast network of stores, excellent logistics, cash flow systems, and years of operational know-how to best take advantage of these new developments.
- Channel differentiated products: Faced with global economic and consumer trends, PCSC continues to adjust its product structure and brand positioning. We are purchasing and importing products from other countries and entering strategic alliances with noted companies around the world and utilizing technological collaborations to create exclusive tailored products that are aimed at what the customer wants and that are appealing in terms of "value, style, and design", thereby creating a structure characterized by more differentiated products and distinctiveness.
- Membership economy: To make it more convenient for our loyal members to accumulate points, we launched a differentiated membership management strategy that enhances PCSC memberships, points, and payments system, creating a digital consumer experience. PCSC has improved our services, integrating the group memberships, APP functions, and member priority to encourage member loyalty.

(3) Technology and R&D

PCSC continues to integrate a variety of innovative products and services to meet the needs of consumers and to compete with differing modes of competition:

1. Myship: PCSC launched a new transaction supporting platform which provides pickup and payment functions, resolving four main difficulties for individual C2C vendors, organizing shipping information, remittance risks, extra costs, and consolidating accounting orders. PCSC combined cash flow, logistics, and information flow on the platform, providing a fast and easy trading channel and a new selling model with low threshold for small individual vendors on social platforms to penetrate the social e-commerce market.
2. Home delivery service from residences to 7-ELEVEN stores: To take advantage of intensive store network, PCSC works with President Transnet Corp. to promote a more flexible pick up and delivery services. When customers are unable to receive at home, the parcels could be sent to 7-ELEVEN store and be pick up later. PCSC provides a smoother delivery process of last mile for online shopping experience.
3. Enhancing the performance of our EC supply chain: The development of the EC volume measuring device and different types of packaging materials has allowed us to effectively use spaces above and below in our retail stores to expand our EC shelves. We have also introduced a self-service mechanism that the public can employ to pick up packages, simplifying the delivery and pick-up service process.
4. ibon App: We work closely with a specialized matching service that allows ibon app members to search among 400 kinds of services, including design, photography, digital marketing, translation, and cleaning services, so that they can satisfy home, business, and personal needs of any size with the touch of a finger.
5. OPENPOINT membership: PCSC is optimistic about the electronic payment market and has launched the OPEN wallet, a multifunction e-wallet, that accumulates various points and can be used in many channels. In addition, to encourage customer loyalty, PCSC integrated 20 of the Group's membership systems to launch an upgraded "OPENPOINT Group Membership ecosystem" to offer a wider range of services and reach more diverse customers.
6. Intelligent vending machines: 7-ELEVEN launched the "Intelligent vending machine", which incorporates AI technology into the convenience store. Developed for "mini stores", it differs from traditional vending machines that only sell drinks. Intelligent vending machines sell 30 to 40 different products, including frozen desserts as

well as fresh and cooked foods. Stores managers can use IoT (Internet of Things) systems to perform remote product control quality analysis and monitor machine status in real time to reduce manpower and operating costs and increase operating efficiency.

7. The future of convenience stores: PCSC was the first to introduce all-new combination + smart stores which blend "self-service experience areas," "mini stores," and "Big7 lifestyle stores" which is an operation model that brings together under one roof the convenience store, coffee, book store, bakery, and draft beer as well as CTBC Bank smart ATMs to offer digital financial services 24/7 as we once again lead the industry in upgrading and redefining what it means to be a convenient stores as we transform ourselves into "a service platform that customers can rely on and that surpasses their expectations."
8. In 2019, a total of NT\$250,655,000 was spent on R&D and system upgrades.

(4) Short and long-term operating strategies

1. Short-term operating strategies
 - (1)Continue to integrate stores into existing shopping districts and establish a competitive niche with large format stores.
 - (2)Expand store autonomy to create advantages through differentiation.
 - (3)Further integrate virtual and brick and mortar operations to create more virtual service opportunities.
 - (4)Optimize our operational foundation to provide the strength for mid to long-term development.
2. Long-term business development plan
 - (1)Optimize the franchise model to create a win-win situation for both PCSC and franchisees.
 - (2)Implement value marketing and enhance the consumer experience.
 - (3)Implement "lean operations" to use resources to their fullest.
 - (4)Integrate the Group's resources and seek stable profits growth.
 - (5)Actively nurture talent to ensure sustainable development.

2. Market analysis and merchandising

(1) Market analysis

1. Main product (service) sales areas:

PCSC keeps on top of new consumer trends and develops high value products and innovative services to meet customers' evolving needs. Our goal is to become "an innovative, convenient, safe, happy business district, and living center". No matter where you may be, our mission is to provide a wide variety of high quality, trustworthy products and services with a smile.

2. Future market supply and demand and potential growth:

As of the end of 2019, PCSC held a 49.57% share of the convenience store market in terms of store locations, which made us once again the industry leader and the top brand in the minds of consumers. In recent years, the Company has continued to strengthen the operational capacity of individual stores, while increasing their autonomy to best drive growth through efficiency. As boundaries blur in the retail industry, operations will inevitably face more difficult challenges, but as long as we can meet customers' needs for an innovative, convenient, safe, happy experience, there is still great potential in the Taiwanese convenience store sector.

3. Competitive niche:

The convenience store industry in Taiwan is highly competitive. However, by capitalizing on our advantages and rapidly evolving to meet needs, we can stay at the head of the pack. PCSC's major competitive advantages are:

- (1) Positive corporate image and good brand reputation.
- (2) The capability to rapidly develop new products (services) to meet customers' changing needs and use integrated marketing techniques to promote them.
- (3) The scale of channel favorable to successful product research, development, and sales.
- (4) A comprehensive logistics support system and an ever more seamless supply chain.
- (5) Strong IT platform and infrastructure with high potential for further development to meet the needs of consumers and effectively create new business opportunities.
- (6) First-rate franchise model.
- (7) The Group has significant resources that can be integrated and shared between members.

4. Positive and negative factors for future growth and strategic responses:

(1) Positive factors:

- The market for dining-out continues to grow with increasing demand for natural, organic food and beverage options.
- Taiwan's society is aging, while more people are having fewer children and living alone, so there are growing business opportunities from seniors, singles, and small families.
- With the rapid development of a variety of smart mobile devices, online shopping, and social network platforms, information has become highly transparent. Shoppers are seeking out entertaining, timely, and mobile shopping experiences.
- As cross-border internet transactions increase, greater opportunities will arise for business and logistics.

Operating Highlights

(2) Negative factors:

- The convenience store market is becoming saturated, while small-scale supermarkets have sprung up, blurring the line between the two and resulting in increasingly fierce competition both in the virtual and brick and mortar space.
- The decline in the labor population and rising personnel costs will increase overall operating costs.
- Wages have not seen gains, so consumers remain conservative in their purchases.

(3) Strategic responses:

To keep up with the ever-changing consumer marketplace and new purchasing trends, PCSC is committed to opening Lifestyle stores, providing unique 3E(Experience, Education, Entertainment) experiences, to meet the consumers' needs and enhance the enjoyment of wandering about the stores to further build our competitive advantages. Through strict controls, we can offer a variety of safe and delicious fresh food products to meet personalized ready meal and beverage needs. In response to local consumer fondness for caffeinated beverages, PCSC continues to upgrade the quality of our store-brewed tea and coffee drink offerings and now offers premium coffee to fulfill different target customer demand. In services aspect, through mastering and applying new technologies, we committed to bring more convenience in daily life, make our store the preferred choice for customers.

2. In 2019 and up to the printing of this annual report, there is no fine or loss due to environmental pollution.
3. In 2019 and up to the printing of this annual report, competent authorities fined some stores NT\$360,000 for violating the Occupational Safety and Health Act, the Tobacco Hazards Prevention Act, and the Pharmaceutical Affairs Act. In addition, in 2017, the Fair Trade Commission felt that PCSC's franchise agreements were not complete in the information they disclosed, but in October 2019, the Supreme Administrative Court, ruled in favor of PCSC
4. Measures taken: PCSC has already required improvements in all stores and has strengthened education regarding relevant regulations.

(3) Benefits of investments in environmental protection:

1. Effects of major environmental equipment on energy savings

- (1) Installation of ventilation fans in store air-conditioning systems in 2019: Ventilation fans were added to a total of 516 air conditioning systems at a cost of NT\$1,448,000, helping save 69,000 kWh of electricity/month and 830,000 kWh/year
- (2) Installation of energy-saving equipment in 2019: These appliances were introduced in 494 stores at a cost of NT\$41,103,000 and helped save 619,000 kWh of electricity/month and 7,430,000 kWh/year.
- (3) Installation of inverter air conditioning units in 2019: Installed 1,861 inverter air conditioning units at a cost of NT\$112,930,000, helping save 672,000 kWh of electricity/month and 8,060,000 kWh/year.
- (4) Installation of LED light fixtures in 2019: A total of 4,935 sets of light fixtures were installed at a cost of NT\$2,023,000, helping save 254,000 kWh/month and 2,160,000 kWh/year.
- (5) Slurpee machine offseason shutdowns in 2019: 177 Slurpee machines were turned off all day or for 6 hours each day during the four-month slow season, helping save 133,000 kWh over the entire year.
- (6) Installation of steel counters in 2019: Installed 1,042 steel counters at a cost of NT\$127,524,000, helping prevent the felling of 5,210 trees. Wooden cabinets and counters not only require the cutting of a large number of trees, but also the life span of wooden equipment is relatively short and they cannot be refurbished. Steel cabinets and counters have much longer life spans and can be recycled or refurbished.

2. Consumer food safety protections:

PCSC is committed to the safety of our products. Using measures like strengthening raw material source management, manufacturers and suppliers' guidance and audit processes, products checks, etc. to ensure food safety. To ensure that customers could enjoy our products without worry and best protect their health, PCSC performs testing to show that goods are free from preservatives and microorganisms and that packaging meets relevant standards before they can hit our shelves. In 2019, we invested NT\$148,511,000 in product safety management.

(4) Information regarding EU Restriction of Hazardous Substances (RoHS) Directive: The Company and its subsidiaries do not sell directly or indirectly to Europe, and therefore is not subject to RoHS.

5. Labor-management relations

(1) Employee benefits

1. Integration of the group's HR system and resources

PCSC and its affiliates jointly review, revise, and integrate their HR systems to build a robust talent pool and career planning systems for the group. The result is an environment that facilitates a fair and reasonable development of in-house talents.

2. Comprehensive employee benefits

(1) In accordance with the Official Letter Taipei City Social II No. 58459 of the Department of Social Welfare, PCSC established the Employee Benefit Committee on December 21, 1987. Members of the Committee are jointly elected by both labor and management. The Committee regularly hosts a variety of activities, organizes health check-ups for employees, and provides other benefits such as subsidies for in-service education program.

(2) The PCSC benefit scheme includes trips for senior employees, health examinations, employee stock ownership plans, club subsidies, library centers, discount purchasing, wedding and funeral allowances, paid maternity and paternity leave, group insurance, employee travel allowance, and other benefits provided by Employee Benefits Committee to meet employee needs.

(3) To assist employees to effectively and efficiently manage sources of stress from work, home life, and health as well as bolster their physical and emotional health, and encourage positive interpersonal relationships, the Company commissioned the Teacher Chang Foundation, starting in 2009, to provide three hours of free counselling services each year for employees.

(4) In 2010, the Company decided to become more proactive in our care for employees, establishing the "Happy Cooperative" in May of that year. In 2019, the program assisted employees in a total of 3,373 cases and 2,644 caring hours. To enhance the skills and sensitivity of frontline managers when showing concern for others, we collaborated in the organization of four Caring Store Manager Experience Camps. The total of 201 individuals that participated expressed a satisfaction level of 4.8. The camp will be held again next year. In order to enhance the caring skills of existing volunteers, we hold two Volunteer Learning Camps with a satisfaction level of 4.99.

(5) In order to experiencing the happiness from giving than receiving to surrounding, Human resource department cooperate with 1919 Food Bank and hold a charity camp in December 2019 to pack food and spread love for vulnerable families. There are 19 employees and 3 family members joined and expressed a satisfaction level of 4.6.

(6) The Company established "Operational Procedures of Employees assistance in Severe Accidents", encouraging supervisors to offer employees timely concern on behalf of the Company and to take the initiative to offer them paid leave for convalescence and financial help to take care of them in the event of serious accidents.

(7) PCSC provides its employees with competitive salaries and wages and ensures that base pay is greater than the national standard for each year through salary and benefit surveys. In addition, beginning pay for men and women in the same position are given the same base pay to promote equality. Salary and benefits do not differ according to gender or age.

3. Providing entrepreneurial opportunities

PCSC provides an incentive program to encourage its employees to become franchisees, so that they can grow and develop with the Company.

4. Safe and friendly workplace

Received 2018 Taipei City Occupational Safety Award in 2019.

Received international certification for the TAF ISO45001 Occupational Health and Safety Management Systems. To realize health and safety, the Company has taken the following steps:

(1) Establishment of a health and safety organization: The Worker Safety Office holds Health and Safety Committee meetings each quarter and Management Review Meetings each year and encourages contractors to hold safety agreement organization meetings.

(2) Sanitation and safety training and drills: Both new and existing employees participate in training and we hold regular emergency evacuation drills to keep employees' skills fresh.

- Head office evacuation drills: 6 training session/555 individuals engaged.
- License training (Level C/First Aid): 96 sessions/2,338 individuals engaged.

(3) Implement risk assessments and safety audits

- Contractor management: launched Roof Operational Safety Procedures and Damage Notification for repairing existing stores. Accomplished three operational safety assessments for new construction projects and damages identification for digging cable.

- Risk and danger identification: In 2019, we held audits in various locations with 202 corrective actions taken in 79 locations in which 15 actions found zero missing. Improvements were suggested and implemented for 100% improvement.

- Establish Inspection SOP for fresh food commissary: we held two education training to guide supply chain manufacturers for self-inspection of occupational safety.

- Testing indoor air quality to ensure that CO2 emissions were below 1000 ppm, tested water quality and light levels, and performed regular cleaning and disinfection.

Operating Highlights

(4) Healthcare: When employees first report for work, they are signed up for group accident insurance, life insurance, medical insurance, and we provide subsidies for physical examination. PCSC also hired specialized nurse practitioners and doctors from NTU Hospital who provide health counseling services. PCSC further employs health education campaigns, such as the Healthy Life Circle app, e-newsletters, and lectures, to encourage employees to manage their personal health.

(5) Health and safety activities

- PCSC launched Family Wednesdays to remind employees to maintain a proper work-life balance.

(6) Event safety controls: PCSC employs safety control processes to ensure the safety of activities organized by the Company both internally and externally with the goal of no incidents occurring in any of its events. In 2019, PCSC held three events in which 140,000 people participated with no major incidents and no fines paid.

(7) Promoting employee health exams: Strengthen personal health management and prevent illnesses through regular health checks.

- Senior employee in-depth health exams: Provide full-time employees 36-years old or older with at least 5 years of service with NT\$16,000 subsidy every two years for in-depth health exams. In 2019, a total of 2,038 employees could apply for such assistance.
- Annual health exams: We provide employees and food industry workers with annual health exams. In 2019, 6,739 people had health exams with a satisfaction score of 4.3 points and 84.5% participation rate.

(8) Implement employee health management: Employ doctors and nurses to proactively provide employees with individual health care and consultations.

- Doctors: In 2013, PCSC began inviting doctors to provide health services to employees (once every two months). By 2019, this was increased to 16 times per month (3 hours each time), with doctor services totaling 576 hours over the entire year, providing one on one health services 422 times with an employee satisfaction score of 4.8.
- Nurses: A team of four nurses was hired to provide employee healthcare. In 2019, the team provided treatment 353 times. In addition, PCSC introduced a comprehensive health management system, to provide employees who received abnormal exam results with tiered health management, extremely high risk employees with 100% intervention management, follow up treatment tracking, and individual case follow up management.

(9) Promoting occupational disease prevention and health protections for specific group: Establishing maternal health protection for female workers and prevention mechanisms for ergonomic hazards, workplace violence, and fatigue. In 2019, a total of 106 cases had been solved.

(10) Workplace emergency preparedness: Automated external defibrillators (AED) are installed according to office size and number of employees and regular training is held. In 2019, we had AED and CPR training in head office with 535 participants and a satisfaction score of 4.8. PCSC received the Ministry of Health and Welfare's AED Workplace Certification for continuous three years.

(11) Implementing health promotion activities: Encouraging employee self-health management to improve health outcomes through group activities.

- Our health promotion campaign has incorporated an innovative and revolutionary app that features a Healthy Living Community for employees, encouraging all employees to maintain healthy habit of exercising. In 2019, total of four special activities had been implemented (each activity last for one month) with 3,652 participants. In total, there are 1,755 people reached 3,000 kilocalories consuming goal, totaling consumed 973 kg.
- Public funded Cancer screening activities: PCSC held public funded cervical smear screening in 2019 with 24 participants.

(12) Health certifications and healthy workplace competitions

- Received the three year Lequin Health Award from Ministry of Health and Welfare' Health Promotion Administration Outstanding Healthy Workplace Awards in 2019.
- PCSC was awarded the Department of Health, Taipei City Government's Outstanding Nursing Room Certification.

(2) Training and development

1. PCSC's training statistics for 2019 are as follows:

Internal Training			External Training				Online Training				Total		
Training Sessions	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs	
4,686	31,835	139,009	NT\$58.270 million	620	4,516	NT\$2.335 million	197,550	181,662	NT\$4.203 million	230,005	325,186	NT\$64.808 million	

2. In accordance with the Group's core values, PCSC issued "General Skills Needed by Logistics Personnel and Standards for Training Courses" covering training programs developed by PCSC for various positions within the organization to build employee skills and standards.

3. We also issued "Training Management Guidance" to serve as guidelines for training activities. Based on their individual needs, employees can take internal or external training classes or different department can organize their

own training. In addition, they can draw up a "Personal Development Plan" together with their immediate superiors based on each employee's education, experience, work requirements, performance evaluation results, and career development needs to map out the training sequence most suitable for them. Giving employees a goal and a plan encourages disciplined learning and growth to ultimately enrich professional knowledge and skills.

4. For some key identified talents, PCSC has mapped out a program of training and development that includes courses, mobile learning, and personal development plans as well as attending regular meetings to let high-level managers know how well they are doing in their studies and what they have accomplished to help them reach their ideal position within the Company.
5. Potential external training courses are vetted through a rigorous screening process to ensure that all offerings are up to our exacting standards. Depending on the nature of the course and the participants, each class employs unique educational activities. In addition, utilizing the latest technologies, PCSC has built a digital learning platform for online courses to provide a more effective way to attain a competitive edge.
6. Continuing education: At PCSC, employees can take charge of their own learning through the many diverse training channels available, which include guidance by supervisors and peers, knowledge management system, internal and external training programs, lectures and seminars, online learning, and on-the-job training. PCSC also encourages employees to pursue self-enrichment in their spare time to shore up their foundation and professional knowledge through scholarships for outside training and language courses.
7. An internal system for training lecturers that uses Company resources to cultivate enthusiasm and a willingness to share with our partners and train to be specialized internal lecturers to transform our organization into one that places emphasis on learning and sharing. Just before Teachers' Day, the Company recognizes and expresses appreciation to individuals who have lectured internally to help create within them a sense of value and mission.
8. Career development
 - (1) Multi-channel career development opportunities: PCSC has spared no effort in employee training and personal development and we fully support employees' quest for knowledge and enhanced work skills. Through training programs, providing equipment, online resources, and a mentoring system, the Company assists employees to map out their career development plan and provides a diverse range of opportunities for personal growth.
 - (2) Job rotation: We encourage our employees to try new things and to learn by working in various departments, different companies, or even various areas to broaden their horizons and increase competence in a range of skills.
 - (3) Overseas appointments: The Company's overseas expansion provides a unique opportunity for employees to demonstrate their experience and individual strengths. Such an experience can expand their vision and enhance the competitiveness of both the individual and the Company.

(3) Retirement plan

1. Old system under the Labor Standards Act

On June 1, 2014, PCSC modified its employee retirement program, applicable to all existing employees. As stipulated by law, the program calculates an employee's years of service starting with his or her hiring date. Employees who have worked for the Company for less than 15 years (inclusive) shall be granted two basic units for each full year of service. From the 16th year onward, each full year of service shall be translated into one basic unit in the calculation of pensions. Any service period that is less than six month shall be calculated as half a year; while any service period that is between six months and twelve months shall be calculated as one full year. The number of basic units in the calculation of pensions is capped at 45. Pensions are calculated on the basis of years of service and the average monthly salary at the time of retirement. Calculation of average salaries shall be made in compliance with the Labor Standard Act.

2. Service year calculations under the old system for transferred employees:

- Service years for transferred employees include the number of years they served in every PCSC affiliate and/or members of the Uni-President Group.
- The sharing of pensions among affiliates is based on the percentage of the years of service spread over the affiliates that the employee has served.

3. New system under the Labor Pension Act:

Beginning on July 1, 2005, in accordance with the Labor Pension Act, PCSC implemented a new system that is applicable to all employees. Existing employees could opt for the old system under the Labor Standard Act as stated in (1) or the new system under the Labor Pension Act. As stipulated in the Labor Pension Act, the monthly contribution is made based on the Monthly Contribution Wages Classification, which currently amounts to 6% of employee monthly income transferred to a personal retirement account with Bureau of Labor Insurance.

(4) Labor-management relations

1. Open communication channels

PCSC established an internal communication platform which sends out important messages directly to employees. To encourage direct communication between employees and managers, in addition to providing an Integrated Services Center, e-mailbox, and a dedicated stakeholder section of our website that allows employees to get timely answers to their questions, the Company set up an internal suggestion system, which allows employees to offer opinions and suggestions about Company operations directly to management in real time.

Operating Highlights

2. Employee code of conduct

PCSC has written an employee handbook and regulations regarding incentives and rewards and has also set up a committee to implement related affairs. Furthermore, the Company has established an employee code of conduct to spell out specific regulations governing employee behavior. The code of conduct includes the below requirements:

- (1) Employees may not embezzle Company funds for personal purposes, engage in unscrupulous behaviors for profit, participate in illegal acts, violate any contracts, damage public property, or otherwise jeopardize the Company's reputation.
- (2) Employees shall not abuse any other individual, affect other individual's work performance or threaten to exchange the establishment of service contracts, compensations, performance reviews, promotions/demotions, rewards/disciplinary actions with any language or actions that contain sexual requests, that are sexually suggestive, or discriminate on the basis of sex.
- (3) Employees shall not give gifts to managers or treat managers for meals; however, managers may give gifts to subordinates and treat subordinates for meals as a token of gratitude for their hard work.
- (4) Employees shall not be engaged in any unofficial monetary transactions with any business-related vendors or individuals.
- (5) Employees shall not receive any benefits from business-related vendors or individuals.
- (6) Employees shall not make any publications, statements, or displays in the name of the Company without permission from the Company.
- (7) Employees should maintain complete confidentiality in all business activities for which they are responsible and shall never, under any circumstance, assist anyone with interests at odds with those of PCSC or reveal trade secrets to competing enterprises or individuals.
- (8) Employee attendance and behavior shall comply with regulations set forth by HR.

3. Labor-management negotiations:

PCSC has always considered our employees as the most important asset. The Company works to align our vision for the future with the development goals of employees. PCSC also holds regular labor-management meetings as required by law. Therefore, the interaction between PCSC and its employees has been very positive and harmonious over the years.

4. Losses due to labor disputes:

- (1) PCSC provides employees with a comprehensive benefit system, quality working environment, and open communications channels. Therefore, no major labor disputes have occurred and no significant losses have been reported.
- (2) Violations of the Labor Standards Act in the last year up until the printing of this annual report:

Fined NT\$70,000

(3) Current and future amount of money that might have to be paid: None

(4) Countermeasures:

- 1) Enhance work attendance system abnormal management and follow-up mechanism to assist the individual employee and their manager to determine as soon as possible that the situation is abnormal and take appropriate measures and improvements.
- 2) Incorporate store work attendance abnormal confirmation mechanism, including such abnormalities as forgetting to sign in or out, clocking out intentionally late. In addition, checks of internal work attendance management are to be performed each quarter to determine how well stores are doing in implementation. Any that do not pass are to be counseled by OFC and the situation improved.

Note 2: The calculations of the above financial ratios utilize the formulas listed on page 70, which are based on IFRS.

Note 3: The reasons for changes in financial ratios over the past two years:

- Debt to Assets Ratio: The change was primarily caused by increased in assets and liabilities due to initial adoption of IFRS 16 in 2019.
- Long-Term Capital to Property, Plant and Equipment Ratio: The change was primarily caused by increased in non-current liabilities due to initial adoption of IFRS 16 in 2019.
- Current Ratio and Quick Ratio: The change was primarily caused by increased in current liabilities due to initial adoption of IFRS 16 in 2019.
- Interest Coverage: The change was primarily caused by increased in interest expenses due to initial adoption of IFRS 16 in 2019.
- ROE: The change was primarily caused by increased in net income in 2019.
- Cash Flow Reinvestment Ratio: The change was primarily caused by increased in cash dividends in 2018 due to Starbucks Transaction in 2017.
- Operating Leverage: The change was primarily caused by increased in net sales in 2019.

Note 1: Not applicable, as PCSC is a retail business.

Note 2: The calculations of the above financial ratios utilize the formulas listed on page 70, which are based on IFRS.

Note 3: The reasons for changes in financial ratios over the past two years:

- Long-Term Capital to Property, Plant and Equipment Ratio: The change was primarily caused by increased in non-current liabilities due to initial adoption of IFRS 16 in 2019.
- Interest Coverage: The change was primarily caused by increased in interest expenses due to initial adoption of IFRS 16 in 2019.
- Cash Flow Ratio: The change was primarily caused by increased in net cash flows from operating activities in 2019.
- Cash Flow Reinvestment Ratio: The change was primarily caused by increased in cash dividends in 2018 due to Starbucks Transaction in 2017.

Financial Information

※Calculations based on IFRS:

※Financial Structure

(1) Debt to Assets Ratio = total liabilities / total assets

(2) Long-term Capital to Property, Plant and Equipment Ratio = (total shareholders' equity + non-current liabilities) / net property, plant and equipment

※Liquidity

(1) Current Ratio = current assets / current liabilities

(2) Quick Ratio = (current assets – inventory – prepaid expenses) / current liabilities

(3) Interest Coverage = earnings before interest and taxes / interest expenses

※Operating Performance

(1) Average Accounts Receivable Turnover (including accounts receivable and notes receivable arising from business activities) = net sales / average accounts receivable (including accounts receivable and notes receivable arising from business activities)

(2) Average Collection Days = 365 / average accounts receivable turnover

(3) Inventory Turnover = cost of goods sold / average inventory

(4) Average Accounts Payable Turnover (including accounts payable and notes payable arising from business activities) = cost of goods sold / average accounts payable (including accounts payable and notes payable arising from business activities)

(5) Average Inventory Turnover Days = 365 / inventory turnover ratio

(6) Property, Plant and Equipment Turnover = net sales / net property, plant and equipment

(7) Total Asset Turnover = net sales / average total assets

※Profitability

(1) Return on Assets = [net income + interest expense × (1 – effective tax rate)] / average total assets

(2) Return on Equity = net income / average shareholders' equity

(3) Net Margin = net income / net sales

(4) Earnings per Share = (net income attributable to owners of the parent – preferred stock dividends) / weighted average number of shares outstanding

※Cash Flow

(1) Cash Flow Ratio = net cash flows from operating activities / current liabilities

(2) Cash Flow Adequacy Ratio = five year sum of net cash flows from operating activities / five year sum of (capital expenditures+ increase in inventory + cash dividends)

(3) Cash Flow Reinvestment Ratio = (net cash flows from operating activities – cash dividends) / (gross property, plant and equipment / long-term investments + other non-current assets + working capital)

※Leverage

(1) Operating Leverage = (net sales – variable operating costs and expenses) / operating profit

(2) Financial Leverage = operating profit / (operating profit – interest expenses)

Total Equities		44,025,027	45,227,318	1,202,291	2.73%

1. Reasons for variance over the past two years:

- Increases in Other Assets and Total Assets: The change was primarily caused by increased in Right of use assets due to initial adoption of IFRS 16 in 2019.
- Increases in Non-current Liabilities and Total Liabilities: The change was primarily caused by increased in Lease Liabilities-non-current due to initial adoption of IFRS 16 in 2019.

2. Effect of said variance: none

3. Future strategy: The working capital generated from operations and utilization of bank financing is sufficient to support the needs of the Company's operations.

2. Financial performance analysis (consolidated)

Unit: NT\$1,000

Item	Year	2018	2019	Variance	
				Difference	%
Operating Revenue		244,887,853	256,058,888	11,171,035	4.56%

Total Comprehensive Income Attributable to the Parent Company		10,631,150	10,116,764	(514,386)	-4.84%

1. Explanation of variance:

- Decreases in Other consolidated profit and loss: primarily due to depreciation of US dollars.

2. Factors that may impact the Company's sales and financial status over the coming year and proposed responses:

The Company expects that by developing innovative and differentiated products and services, we can maintain steady growth.

3. Cash flow analysis

(1) Cash flow analysis for the past fiscal year:

Unit: NT\$1,000

Cash Balance at the Beginning of 2019	Net Cash Inflow from Operating Activities in 2019	Net Cash Outflows in 2019	Cash Surplus (Shortage)	Remedies for Cash Shortage	
				Investment Plan	Financial Plan
48,530,648	28,836,231	(31,921,484)	45,445,395	-	-

1. Operating activities: The net cash inflow from operating activities was NT\$28.8 billion. The cash inflow remained steady primarily due to stable profits.
2. Investing activities: The net cash outflow from investing activities totaled about NT\$7.7 billion, which was primarily due to acquisition of operations-related fixed assets and increase in lease payments receivable.
3. Financing activities: The net cash outflow from financing activities totaled about NT\$23.6 billion, mainly resulting from payment of lease liabilities and payment of cash dividends.

(2) Remedies for cash shortfall and liquidity analysis: Not applicable to PCSC.

(3) Cash flow analysis for the coming year:

Unit: NT\$1,000

Cash Balance at the Beginning of 2020	Estimated Yearly Net Cash Inflow from Operating Activities	Estimated Yearly Net Cash Outflow	Anticipated Cash Surplus (Shortage)	Remedies for Cash Shortage	
				Investment Plan	Financial Plan
45,445,395	31,102,570	(31,648,116)	44,899,849	-	-

1. Operating activities: Stable revenue is expected in 2020, which should bring in a net cash inflow.
2. Investing activities: Investing outflows will primarily include the purchase of fixed assets.
3. Financing activities: Financing outflows are primarily expected to be the payment of cash dividends.

4. Major capital expenditures in recent years and their impact

(1) Major capital expenditures and sources of capital:

1. 7-ELEVEN Taiwan

Unit: NT\$1,000

Other (e.g., establishment of fresh food processing plants and logistics centers and distribution centers)	Working capital and loans	Annual	841,134	349,822	218,567	272,745

(2) Estimated benefits:

1. Anticipated increase in sales and gross profits:

Unit: NT\$1,000

Year	Item	Sales Value	Gross Profit
2020	Investments in new and existing stores	3,858,500	1,227,201
2021	Investments in new and existing stores	3,974,255	1,267,809
2022	Investments in new and existing stores	4,093,483	1,309,761
2023	Investments in new and existing stores	4,216,287	1,353,101
2024	Investments in new and existing stores	4,342,775	1,397,875

2. Other potential benefits:

The year's capital expenditures were primarily used to introduce new stores, expand store space, and set up new IT equipment, which we expect to have the following benefits:

Expanding to larger format stores provides space for additional seating and creates an inviting shopping experience. Extra room gives customers a place away from home, school, or the office where they can enjoy a comfortable space to eat or relax. IT equipment optimization, on the other hand, will improve operational efficiency.

5. Analysis of investments in subsidiaries in recent years

(1) Investment policy and plan:

PCSC invests in a wide array of business including convenience stores, food and beverages, cosmetics and pharmacies, department stores, super and hypermarkets, and an online shopping website. In order to provide customers with a rich, varied shopping experience, PCSC continually expands into new areas. At the end of 2019, PCSC and its subsidiaries boasted a total of 9,996 retail locations, 2,850 of which are 7-ELEVEN branches in the Philippines. PCSC continues to increase its presence in the nation. Starbucks Taiwan have now exceeded 475 locations. They are working hard to make their stores unique as they continue to maintain their leading position in the market. In the future, we will continue to focus on core business operations to enhance the effectiveness of long-term investments.

(2) Reasons for profits or losses at affiliated enterprises:

Major long-term investments in 2019 include the following:

Unit: NT\$1,000

Company	Description	Amount of Investment in 2019	Main reasons for profit / loss
ICASH Corp.		200,000	Enrich working capital.

(3) Improvement Plan for Investments in Affiliated Enterprises and Investment Plans for the Coming Year

To improve performance at affiliated enterprises currently showing a loss, the Company will adjust the business model, improve the product mix offered to enhance the efficiency and performance.

6. Risk management policies and organizational structure and risk assessment

(1) Risk management policies and structure

PCSC endeavors to maintain a comprehensive risk management system that works to manage risks for the entire organization including consolidated subsidiaries. The Board of Directors, managers at all levels, and employees work together to promote proper implementation of risk management.

In addition to observing relevant regulations, PCSC identifies, analyzes, measures, monitors, responds to, reports, and mitigates all potential risks that could arise from operating activities based on the characteristics and impact of such risks. While working to achieve PCSC's strategic goals, we can also effectively maintain and control potential risk.

The Company's primary risk management structure and the various business units responsible for risk management and its implementation are discussed below:

1. Strategic and operational risks: Each business unit and subsidiary is responsible for the planning and risk assessment of any new investments or operational decisions. PCSC's Office of the President regularly conducts related indicator analysis and tracks performance at the PCSC and affiliated enterprises quarterly meetings and regularly scheduled themed project operation reviews for key affiliated enterprises. Appropriate adjustments to operational strategy are made in accordance with changes in market competition and consumer trends to ensure each business entity's strategy is in line with its operational goals and strategic vision.
2. Financial, liquidity, and credit risks: To respond to changes in related regulations, policies, and the market, PCSC's Finance Office defines a range of strategies, procedures, and indicators to perform regularly-scheduled analysis and evaluation of changes in risk status and respond appropriately in order to mitigate potential risks for the entire company.
3. Market risks: Each business unit analyses and assesses major government policies, laws, and technological advances both in Taiwan and abroad and formulates appropriate response measures to reduce potential future risks. In addition, PCSC established an inter-division Regulation Identification Team and holds regular Regulation Identification Meetings to track the latest changes in Taiwan laws and regulations and formulate appropriate responses. Also, the Crisis Management Team, made up of division managers, was established effectively control and manage any potential or existing market risks and crises.
4. Through risk assessment and regulatory reviews, the Internal Audit Office draws up an annual audit plan and self-inspection procedures and methods, which, when implemented, help to control aforementioned risks. The results of these inspections shall be reported periodically to the Board of Directors.

(2) Risk Assessment and Analysis

1. Impact on company profits of and responses to fluctuations in interest rates, foreign exchange rates, and inflation:

(1) Changes in interest rates: In 2020, due to the COVID-19 pandemic, Taiwan's GDP for the year could show a decline and economic growth for the year might not reach Directorate-General of Budget, Accounting and Statistics' projected 2.37%. The pandemic as well as economic and financial trends both in Taiwan and abroad have pushed the global economy into a downturn. The Central Bank reduced rates in March by 0.25% to stabilize the domestic economy.

Response: PCSC will continue to watch interest rate trends, negotiate prices with various financial institutions, and use other capital market financing channels to control the Company's financing costs.

(2) Changes in exchange rates: The Company buys and sells mainly in NT dollars and foreign currency-denominated products account for a very small proportion of total sales, so fluctuations in exchange rates have no significant effect on our profits and losses.

(3) Inflation: In 2019, the Directorate-General of Budget, Accounting and Statistics announced that the Consumer Price Index (CPI) annual growth rate increased by 0.56%. Growth in Taiwan exports and consumer spending is expected to be limited in 2020 by the COVID-19 pandemic. The global economy still faces a high risk of a continued downward slide which would hold back increase in Taiwan exports. Taiwan's economy is projected to grow 1.92% in 2020, down from that in 2019. In addition, minimum wage has been raised every year for the last few years, driving increases in the costs of eating out and related service, however, due to the COVID-19 pandemic, the inflation outlook will be a downside risk. The forecast CPI annual growth rate has been revised from 0.77% to 0.59%.

Response: PCSC has been enhancing product value, improving gross profit structures, enhancing membership economy, and providing service platforms that customers rely on, to reduce the pressure of increasing costs and impact of inflation on operations.

2. Policies regarding engagement in highly risky or highly leveraged investments, loans to others, endorsements, or derivatives trading; reasons for profits or losses from such activities; and proposed response measures:

(1) Company policy:

PCSC focuses on our retail and distribution business and has not engaged in risky or highly-leveraged investments. However, in order to effectively control and manage business-related risks and enhance the safety of financial operations, PCSC has structured a set of internal management and operational procedures on the basis of the relevant regulations from the Securities and Futures Bureau. These requirements and procedures include "Procedures for Loading of Funds", "Procedures for Acquisitions or Disposals of Assets" and "Procedures for Making of Endorsements". In accordance with the Securities and Futures Bureau's Guidelines Governing Establishment of Internal Control Systems at Publicly Held Companies, PCSC's Internal Audit Office and subsidiaries have defined a set of risk management and assessment procedures.

(2) Status of loans from PCSC and affiliated enterprises to others, endorsements, and derivatives trading and reasons for profit or losses of such activities:

- Loans to others: As of December 31, 2019, The Company and its subsidiaries have no loans to others.
- Endorsements and guarantees: The Company and its subsidiaries have not offered endorsements.
- Derivatives: The Company and its subsidiaries are not engaged in the trade of derivatives.

(3) Future response measures:

- The main goal of the risk control and hedging strategy implemented by PCSC is to avoid operational risks. To this end, should the Company utilize derivatives, it should be to establish a hedging position. Financial products shall be selected for the purpose of hedging operational risks resulting from interest expenses, assets, or liabilities.
- PCSC's Finance Office is responsible for managing the Company's derivatives trading position and performs routine market evaluations. If the Finance Office discovers unusual trading or losses, it shall take necessary action and report the situation to the Board immediately. In addition, the Company also conducts routine performance evaluations of derivative trades to ensure they are in line with our operating strategy and that the risks are maintained within the Company's risk tolerance.

3. R&D Plans and Projected Investment:

(1) Member/Point System: We integrated Group memberships and provided members a single account number that can access all Group channels, facilitating accumulation and redemption of reward points. We are taking advantage of the characteristics of block chains to enhance safety and reduce risks. PCSC has linked the Group's point platforms with external ones to increase point value.

(2) EC Systems Optimization: PCSC has optimized Myship and refrigerated delivery services to provide customers better EC services.

(3) Intelligent Vending Machine: PCSC upgraded our intelligent vending machines' analyzing, marketing, and payment functions to provide customers a more convenient shopping experience.

(4) R&D Plans for 2020 are expected to cost NT\$93.26 million and include the following:

Plan	Current Progress	Additional Funds to be Invested	Expected Date of Completion	Main Factors Determining the Success of Future R&D
Increasing membership reward point system functions	System in development	NT\$78.24 million	2020/07	In response to development trends in membership reward points, enhancing the service platforms of current relevant transactions.
Optimizing lottery winning receipt redemption process	Process and system in development	NT\$6.59 million	2020/12	In response to the government promotion, optimizing the lottery winning receipt redemption process.
New intelligent vending machine functions	System in development	NT\$6.42 million	2020/12	Optimizing current intelligent vending machine functions to facilitate store operations.
Optimizing EC system	Process and system in development	NT\$2.01 million	2020/12	In response to e-commerce trends, optimizing the current service platform.

4. Financial impacts of and responses to major changes to domestic and overseas laws and government policies:

(1) PCSC has already taken appropriate measures to respond to recent changes in government policies and laws in Taiwan and overseas, so these changes did not significantly impact the Company's financial operations.

(2) In response to the Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter announced in March 2011 by the Securities and Futures Bureau, PCSC established the Remuneration Committee in June 2011. In June 2012, PCSC held new elections for the Company's Board of Directors, invited independent directors to the Board, and established the Audit Committee in response to the March 2011 announcement of the Applicable Scope of Appointment of Independent Directors for Publicly Traded Companies and to optimize the Company's corporate governance. In response to amendments to the Company Act, PCSC implemented electronic voting and voting by polls at the General Shareholders' Meeting in 2013. In 2014, PCSC formulated Ethical Best Practice Principles and Corporate Governance Best Practice Principles, and in 2015 further added the Ethical Operating Procedures and Behavior Guidelines and Procedures Governing Applications to Suspend and Resume Trading. In July 2015, Article 235 of the Company Act was revised, while Article 235-1 was added. In response, the General Shareholders' Meeting passed an amendment to the Articles of Incorporation in June 2016 to change the sources and order of employee and director remuneration to comply with the law. PCSC established the interdepartmental Regulations Identification Team, which issues a quarterly report and keeps up to date on the latest regulatory changes.

5. Financial impacts of and responses to technological and industry changes:

(1) The impacts of traditional media continue to decline and more and more physical channels provide multiscreen services in an attempt to upgrade stores and equipment into new media platforms. PCSC will continue to evaluate and pay close attention to how this trend develops.

(2) The physical financial services industry will become digitalized and physical bank branches continue to decrease in number, but consumers still need a certain degree of financial services. PCSC will continue to analyze whether or not this trend offers potential opportunities for the retail industry and develop relevant services.

(3) With the five-day work week law now in effect, labor costs and recruiting new personnel for stores will be more of a challenge. PCSC will continue to research labor-saving operations and providing the employee work time management system needed by stores.

(4) As technology advances rapidly, most risks to information safety are caused by network environment and employee behavior, including hacker attacks, traffic flow attacks, software (ransom) virus, phishing, spam, software updates, and access control. Possible effects on the Company include internal data being stolen or altered, account losses, impact on daily operations, and damage to company reputation. The Company has drawn up internal information safety management regulations and regularly conducts inspections to ensure that they are being implemented, regularly performs system information safety testing, utilizes information safety equipment, such as firewalls, to review user behavior, enhance anti-virus mechanisms and encryption mechanisms. Our personal data protection measures have received TPIPAS certification and are tested and evaluated regularly by a third party, and employees receive regular training to enhance information safety awareness.

6. Impacts of changes in corporate image on corporate crisis management and related response measures:

PCSC does our utmost to provide the public with safe, convenient, high-quality products and services. Our standards are higher than those required by law to best protect the interests of our customers. As a good corporate citizen, PCSC actively takes part in social welfare and environmental protection activities as we work to achieve our goal of sustainable corporate development. In 2019, PCSC was selected as Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets Index for the first time, and was ranked among the top 5% in the fifth Taiwan Corporate Governance Evaluation System. PCSC was also selected as a constituent stock of FTSE4Good Emerging Index and MSCI Global Sustainability Indices.

Furthermore, PCSC has also implemented comprehensive disaster response measures to deal with any natural or manmade event. Should a crisis occur, PCSC headquarters will immediately convene an interdepartmental crisis management team, which is responsible for taking stock of the situation, discussing responses, and rapidly working to minimize the effect of the crisis on the Company. PCSC also holds regular internal regulation identification meetings

and has fully implemented Taiwan Personal Information Protection and Administration System (TPIPAS) to keep track of and ensure the Company is in full compliance with all relevant laws, regulations, and requirements. The Company also works closely with government agencies, with our locations functioning as service points. To confront the impacts of increasingly frequent climate disasters, the key is real-time information. In coordination with the Executive Yuan, Water Resources Agency, and Ministry of Transportation, PCSC has become the first private company incorporated into the Disaster Prevention and Rescue System to provide the Taiwanese public with early warning information and communications during disaster relief operations.

Appendix | Statement of Internal Control System

Statement of Internal Control System of President Chain Store Corporation (translated from Chinese)

Date: February 27, 2020

According to the results of a self-assessment, President Chain Store Corporation (the "Company") states the following with regard to its internal control system during the year 2019:

1. The Company acknowledges that the establishment, implementation and maintenance of internal control system are the responsibility of Board of Directors and management, and the Company has established the system. The internal control system is aimed to reasonably assure that the goals such as the effectiveness and the efficiency of operations (including profitability, performance and safeguard of assets), the reliability, timeliness and transparency of financial reporting and the compliance of applicable law and regulations are achieved.
2. The internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of achieving the aforementioned three goals. Moreover, due to the change of environment and conditions, the effectiveness of internal control system will be changed accordingly. Nevertheless, the internal control system has self-monitoring mechanism, and the Company will take remedial action in response to any identified deficiencies.
3. The Company evaluates the effectiveness of design and operation of its internal control system based on the judgment items ruled in "Regulations Governing Establishment of Internal Control Systems by Public Companies" (collectively referred herein as "Regulations"). The judgment items of internal control system adopted by the Regulations are the process of management control, and there are five key components of internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities. Each component also includes a certain number of items, and seeing the Regulation for the foregoing items.
4. The Company assessed the effectiveness of design and operation of its internal control system according to the aforementioned Regulations.
5. Based on the foregoing results of evaluation, the Company believes that the internal control system (that includes the supervision and management of subsidiaries), to provide reasonable assurance over the aforementioned goals are accomplished, including the effectiveness and the efficiency of operations, the reliability, timeliness and transparency of financial reporting and the compliance of applicable law and regulations.
6. This statement will be the main content of Annual Report and Prospectus, and will be disclosed publicly. If the above contents contain any falsehood, concealment, or illegality, it will involve in legal liability under Article 20, 32, 171 and 174 of Securities and Exchange Law.
7. This statement has been approved by the meeting of Board of Directors held on February 27, 2020, and those 13 directors in presence all affirm at the contents of this statement.

Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2019, pursuant to "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," the company that is required to be included in the consolidated financial statements of affiliates, is the same as the company required to be included in the consolidated financial statements under International Financial Reporting Standards 10. And if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiary companies, it shall not be required to prepare consolidated financial statements of affiliates.

Hereby declare,

PRESIDENT CHAIN STORE CORP.

February 27, 2020

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders of President Chain Store Corp.

Opinion

We have audited the accompanying consolidated balance sheets of President Chain Store Corp. and its subsidiaries (the "Group") as of December 31, 2019 and 2018, and the related consolidated statements of comprehensive income, of changes in equity, and of cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the reports of other independent accountants (which are described in the Other matters section of our report), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of President Chain Store Corp. and its subsidiaries as of December 31, 2019 and 2018, and its consolidated financial performance and its consolidated cash flows for the years then ended, in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with this Code. Based on our audits and the reports of other independent accountants, we believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements for the year ended December 31, 2019 are stated as follows:

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(25) and 6(24) to the consolidated financial statements for the accounting policy and the details of accounting relating to this key audit matter.

Retail sales revenue is generated by point-of-sale (POS) terminals, which record the merchandise name, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the ERP (enterprise resource planning) system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report to record the sales information and payment methods (including cash, gift certificates, credit cards and electronic payment devices, etc.) and the cash deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Inspected whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
2. Inspected whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
3. Inspected whether merchandise master file data had been periodically transferred to POS terminals in stores;
4. Inspected whether sales information in POS terminals was periodically and completely transferred to the ERP system and automatically generated sales revenue journal entries;
5. Inspected manual sales revenue journal entries and relevant documents;
6. Inspected daily cash reports and relevant documents; and
7. Inspected whether cash deposit amounts recorded in daily cash reports were in agreement with bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(12) and 6(4) to the consolidated financial statements for the accounting policy and the details of accounting relating to this key audit matter.

As there are various kinds of merchandise, the retail inventory method is used to estimate the cost of inventory and the cost of goods sold. The retail inventory method uses the ratio of the cost of goods purchased to the retail value of goods purchased (known as cost-to-retail ratio) to calculate the cost of inventory and the cost of goods sold. The calculation of the cost-to-retail ratio highly relies on the goods purchased both at cost and retail price, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Interviewed management to understand the calculation of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;

2. Inspected whether additions and changes to the merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.) had been properly approved and the data correctly entered in the merchandise master file;
3. Inspected whether the cost and retail price of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
4. Inspected whether the POS records for the cost and retail price of inventory purchased were periodically and completely transferred to the ERP system and ascertain whether the records could not be changed manually; and
5. Calculated the cost-to-retail ratio to verify its accuracy.

Other matter – Using the work of other auditors

We did not audit the financial statements of certain consolidated subsidiaries, which reflect total assets of NT\$17,667,481 thousand and NT\$10,081,554 thousand, representing 9.1% and 7.9% of total consolidated assets as of December 31, 2019 and 2018, respectively, and total operating revenue of NT\$32,407,436 thousand and NT\$25,801,037 thousand, representing 12.7% and 10.5% of total consolidated operating revenue for the years then ended, respectively. Those financial statements were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the financial statements and the information on investees disclosed in Note 13 were based solely on the reports of other independent accountants.

Other matters – Parent company - only financial reports

We have audited and expressed an unmodified opinion with an explanatory paragraph on the parent company only financial statements of President Chain Store Corp. as of and for the years ended December 31, 2019 and 2018.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal controls as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the financial reporting process of the Group.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Group.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

Consolidated Financial Statements and Report of Independent Accountants

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2019 and are, therefore, considered to be the key audit matters. We describe these matters in our auditor's report unless the law or regulations preclude public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PRESIDENT CHAIN STORE CORP. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

(1) President Chain Store Corporation (the "Company") was established on June 10, 1987. The main businesses of the Company and its subsidiaries (collectively referred herein as the "Group") are managing convenience stores, restaurants, drugstores, department stores, supermarkets and online shopping stores. Business areas include Taiwan, Mainland China, Philippines and Japan. The common shares of the Company have been listed on the Taiwan Stock Exchange since August 22, 1997. Details of the Group's main operating activities and segment information are provided in Notes 4 and 14.

(2) The Group's ultimate parent company is Uni-President Enterprises Corp., which holds 45.4% equity interest in the Company.

2. DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorized for issuance by the Board of Directors on February 27, 2020.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC effective from 2019 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
IFRS 16, 'Leases'	January 1, 2019
Amendments to IAS 19, 'Plan amendment, curtailment or settlement'	January 1, 2019
Amendments to IAS 28, 'Long-term interests in associates and joint ventures'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 16, 'Leases'

(a) IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

(b) The Group has elected to apply IFRS 16 by not restating the comparative information (referred herein as the 'modified retrospective approach') when applying "IFRSs" effective in 2019 as endorsed by the FSC. Accordingly, the Group increased 'right-of-use asset' by \$52,750,102, increased 'lease liability' by \$52,938,613, decreased 'prepayments' by \$270,440, decreased 'property, plant and equipment' by \$396,233, decreased 'long-term prepaid rent' by \$84,482 (recognized as 'other non-current assets'), and decreased 'other payables' by \$939,666 with respect to the lease contracts of lessees on January 1, 2019.

(c) The Group has used the following practical expedients permitted by the standard at the date of initial application of IFRS 16:

- The use of a single discount rate to a portfolio of leases with reasonably similar characteristics.
- The accounting for operating leases whose period will end before December 31, 2019 as short-term leases and accordingly, rent expense of \$299,079 was recognized for the year ended December 31, 2019.
- The exclusion of initial direct costs for the measurement of 'right-of-use asset'.

(d) The Group calculated the present value of lease liabilities by using the weighted average incremental borrowing interest rate range from 0.88% to 8.54%.

(e) The Group recognized lease liabilities which had previously been classified as 'operating leases' under the principles of IAS 17, 'Leases'. The reconciliation between operating lease commitments under IAS 17 measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate and lease liabilities recognized as of January 1, 2019 is as follows:

Operating lease commitments disclosed by applying IAS 17 as at December 31, 2018	\$	69,815,079
Add: Lease payable recognized under finance lease by applying IAS 17 as at December 31, 2018		6,962
Adjustments relating to changes in the index or rate affecting variable lease payments		496,223
Less: Short-term leases	(109,383)
Contracts reassessed as service agreements	(132,797)
Leases not yet commenced to which the lessee is committed	(14,328,676)
Total lease contracts amount recognized as lease liabilities by applying IFRS 16 on January 1, 2019	\$	55,747,408
Incremental borrowing interest rate at the date of initial application		0.88%~8.54%
Lease liabilities recognized as at January 1, 2019 by applying IFRS 16	\$	52,938,613

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2020 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1 and IAS 8, 'Disclosure Initiative- Definition of Material'	January 1, 2020
Amendments to IFRS 3, 'Definition of a business'	January 1, 2020
Amendments to IFRS 9, IAS 39 and IFRS 7, 'Interest rate benchmark reform'	January 1, 2020

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17 'Insurance contracts'	January 1, 2021
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2021

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities at fair value through profit or loss.
 - (b) Financial assets and liabilities at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less the present value of defined benefit obligations.

B. The preparation of financial statements, in conformity with IFRSs, requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. The basis for preparation of consolidated financial statements is as follows:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

- (a) The Company liquidated the subsidiary, Afternoon Tea Taiwan Corp., Limited, and the process of cancellation of registration has been completed in February 2019.
- (b) As the Company controls the financial and operating policies of Retail Support International Corp., the latter is included as a subsidiary in the consolidated financial statements.
- (c) The Company liquidated the subsidiary, Vision Distribution Service Corp., and the process of cancellation of registration has been completed in February 2019.
- (d) The Company liquidated the subsidiary, PCSC Restaurant (Cayman) Holdings Limited, and the process of cancellation of registration has been completed in September 2019
- (e) The Company liquidated the subsidiary, PCSC (Chengdu) Hypermarket Limited, and the process of cancellation of registration has been completed in March 2019.
- (f) The Company liquidated the subsidiary, Shanghai President Chain Store Corporation Trade Co., Ltd., and the process of cancellation of registration has been completed in May 2019.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

B. Translation of foreign operations

- (a) The operating results and financial position of all the subsidiaries, associates and jointly arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is an associate or jointly arrangements exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Group retains partial interest in the former foreign associate or jointly arrangements after losing significant influence over the former foreign associate, or losing joint control of the former jointly arrangements, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- (d) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within 12 months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than 12 months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be paid off within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be paid off within 12 months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than 12 months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations (including time deposits with contract period less than 12 months) are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
 - (a) The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
 - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(11)Leasing arrangements (Lessor)-operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12)Inventories

- A.Inventories are initially recorded at cost. Cost of consolidated entities which manage convenience stores is determined using the retail inventory method while cost of other subsidiaries is determined in accordance with the type of business.
- B.Ending inventories are stated at the lower of cost and net realizable value. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13)Investments accounted for using equity method - associates

- A.Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- B.The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C.When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in "capital surplus" in proportion to its ownership.
- D.Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E.In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then "capital surplus" and "investments accounted for using the equity method" shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- F.Upon loss of significant influence over an associate, the Group remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- G.When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- H.When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

(14)Investment accounted for using the equity method - joint ventures

The Group accounts for its investment interests in joint ventures using the equity method. Unrealized profits and losses arising from transactions between the Group and joint ventures are eliminated to the extent of the Group's interest in the joint venture. However, when the transaction provides evidence of a reduction in the net realizable value of current assets or an impairment loss, all such losses shall be recognized immediately. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.

(15)Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are audited, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors", from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	3~50 years
Transportation equipment	2~15 years
Operating equipment	2~16 years
Leasehold assets	1~20 years

(16)Leasing arrangements (lessee) - right-of-use assets/ lease liabilities (Effective from 2019)

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - (a) Fixed payments, less any lease incentives receivable;
 - (b) Variable lease payments that depend on an index or a rate; and
 - (c) Amounts expected to be payable by the lessee under residual value guarantees.
 The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability;
 - (b) Any lease payments made at or before the commencement date;
 - (c) Any initial direct costs incurred by the lessee; and
 - (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.
 The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(17)Leases (lessee) (Prior to 2019)

Payments made under an operating lease (net of any incentives received from lessor) are recognised in profit or loss on a straight-line basis over the lease term.

(18)Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 10 to 50 years.

(19)Intangible assets

A. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 1 to 15 years.

B. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

C. License agreement and customer list and other intangible assets

License agreement and customer list acquired in business combination are recognized at fair value at the acquisition date. Other intangible assets are separately acquired trademarks and licenses which are stated at historical cost. The latter has a finite useful life and is amortized on a straight-line basis over its estimated useful life.

(20) Impairment of non-financial assets

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.
- B. The recoverable amounts of goodwill are evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(21) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Provisions

The Group's provisions are presented in "Other non-current liabilities". Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(23) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

- iii. Past service costs are recognized immediately in profit or loss.

C.Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognizes expense when it can no longer withdraw an offer of termination benefits or it recognizes related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D.Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(24)Income tax

- A.The tax expense for the year comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B.The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C.Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D.Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E.A deferred tax asset shall be recognised for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

(25)Revenue recognition

A.Sales of goods

- (a) The Group operates a chain of retail stores. Revenue from the sale of goods is recognized when the Group sells a product to the customer.
- (b) Payment of the transaction price is due immediately when the customer purchases the product. It is the Group's policy to sell its products to the end customer with a right of return. Therefore, a refund liability and a right to the returned goods (included in other current assets) are recognized for the products expected to be returned. Accumulated experience is used to estimate such returns using the expected value method. Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. The validity of this assumption and the estimated amount of returns are reassessed at each reporting date.

(c) The Group operates a loyalty program where retail customers accumulate points for purchases made which entitle them to discount on future purchases. The points provide a material right to customers that they would not receive without entering into a contract. Therefore, the promise to provide points to the customer is a separate performance obligation. The transaction price is allocated to the product and the points on a relative stand-alone selling price basis. The stand-alone selling price per point is estimated on the basis of the discount granted when the points are redeemed and on the basis of the likelihood of redemption, based on past experience. The stand-alone selling price of the product sold is estimated on the basis of the retail price. A contract liability is recognized for the transaction price which is allocated to the points and revenue is recognized when the points are redeemed or expire.

B. Sales of services

The Group provides delivery services. Revenue from delivering services is recognized when the services have been provided.

C. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(26) Business Combination

A. The Group uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the Group measures at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to the proportionate share of the entity's net assets in the event of liquidation at either fair value or the present ownership instruments' proportionate share in the recognized amounts of the acquiree's identifiable net assets. All other non-controlling interests should be measured at the acquisition-date fair value.

B. The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previous equity interest in the acquiree over the fair value of the identifiable assets acquired and the liabilities assumed is recorded as goodwill at the acquisition date. If the total of consideration transferred, non-controlling interest in the acquiree recognized and the fair value of previously held equity interest in the acquiree is less than the fair value of the identifiable assets acquired and the liabilities assumed, the difference is recognized directly in profit or loss on the acquisition date.

(27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The Group has no such assumptions and estimates which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	December 31, 2019	December 31, 2018

B. Information on (impairment loss) reversal of impairment loss on property, plant and equipment is provided in Note 6(13).

C. Information on property, plant and equipment pledged to others as collateral is provided in Note 8.

(8) Leasing arrangements - lessee

Effective from 2019

A. The Group leases various assets including land, buildings, transportation equipment, etc. Rental contracts are typically made for periods of 1 to 41 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2019	For the year ended December 31 2019
	Carrying amount	Depreciation charge
Land	\$ 677,359	\$ 137,324
Buildings	66,682,465	11,679,988
Machinery and equipment	72,211	39,389
Other equipment	57,577	20,814
	<u>\$ 67,489,612</u>	<u>\$ 11,877,515</u>

C. For the year ended December 31, 2019, the additions to right-of-use assets was \$28,665,757.

D. The information on income and expense accounts relating to lease contracts is as follows:

Items affecting profit or loss	For the year ended December 31, 2019
Interest expense on lease liabilities	\$ 1,090,750
Expense on short-term lease contracts	344,600
Expense on leases of low-value assets	64,297
Expense on variable lease payments	620,688
Gain on sublease of right-of-use assets	544,513

E. For the year ended December 31, 2019, the Group's total cash outflow for leases was \$13,450,160.

F. Variable lease payments

(a) Some of the Group's lease contracts contain variable lease payment terms that are linked to sales generated from a store or department store counter. For the above-mentioned stores, up to 4.43% of lease payments are on the basis of variable payment terms and are accrued based on the sales amount. Variable payment terms are used for a variety of reasons. Various lease payments that depend on sales are recognized in profit or loss in the period in which the event or condition that triggers those payments occurs.

(b) A 1% increase in the aggregate sales amount of all stores with such variable lease contracts would increase total lease payments by approximately \$6,207.

G. The Group's leases not yet commenced to which the lessee is committed are business premises for the lessees, and the lease liabilities undiscounted amount at December 31, 2019 is \$2,597,780.

(9) Leasing arrangements – lessor

Effective from 2019

A. The Group leases various assets including land, buildings, machinery and equipment, etc. Rental contracts are typically made for periods of 1 and 35 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

B. Information on profit or loss in relation to lease contracts is as follows:

	For the year ended December 31, 2019	For the year ended December 31, 2018
Rental revenue	\$ 1,568,808	\$ 1,552,490
Rental revenue from variable lease payments	\$ 1,201,823	\$ 1,212,481

C. The maturity analysis of the undiscounted lease payments in the operating leases is as follows:

	December 31, 2019
2020	\$ 256,072
2021	206,455

(13) Impairment of non-financial assets

A. The Group recognized gain on reversal (impairment loss) for the years ended December 31, 2019 and 2018 was \$13,618 and \$10,788, respectively. Details of such gain (loss) are as follows:

	For the year ended December 31, 2019		For the year ended December 31, 2018	
	Recognized in profit or loss	Recognized in comprehensive income	Recognized in profit or loss	Recognized in comprehensive income

	<u>\$ 13,618</u>	<u>\$ -</u>	<u>(\$ 10,788)</u>	<u>\$ -</u>

B. The Group performs impairment testing annually. The recoverable amount has been determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by the management covering a five-year period. The recoverable amount calculated using the value-in-use exceeded their carrying amount, so goodwill was not impaired. The key assumptions used for value-in-use calculations are as follows:

- (a) Discount rate: Estimated based on weighted average cost of funds. The discount rate for the years ended December 31, 2019 and 2018 were 7.43% to 12.68%.
- (b) Future value growth rate: Refer to the past long-term average economic growth rate of mature economies and long-term price index growth rate and market competition. The future value growth rate for the years ended December 31, 2019 and 2018 were 0.5% to 1.0%.

Management determined budgeted gross margin and operating profit margin based on past performance and its expectations of market development. The weighted average growth rates used are consistent with the forecasts included in industry reports. The discount rates used are pre-tax and reflected specific risks relating to the relevant operating segments.

(18) Pensions

A. The Company and its domestic subsidiaries operate a defined benefit pension plan, in accordance with the Labor Standards Law, which covers all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last six months prior to retirement. The Company and its domestic subsidiaries contributes monthly an amount equal to 2%-8% of employees' monthly salaries and wages to a retirement fund at the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions for the deficit by next March. Also, the subsidiary, Philippine Seven Corporation has defined benefit pension plan.

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2019 and 2018 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the year ended December 31, 2019	For the year ended December 31, 2018
Discount rate	0.75%~5.16%	1.00%~7.53%
Future salary increases	2.00%~5.50%	2.00%~5.50%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2019				
Effect on present value of defined benefit obligation	(\$ 231,284)	\$ 241,943	\$ 236,311	(\$ 226,289)
December 31, 2018				
Effect on present value of defined benefit obligation	(\$ 234,734)	\$ 245,789	\$ 240,476	(\$ 230,362)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2020 amounts to \$136,250.

(f) As of December 31, 2019, the weighted average duration of the retirement plan is 9 to 24 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$ 174,007
1-2 year(s)	191,810
2-5 years	742,720
Over 5 years	14,161,200
	\$ 15,269,737

B. Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(a) The Company's mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC.) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended December 31, 2019 and 2018 was 14%~20% and 14%~22%, respectively. Other than the monthly contributions, the Group has no further obligations.

(b) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2019 and 2018 were \$954,914 and \$929,308, respectively.

(20) Share capital

As of December 31, 2019, the Company's authorized capital was \$10,500,000, consisting of 1,050,000,000 shares of ordinary stock, and the paid-in capital was \$10,396,223 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. The number of the Company's outstanding ordinary shares was both 1,039,622,255 shares as of December 31, 2019 and 2018.

(21) Capital surplus

In accordance with the Company Act of the Republic of China, any capital surplus arising from paid-in capital in excess of the par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law of the Republic of China requires that the amount of capital surplus to be capitalized, as above, should not exceed 10% of paid-in capital each year. Capital surpluses should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(22) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses, then 10% of the remaining amount is to be set aside as a legal reserve. After setting aside or reversing a special reserve, in accordance with related laws, the remaining amount is distributable for the given period. The appropriation of the total distributable amount (that is, the distributable amount for the period along with accumulated unappropriated earnings from prior years) should be proposed by the Board of Directors and voted on by the shareholders at the shareholders' meeting. The dividends and bonus to be distributed to shareholders may be 50%-100% of the total distributable amount, and 50%-100% of dividends are to be distributed as cash dividends, and the remaining undistributed amount to set aside as unappropriated retained earnings.

B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of the legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

C. In accordance with the regulations, the Company shall set aside a special reserve for the debit balance on other equity items at the balance sheet date before distributing earnings. When the debit balance on other equity items is reversed subsequently, the reversed amount should be included in the distributable earnings.

Note: The Group's trust account for advance receipts of gift certificates and deposits.

B. Risk management policies

(a) The Group's risk management and hedging policies mainly focus on hedging business risk. The Group also establishes hedge positions when trading derivative financial instruments. The choice of instruments should hedge risks relating to interest expense, assets or liabilities arising from business operations.

(b) For managing derivative instruments, the treasury department is responsible for managing trading positions of derivative instruments and assesses market values periodically. If transactions and gains (losses) are abnormal, the treasury will respond accordingly and report to the Board of Directors immediately.

(c) There is no related transaction about derivative financial instruments that are used to hedge certain exchange rate risk.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

I. The Group operates internationally and is exposed to foreign exchange risk arising from of the Company and its subsidiaries used in various functional currency, the transactions primarily with respect to the USD and RMB. Exchange risk arises from future commercial transactions and recognized assets and liabilities.

II. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currencies.

III. The Company's and certain subsidiaries' functional currency is New Taiwan dollar (NTD), and for other certain subsidiaries, the functional currency is Renminbi (RMB). The details of assets and liabilities denominated in foreign currencies whose values would be materially affected by exchange rate fluctuations are as follows:

(Foreign currency:functional currency)	December 31, 2019			December 31, 2018		
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)

JPY : NTD	52,532	0.2760	14,499	80,786	0.2782	22,475
RMB : NTD	996	4.3055	4,288	1,152	4.4654	5,144

IV. Total exchange gain, including realized and unrealized arising from significant foreign exchange variations on monetary items held by the Group amounted to \$5,005 and \$57,437 for the years ended December 31, 2019 and 2018, respectively.

V. Analysis of foreign currency market risk arising from significant foreign exchange variation. Foreign exchange risk with respect to USD primarily arises from the exchange gain or loss resulting from foreign currency translation of cash and cash equivalents, accounts receivable and accounts payable denominated in USD. As of December 31, 2019 and 2018, if the NTD:USD exchange rate appreciates/depreciates by 5% with all other factors remaining constant, the Group's profit for the years ended December 31, 2019 and 2018 would increase/decrease by \$4,224 and \$4,616, respectively. Foreign exchange risk with respect to JPY primarily arises from the exchange gain or loss resulting from foreign currency translation of cash and cash equivalents, accounts receivable, financial assets at fair value through other comprehensive income-non-current and accounts payable denominated in JPY. If the NTD:JPY exchange rate appreciates/depreciates by 5%, with all other factors remaining constant, the Group's comprehensive income for the years ended December 31, 2019 and 2018 would increase/decrease by \$12,397 and \$9,031, respectively.

Price risk

- I. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- II. The Group's investments in equity securities comprise shares and open-ended funds issued by the domestic companies. The prices of equity securities would change due to change of the future value of investee companies. If the prices of these equity securities increase / decrease by 5%, and open-ended funds increase / decrease by 0.25%, with all other variables held constant, the post-tax profit for the years ended December 31, 2019 and 2018 would have increased/decreased by \$8,519 and \$6,395, respectively, as a result of gains/losses on equity securities and open-ended funds classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$40,356 and \$32,231, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- I. The Group's interest rate risk arises from short-term borrowings and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk, which are partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. For the years ended December 31, 2019 and 2018, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars and Philippine Peso.
- II. If the borrowing interest rate had increased/decreased by 0.25% with all other variables held constant, profit, net of tax for the years ended December 31, 2019 and 2018 would have increased/decreased by \$1,825 and \$2,332, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

(b) Credit risk

- I. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at fair value through other comprehensive income.
- II. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.
- III. The Group adopts management of credit risk, whereby the default occurs when the contract payments are past due over a certain number of days.
- IV. The Group assess whether there has been a significant increase in credit risk on that instrument since initial recognition if the contract payments were past due over certain number of days based on the terms.
- V. The Group operates a chain of retail stores, thus the ratio of accounts receivable to total asset is low and the probability that accounts receivable cannot be received is low. The Group classifies customers' accounts receivable in accordance with credit rating of customer. The Group applies the simplified approach to estimate expected credit loss to assess the default possibility of accounts receivable. Movements in relation to the group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2019	
	Accounts receivable	
At January 1	\$	55,464
Provision for impairment		8,640
Reversal of impairment	(3,978)
Write-offs	(1,974)
Effect of foreign exchange	(2,323)
At December 31	\$	55,829

	2018
	Accounts receivable
At January 1_IAS 39	\$ 48,471
Adjustments under new standards	10,889
At January 1_IFRS 9	59,360
Provision for impairment	17,080
Reversal of impairment	3,873
Write-offs	(21,509)
Effect of foreign exchange	(3,340)
At December 31	\$ 55,464

VI. The Group's investment in debt instrument is the government bond, which was issued by R.O.C, the risk of expected credit loss is low. The Group has no unrecognized allowance for investment in debt instrument at fair value through other comprehensive income for the years ended December 31, 2019 and 2018.

VII. The Group has no written-off financial assets that are still under recourse procedures on December 31, 2019 and 2018.

(c) Liquidity risk

- I. Cash flow forecasting is performed by the operating entities of the Group and aggregated by the Group's finance department. It monitors rolling forecasts of liquidity requirements to ensure the Group has sufficient cash to meet operational needs, while maintaining sufficient headroom on its undrawn committed borrowing facilities, at all times, so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, and compliance with internal balance sheet ratio targets.
- II. The Group invests surplus cash in interest bearing current accounts, time deposits, money market fund and marketable securities, and chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the aforementioned forecasting. The Group held money market funds of \$1,696,300 and \$844,225 as at December 31, 2019 and 2018, respectively, which are expected to readily generate cash inflows for the purpose of managing liquidity risk.
- III. The Group has undrawn borrowing facilities of \$12,597,913 and \$14,006,462 as of December 31, 2019 and 2018, respectively.
- IV. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. Except for notes payable, accounts payable and other payables, whose contractual undiscounted cash flows are about book value, maturing within one-year, the amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:		Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
December 31, 2019					
Short-term borrowings	\$ 6,020,015	\$ -	\$ -	\$ -	\$ -
Lease liabilities	12,331,925	12,256,464	10,678,168	37,312,481	
Long-term borrowings (including current portion)	244,733	122,071	99,136	316,524	

Non-derivative financial liabilities:		Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
December 31, 2018					
Short-term borrowings	\$ 7,286,725	\$ -	\$ -	\$ -	\$ -
Long-term borrowings (including current portion)	372,094	264,270	189,983	407,867	

V. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels of the inputs used in valuation techniques to measure the fair value of financial and non-financial instruments are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates and on-the-run Taiwan central government bonds is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investments without an active market is included in Level 3.

B. Fair value information of the Group's investment property at cost is provided in Note 6(10).

C. Financial instruments not measured at fair value

(a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable, other payables and long-term borrowings are approximate to their fair values.

	December 31, 2019			
	Book value	Fair value		
		Level 1	Level 2	Level 3
Financial assets:				
Guarantee deposit paid	\$ 2,911,887	\$ -	\$ -	\$ 2,887,439
Financial liabilities:

Financial liabilities:				
Guarantee deposit received	\$ 3,413,265	\$ -	\$ -	\$ 3,384,951

(b) Guarantee deposits paid/received are measured at fair value, which is calculated based on the discounted future cash flow.

D. The related information for financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) Classification according to the nature of assets and liabilities, relevant information is as follows:

December 31, 2019	Level 1	Level 2	Level 3	Total

	\$ 1,685,222	\$ -	\$ 90,031	\$ 1,775,253

(b) The methods and assumptions the Group used to measure fair value are as follows:

I. The instruments the Group uses market quoted prices as their fair values (that is, Level 1) are listed below:

	Listed shares	Open-ended fund	Government bond
Market quoted price	Closing price	Net asset value	Closing price

II. Except for financial instruments with active markets, the fair value of other financial instruments is measured using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, by discounted cash flow method or other valuation methods, including calculations by applying models using market information available at the consolidated balance sheet date.

E. For the years ended December 31, 2019 and 2018, there was no transfer between Level 1 and Level 2.

F. For the years ended December 31, 2019 and 2018, there was no significant transfer in or out of Level 3.

G. The Group is in charge of valuation procedures for fair value measurements being categorized within Level 3, which to verify the independent fair value of financial instruments. Such assessments are to ensure the valuation results are reasonable by applying independent information to compare the results to current market conditions, confirming the information resources are independent, reliable and in line with other resources, and represented as the exercisable price, and frequently making any other necessary adjustments to the fair value. Investment property is assessed by independent appraisers or based on recent closing prices of similar property in the neighbouring area.

H. The qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement are provided below:

	Fair value at December 31, 2019	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 89,913	Market comparable companies	Price to book ratio multiplier	2.94	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value

	Fair value at December 31, 2018	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 90,031	Market comparable companies Net asset value	Price to book ratio multiplier Net asset value	2.61 -	The higher the multiplier, the higher the fair value The higher the net asset value, the higher the fair value

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, the use of different valuation models or assumptions may result in different measurements. If net assets from financial assets and liabilities categorized within Level 3 had increased or decreased by 1%, other comprehensive income would not have been significantly impacted as of December 31, 2019 and 2018.

14. SEGMENT INFORMATION

(1) General information

Management has determined the reportable operating segments based on reports reviewed by the chief operating decision-maker and used to make strategic decisions.

There was no material change in the basis for formation of entities and division of segments in the Group or in the measurement basis for segment information during the year.

The Chief Operating Decision-Maker considers the business from industry and geographic perspectives. By industry, the Group focuses on convenience stores, retail business groups, logistics business groups and others. Geographically, the Group focuses on Taiwan and Mainland China where most of its business premises are located. As the operation of convenience stores in Taiwan is the focus of the Group, it is classified as a single operating segment. The whole of Mainland China is considered the same operating segment.

The revenue of the Group's reportable segments is derived from the operations of convenience stores, retail business group and logistics business group. Other operating segments include a restaurant-related business group, supporting business group and China business. The supporting business group mainly provides services relating to the Group's business, such as system maintenance and development and food manufacturing and supply.

(2) Measurement of segment information

The Chief Operating Decision-Maker evaluates the performance of the operating segments based on operating revenue and profit before income tax, which are the basis for measuring performance.

(3) Segment information

The segment information provided to the Chief Operating Decision-Maker for the reportable segments is as follows:

	For the year ended December 31, 2019					
	Convenience stores	Retail business group	Logistics business group	Other operating segments	Adjustment and elimination	Total

Appendix | Parent Company Only Financial Statements and Report of Independent Accountants

REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Stockholders of President Chain Store Corp.

Opinion

We have audited the accompanying parent company only balance sheets of President Chain Store Corp. as of December 31, 2019 and 2018, and the related parent company only statements of comprehensive income, of changes in equity, and of cash flows for the years then ended, and the notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the reports of other independent accountants (which are described in the Other matters section of our report), the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of President Chain Store Corp. as of December 31, 2019 and 2018, and its parent company only financial performance and its parent company only cash flows for the years then ended, in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with this Code. Based on our audits and the reports of other independent accountants, we believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent company only financial statements for the year ended December 31, 2019 are stated as follows:

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(23) and 6(21) to the parent company only financial statements for the accounting policy and the details of accounting relating to this key audit matter.

Retail sales revenue is generated by point-of-sale (POS) terminals, which record the merchandise name, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.). After the daily closing process, each store manager uploads the sales information to the ERP (enterprise resource planning) system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report to record the sales information and payment methods (including cash, gift certificates, credit cards and electronic payment devices, etc.) and the cash deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Inspected whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
2. Inspected whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise masterfile;
3. Inspected whether merchandise master file data had been periodically transferred to POS terminals in stores;
4. Inspected whether sales information in POS terminals was periodically and completely transferred to the ERP system and automatically generated sales revenue journal entries;

5. Inspected manual sales revenue journal entries and relevant documents;
6. Inspected daily cash reports and relevant documents; and
7. Inspected whether cash deposit amounts recorded in daily cash reports were in agreement with bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(11) and 6(3) to the parent company only financial statements for the accounting policy and the details of accounting relating to this key audit matter.

As there are various kinds of merchandise, the retail inventory method is used to estimate the cost of inventory and the cost of goods sold. The retail inventory method uses the ratio of the cost of goods purchased to their retail value (known as cost-to-retail ratio) to calculate the cost of inventory and the cost of goods sold. The calculation of the cost-to-retail ratio highly relies on the goods purchased both at cost and retail price, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Interviewed management to understand the calculation of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
2. Inspected whether additions and changes to the merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.) had been properly approved and the data correctly entered in the merchandise master file;
3. Inspected whether the cost and retail price of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
4. Inspected whether the POS records for the cost and retail price of inventory purchased were periodically and completely transferred to the ERP system and ascertain whether the records could not be changed manually; and
5. Calculated the cost-to-retail ratio to verify its accuracy.

Other matter –Using the work of other auditors

We did not audit the financial statements of certain investee companies. The balance of these investments accounted for using equity method amounted to NT\$2,528,945 thousand and NT\$2,210,541 thousand, representing 1.9% and 2.5% of total assets as of December 31, 2019 and 2018, respectively, and the related total comprehensive net income (including share of profit of subsidiaries, associates and joint ventures accounted for using equity method and share of other comprehensive income of subsidiaries, associates and joint ventures accounted for using equity method) amounted to NT\$ 412,872 thousand and NT\$415,363 thousand, representing 4.1% and 3.9% of total comprehensive net income for the years then ended, respectively. Those financial statements were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included in the financial statements and the information on investees disclosed in Note 13 were based solely on the reports of other independent accountants.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", and for such internal controls as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor's responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it

is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement in the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Company.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2019 and are, therefore, considered to be the key audit matters. We describe these matters in our auditor's report unless the law or regulations preclude public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PRESIDENT CHAIN STORE CORP.

NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

(1) President Chain Store Corporation (the "Company") was established on June 10, 1987. The Company is primarily engaged in the investment and operation of convenience store chains. Business items included sales of food, beverages, coffee, daily commodities of cosmetics and health care products. The common shares of the Company have been listed on the Taiwan Stock Exchange since August 22, 1997.

(2) The Company's ultimate parent company is Uni-President Enterprises Corp., which holds 45.4% equity interest in the Company.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorized for issuance by the Board of Directors on February 27, 2020.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC"). New standards, interpretations and amendments endorsed by FSC effective from 2019 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
IFRS 16, 'Lease'	January 1, 2019
Amendments to IAS 19, 'Plan amendment, curtailment or settlement'	January 1, 2019
Amendments to IAS 28, 'Long-term interests in associates and joint ventures'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and operating results based on the Company's assessment.

IFRS 16, 'Leases'

(a) IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

(b) The Company has elected to apply IFRS 16 by not restating the comparative information (referred herein as the 'modified retrospective approach') when applying "IFRSs" effective in 2019 as endorsed by the FSC. Accordingly, the Company increased 'right-of-use asset' by \$27,293,202, increased 'lease liability' by \$27,486,853, decreased 'prepayments' by \$106,837, decreased 'property, plant and equipment' by \$167,270, and decreased 'other payables' by \$467,758 with respect to the lease contracts of lessees on January 1, 2019.

(c) The Company has used the following practical expedients permitted by the standard at the date of initial application of IFRS 16:

- The use of a single discount rate to a portfolio of leases with reasonably similar characteristics.
- The exclusion of initial direct costs for the measurement of 'right-of-use-asset'.

(d) The Company calculated the present value of lease liabilities by using the weighted average incremental borrowing interest rate of 1.03%.

(e) The Company recognised lease liabilities which had previously been classified as 'operating leases' under the principles of IAS 17, 'Leases'. These reconciliation between operating lease commitments under IAS 17 measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate and lease liabilities recognised as of January 1, 2019 is as follows:

Operating lease commitments disclosed by applying IAS 17 as at December 31, 2018	\$ 41,372,055
Add: Adjustments relating to changes in the index or rate affecting variable lease payments	496,223
Less: Contracts reassessed as service agreements	(94,395)
Leases not yet commenced to which the lessee is committed	(13,313,513)
Total lease contracts amount recognized as lease liabilities by applying IFRS 16 on January 1, 2019	\$ 28,460,370
Incremental borrowing interest rate at the date of initial application	1.03%
Lease liabilities recognized as at January 1, 2019 by applying IFRS 16	\$ 27,486,853

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2020 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of Material'	January 1, 2020
Amendments to IFRS 3, 'Definition of a business'	January 1, 2020
Amendments to IFRS 9, IAS 39 and IFRS 7, 'Interest rate benchmark reform'	January 1, 2020

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2021
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2022

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

(2) Basis of preparation

A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities at fair value through profit or loss.

(b) Financial assets at fair value through other comprehensive income.

(c) Defined benefit liabilities recognized based on the net amount of pension fund assets less the present value of defined benefit obligations.

B. The preparation of financial statements, in conformity with IFRSs, requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company's functional currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and jointly arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is an associate or jointly arrangements, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Company retains partial interest in the former foreign associate or jointly arrangements after losing significant influence over the former foreign associate, or losing joint control of the former jointly arrangements, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Company retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(4) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within 12 months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than 12 months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within 12 months from the balance sheet date;

(d) Liabilities for which the repayment date cannot be extended unconditionally to more than 12 months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations (including time deposits with contract period of less than 12 months) are classified as cash equivalents.

(6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
 - (a) The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
 - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

(8) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(10) Leasing arrangement (lessor) – operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(11) Inventories

- A. Purchases are initially recorded at cost. Cost is determined using the retail inventory method.
- B. Ending inventories are stated at the lower of cost and net realizable value, and the item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(12) Investments accounted for using equity method – subsidiaries, associates and joint ventures

- A. Subsidiaries are all entities controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealized gains or losses resulting from inter-company transactions with subsidiaries are eliminated. Necessary adjustments are made to the accounting policies of subsidiaries, to be consistent with the accounting policies of the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company continues to recognize its share in the subsidiary's loss proportionately.
- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owner. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- E. When the Company loses control of a subsidiary, the Company remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Company loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.
- F. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- G. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- H. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes the Company's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- I. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- J. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.

- K.Upon loss of significant influence over an associate, the Company remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- L.When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- M.When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.
- N.The Company accounts for its interest in a joint venture using equity method. Unrealized profits and losses arising from the transactions between the Company and its joint venture are eliminated to the extent of the Company's interest in the joint venture. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. However, when the transaction provides evidence of a reduction in the net realizable value of current assets or an impairment loss, all such losses shall be recognized immediately. When the Company's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.
- O.According to "Rules Governing the Preparation of Financial Statements by Securities Issuers", profit for the year and other comprehensive income for the year reported in the parent company only financial statements, shall be equal to profit for the year and other comprehensive income attributable to owners of the parent reported in the consolidated financial statements, equity reported in the parent company only financial statements shall be equal to equity attributable to owners of parent reported in the consolidated financial statements.

(13)Property, plant and equipment

- A.Property, plant and equipment are initially recorded at cost.
- B.Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C.Property, plant and equipment are measured subsequently using the cost model. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D.The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	50 years
Operating equipment	4~7 years
Leasehold improvements	7 years

(14)Leasing arrangements (lessee)-right-of-use assets/ lease liabilities (Effective from 2019)

- A.Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B.Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;

- (b) Variable lease payments that depend on an index or a rate; and
- (c) Amounts expected to be payable by the lessee under residual value guarantees.

The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(15)Leases (Lessee) (Prior to 2019)

Payments made under an operating lease (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the lease term.

(16)Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 50 years.

(17)Intangible assets

Computer software and copyright are stated at cost and amortized on a straight-line basis over its estimated useful life of 3 to 15 years.

(18)Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(19)Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20)Provisions

The Company's provisions are presented in 'Other non-current liabilities'. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(21)Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.

C.Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Company's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Company recognizes expense when it can no longer withdraw an offer of termination benefits or it recognizes related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D.Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(22)Income tax

- A.The tax expense for the year comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B.The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C.Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D.Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E.A deferred tax asset shall be recognized for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(23) Revenue recognition

A. Sale of goods

- (a) The Company operates a chain of retail stores. Revenue from the sale of goods is recognized when the Company sells a product to the customer.
- (b) Payment of the transaction price is due immediately when the customer purchases the product. It is the Company's policy to sell its products to the end customer with a right of return. Therefore, a refund liability and a right to the returned goods (included in 'other current assets') are recognized for the products expected to be returned. Accumulated experience is used to estimate such returns using the expected value method. Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. The validity of this assumption and the estimated amount of returns are reassessed at each reporting date.
- (c) The Company operates a loyalty program where retail customers accumulate points for purchases made which entitle them to discount on future purchases. The points provide a material right to customers that they would not receive without entering into a contract. Therefore, the promise to provide points to the customer is a separate performance obligation. The transaction price is allocated to the product and the points on a relative stand-alone selling price basis. The stand-alone selling price per point is estimated on the basis of the discount granted when the points are redeemed and on the basis of the likelihood of redemption, based on past experience. The stand-alone selling price of the product sold is estimated on the basis of the retail price. A contract liability is recognized for the transaction price which is allocated to the points and revenue is recognized when the points are redeemed or expire.

B. Sales of services

The Company provides delivery services. Revenue from delivering services is recognized when the services have been provided.

C. Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The Company has no such assumptions and estimates which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

B. No property, plant and equipment of the Company was pledged to others.

(8)Leasing arrangements - lessee

Effective from 2019

A. The Company leases various assets including buildings and equipment, etc. Rental contracts are typically made for periods of 1 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2019	For the year ended December 31, 2019
	Carrying amount	Depreciation charge
Buildings	\$ 44,373,492	\$ 6,826,103

C. For the year ended December 31, 2019, the additions to right-of-use assets was \$24,947,745.

D. The information on income and expense accounts relating to lease contracts is as follows:

	For the year ended December 31, 2019

E. For the year ended December 31, 2019, the Company's total cash outflow for leases was \$7,062,514.

F. Variable lease payments

(a) Some of the Company's lease contracts contain variable lease payment terms that are linked to sales generated from a store. For the above-mentioned stores, up to 2.11% of lease payments are on the basis of variable payment terms and are accrued based on the sales amount. Variable payment terms are used for a variety of reasons. Various lease payments that depend on sales are recognized in profit or loss in the period in which the event or condition that triggers those payments occurs.

(b) A 1% increase in the aggregate sales amount of all stores with such variable lease contracts would increase total lease payments by approximately \$1,535.

G. The Company's leases not yet commenced to which the leases is committed are business premises for the lessees, and the lease liabilities undiscounted amount at December 31, 2019 is \$1,751,094.

(16)Pensions

A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 3.17% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method of the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2019 and 2018 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the year ended December 31, 2019	For the year ended December 31, 2018
Discount rate	0.75%	1.00%
Future salary increases	3.00%	3.00%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected.

The analysis is as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
<u>December 31, 2019</u>				
Effect on present value of defined benefit obligation	(\$ 123,724)	\$ 128,937	\$ 125,512	(\$ 121,123)
<u>December 31, 2018</u>				
Effect on present value of defined benefit obligation	(\$ 131,704)	\$ 137,399	\$ 134,014	(\$ 129,187)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remained unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The method and assumption used in the current sensitivity analysis are the same as prior year.

(e) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2020 amounts to \$47,014.

(f) As of December 31, 2019, the weighted average duration of the retirement plan is 11 years. The analysis of timing of the future pension payment is as follows:

Within 1 year	\$ 107,086
1-2 year(s)	115,693
2-5 years	438,531
Over 5 years	3,911,956

	\$ 4,573,266

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the Company's defined contribution pension plan for the years ended December 31, 2019 and 2018 were \$206,684 and \$196,584, respectively.

(17) Share capital

As of December 31, 2019, the Company's authorized capital was \$10,500,000, consisting of 1,050,000,000 shares of ordinary stock, and the paid-in capital was \$10,396,223 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. The number of the Company's outstanding ordinary shares was both 1,039,622,255 shares as of December 31, 2019 and 2018.

(18) Capital surplus

In accordance with the Company Act of the Republic of China, any capital surplus arising from paid-in capital in excess of the par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law of the Republic of China requires that the amount of capital surplus to be capitalized, as above, should not exceed 10% of paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(19) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses, then 10% of the remaining amount is to be set aside as legal reserve. After setting aside or reversing a special reserve, in accordance with related laws, the remaining amount is distributable for the given period. The appropriation of the total distributable amount (that is, the distributable amount for the year along with accumulated unappropriated earnings from prior years) should be proposed by the Board of Directors and voted on by the shareholders at the shareholders' meeting. The dividends and bonus to be distributed to shareholders may be 50%-100% of the total distributable amount, and 50%-100% of dividends are to be distributed as cash dividends, and the remaining undistributed amount to be set aside as unappropriated retained earnings.

B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve is not be used for any other purpose. The use of the legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

C. In accordance with the regulations, the Company shall set aside a special reserve for the debit balance on other equity items at the balance sheet date before distributing earnings. When the debit balance on other equity items is reversed subsequently, the reversed amount should be included in the distributable earnings.

D. The appropriations for 2018 and 2017 were resolved by the shareholders on June 12, 2019 and June 12, 2018, respectively, as follows:

B. Risk management policies

(a) The Company's risk management and hedging policies mainly focus on hedging business risk. The Company also establishes hedge positions when trading derivative financial instruments. The choice of instruments should hedge risks relating to interest expense, assets or liabilities arising from business operations.

(b) For managing derivative instruments, the treasury department is responsible for managing trading positions of derivative instruments and assess market values periodically. If transactions and gains (losses) are abnormal, the treasury will respond accordingly and report to the Board of Directors immediately.

(c) There is no related transaction about derivative financial instruments that are used to hedge certain exchange rate risk.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

I. The Company operates internationally and is exposed to foreign exchange risk arising from the Company used in various functional currency, the transactions primarily with respect to the USD and RMB. Exchange risk arises from future commercial transactions and recognized assets and liabilities.

II. Management has set up a policy to require the segments to manage their foreign exchange risk against their functional currencies.

III. The Company's businesses involve some non-functional currency operations (the Company's functional currency is New Taiwan dollar, NTD). The details of assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations are as follows:

(Foreign currency: functional currency)	December 31, 2019		
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)
<u>Financial assets</u>			
<u>Non-monetary items</u>			
JPY: NTD	\$ 907,500	0.2760	\$ 250,470
<u>Investments accounted for using equity method</u>			
USD: NTD	881,028	29.9800	26,413,228

(Foreign currency: functional currency)	December 31, 2018		
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)
<u>Financial assets</u>			
<u>Non-monetary items</u>			
JPY: NTD	\$ 721,500	0.2782	\$ 200,721
<u>Investments accounted for using equity method</u>			
USD: NTD	843,740	30.7150	25,915,469

IV. The total exchange loss, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company amounted to \$54 and \$18,145 for the years ended December 31, 2019 and 2018, respectively.

V. Analysis of foreign currency market risk arising from significant foreign exchange variation: Foreign exchange risk with respect to USD primarily arises from the exchange gain or loss resulting from foreign currency translation of investments accounted for using equity method denominated in USD. If the NTD:USD exchange rate appreciates/depreciates by 5% with all other factors remaining constant, the Company's comprehensive income for the years ended December 31, 2019 and 2018 would increase/decrease by \$1,320,661 and \$1,295,773, respectively. Foreign exchange risk with respect to JPY primarily arises from the exchange gain or loss resulting from foreign currency translation of financial assets at fair value through other comprehensive income – non-current denominated in JPY. If the NTD:JPY exchange rate appreciates/depreciates by 5%, with all other factors remaining constant, the Company's comprehensive income for the years ended December 31, 2019 and 2018 would increase/decrease by \$12,524 and \$10,036, respectively.

Price risk

- I. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.
- II. The Company's investments in equity securities comprise shares issued by the domestic companies. The prices of equity securities would change due to change of the future value of investee companies. If the prices of these equity securities increase/decrease by 5%, with all other variables held constant, the post-tax profit for the years ended December 31, 2019 and 2018 would have increased/decreased by \$4,278 and \$4,284, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$40,356 and \$32,231, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

The Company's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk, which are partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. For the years ended December 31, 2019 and 2018, the Company's borrowings at variable rate were mainly denominated in New Taiwan dollars.

(b) Credit risk

- I. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at fair value through other comprehensive income.
- II. The Company manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.
- III. The Company adopts management of credit risk, whereby the default occurs when the contract payments are past due over certain number of days.
- IV. The Company assesses whether there has been a significant increase in credit risk on that instrument since initial recognition if the contract payments were past due over certain number of days based on the terms.
- V. The Company operates a chain of retail stores, thus the ratio of accounts receivable to total asset is low and the probability that accounts receivable cannot be received is low. For accounts receivable from other transactions, the Company manages individually and follow up regularly. The Company assesses credit impairment loss immaterial at December 31, 2019 and 2018.
- VI. The Company has no written-off financial assets that are still under recourse procedures on December 31, 2019 and 2018.

(c) Liquidity risk

- I. Cash flow forecasting is performed by the operating entities of the Group and aggregated by the Group's finance department. It monitors rolling forecasts of liquidity requirements to ensure the Group has sufficient cash to meet operational needs, while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times, so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, and compliance with internal balance sheet ratio targets.
- II. The Company invests surplus cash in interest bearing current accounts, time deposits, money market fund and marketable securities, and chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the aforementioned forecasting. The Company held no money market funds at December 31, 2019 and 2018, respectively.
- III. The Company has undrawn borrowing facilities beyond one year of \$9,096,726 and \$9,334,699 as of December 31, 2019 and 2018, respectively.
- IV. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. Except for notes payable, accounts payable and other payables, whose contractual undiscounted cash flows are about to book value, maturing within one-year, the amounts disclosed in the table are the contractual undiscounted cash flows.

V. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels of the inputs used in valuation techniques to measure the fair value of financial and non-financial instruments are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks, beneficiary certificates and on-the-run Taiwan central government bonds is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investments without an active market is included in Level 3.

B. Fair value information of the Company's investment property at cost is provided in Note 6(10).

C. Financial instruments not measured at fair value

(a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable and other payables are approximate to their fair values.

	December 31, 2019			
	Book value	Fair value		
		Level 1	Level 2	Level 3
Financial assets:				
Guarantee deposit paid	\$ 1,372,992	\$ -	\$ -	\$ 1,352,512
Financial liabilities:				
Guarantee deposit received	\$ 2,730,126	\$ -	\$ -	\$ 2,701,736

	December 31, 2018			
	Book value	Fair value		
		Level 1	Level 2	Level 3
Financial assets:				
Guarantee deposit paid	\$ 1,231,311	\$ -	\$ -	\$ 1,216,127
Financial liabilities:				
Guarantee deposit received	\$ 2,533,958	\$ -	\$ -	\$ 2,507,486

(b) Guarantee deposits paid/received are measured at fair value, which is calculated based on the discounted future cash flow.

D. The related information for financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) Classification according to the nature of assets and liabilities, relevant information is as follows:

December 31, 2019	Level 1	Level 2	Level 3	Total
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Equity securities	\$ -	\$ -	\$ 85,565	\$ 85,565
Financial assets at fair value through other comprehensive income				
Equity securities	802,767	-	4,348	807,115
	\$ 802,767	\$ -	\$ 89,913	\$ 892,680
December 31, 2018	Level 1	Level 2	Level 3	Total
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Equity securities	\$ -	\$ -	\$ 85,683	\$ 85,683
Financial assets at fair value through other comprehensive income				
Equity securities	640,266	-	4,348	644,614
	\$ 640,266	\$ -	\$ 90,031	\$ 730,297

(b) The methods and assumptions the Company used to measure fair value are as follows:

I. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

Market quoted price	Listed shares Closing price
II. Except for financial instruments with active markets, the fair value of other financial instruments is measured using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, by discounted cash flow method or other valuation methods, including calculations by applying models using market information available at the consolidated balance sheet date.	
E. For the years ended December 31, 2019 and 2018, there was no transfer between Level 1 and Level 2.	
F. For the years ended December 31, 2019 and 2018, there was no significant transfer in or out of Level 3.	
G. The Company is in charge of valuation procedures for fair value measurements being categorised within Level 3, which aim to verify the independent fair value of financial instruments. Such assessments are to ensure the valuation results are reasonable by applying independent information to compare the results to current market conditions, confirming the information resources are independent, reliable and in line with other resources, and represented as the exercisable price, and frequently making any other necessary adjustments to the fair value. Investment property is assessed by independent appraisers or based on recent closing prices of similar property in the neighbouring area.	

H. The qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement are provided below:

	Fair value at December 31, 2019	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 89,913	Market comparable companies	Price to book ratio multiplier	2.94	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 90,031	Market comparable companies	Price to book ratio multiplier	2.61	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value

I. The Company has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurements. If net assets value from financial assets and liabilities categorised within Level 3 had increased or decreased by 1%, net income or other comprehensive income would not have been significantly impacted for the years ended December 31, 2019 and 2018.
