1 Letter to Shareholders

Chairman:
Lo, Chih-Hsien

President:
Huang, Jui-Tien

Dear Shareholders,

2021 was a year full of challenges and opportunities. The COVID 19 epidemic has impacted the global economy, causing many businesses to face severe challenges. The employees and franchisees of President Chain Store Corporation (PCSC) have demonstrated perseverance and resilience in the work as they continued to offer customers real-time and convenient products and services. More than 6,300 7-ELEVEN stores with 24-hour signs are bright lights in the streets and alleys of cities and towns, becoming the safest supply center to bring stability in turbulent times.

During the epidemic, we took the initiative to develop a digital platform in response to the new trend to create Online-To-Offline integration benefits and create a reliance-based service platform that exceeds customer expectations. PCSC worked with its subsidiaries to realize a consolidated revenue of NT\$262.74 billion and net profits of NT\$10.02 billion in 2021. PCSC also actively promoted sustainable development of ESG, selected as a constituent of the Dow Jones Sustainability Index (DJSI) World Index and DJSI Emerging Markets Index for the third year in a row. PCSC's sustainable governance capabilities have been recognized internationally.

Operating Performance

In light of the fact that society's needs continue to evolve and consumer preferences change from generation to generation, PCSC is ready to listen and respond to the different demands of the times.

In 2021, we actively developed digital platforms and delivery services, enhanced the functions of our OPEN POINT APP, and continued to introduce innovative services, such as Mobile ordering and pickup, iPre-order and iGroup-buying, and diversified online marketing strategies to remove limitations on product displays and consumption times in physical stores, support and cultivate customers to order online & pick up in stores habits, demonstrating the advantages of online and offline integration. In addition, we have developed delivery services using our comprehensive store network and integrated delivery platforms on our OPEN POINT APP, providing more diversified and faster service. In terms of membership management, the OPEN POINT member ecosystem integrated 18 channels (including convenience stores, restaurants, drug and cosmetics stores, department stores, fitness centers, and gas stations) within the group, and collaborated with external channels, extending the application scope to enhance the economic benefits. With 14 million members by 2021 and an increase in ticket size per customer, membership contribution to revenue broke 50%.

In terms of store operations, 7-ELEVEN Taiwan actively expanded stores and reached 6,300 store milestone in 2021. Various lifestyles modules, such as Cold Stone Ice Cream, Veggie Selection, and Semeur Bakery, have been launched to satisfy the needs of customers from various shopping districts. We also cooperated with famous brands such as Pokémon, Case Closed, and Demon Slayer to provide customers with a variety of shopping experiences. In 2021, we launched the first Diverse Lifestyle Center, a mega-store that integrates more than 10 brands, such as COSMED, Starbucks, Mister Donut, and Books.com, to provide new generation customers with ideas for quality living. In addition, PCSC set up an intelligent retail landscape, continued to promote "intelligent vending machines" and "intelligent coffee machines" to extend the service scope of our stores. The fifth X-STORE was opened to introduce the Just Walk Out concept with innovative technology, transforming personal smartphones into "intelligent mobile shopping carts" to create new customers experience. PCSC continues employ different types of innovations to offer new shopping experiences to customers.

In terms of merchandise, 7-ELEVEN now sells refrigerated packaged foods that were once sold unpackaged to increase food hygiene and safety during the epidemic. PCSC has also taken advantage of the trend of convenient frozen food and healthy vegetarian food to meet customer's dining needs. In addition, we have collaborated with famous chefs and

Michelin-starred hotels to develop delicious co-branded fresh foods, providing customers a new dining option. In the operation of CITY CAFE, we continued to optimize our premium coffee brand CITY PRIMA, to enhance the sensory experience of customers, and provide Mobile Ordering and Pickup services for members through OPEN POINT APP, creating a consumption model of buying at home and picking up at the store. In terms of services, PCSC's intense store network and comprehensive logistics system has supported our E-service platforms and we have established unique store delivery and pickup model. We also developed own platform "Myship" and "Easy Delivery" and has expanded into various E-service operations and logistics support services, such as quick collection service, international shipment, and cold-chain in-store pickup service. In 2021, we handled pickup and delivery of more than 330 million packages.

Our multi-faceted business structure and foundation have enabled us to continue to operate steadily in these difficult times. At the end of 2021, PCSC and its subsidiaries operated more than 11,070 stores. In 2021, President Transnet Corp. (Takkyūbin) continued to optimize business structure and improve logistical efficiency to meet customers delivery needs by taking advantage of business opportunities provided by the epidemic. Uni-Wonder Corp. (Starbucks) has been enhancing its membership program and brand experience and has continued to infuse vitality into the coffee market through diversified store types and delivery services. Books.com Co., Ltd. (books.com) took steps to expand its e-book and audiobook business, providing a new reading experience and more diversified products that meet customer needs. President Drugstore Business Corp. (COSMED) combines online and offline resources to meet customers' fast-changing demands. Philippines 7-ELEVEN has rapidly adapted to market changes, adjusted and optimized product structure, and strengthened digital services. Connection Labs Ltd. (Foodomo) has been aggressively pursuing the delivery market, providing customers with more diversified products and faster services by integrating the Group's resources. PCSC and all its subsidiaries strive to improve and provide innovative and outstanding products and services to meet local needs.

Sustainable Development

As a platform that is an integral part of people's lives, PCSC is responsible for providing sustainable products and services, and actively implementing sustainable corporate management with integrity is our management policy.

In terms of the environment issue, the Company has set up four task forces on plastic reduction, carbon reduction, food waste management, and sustainable procurement. Each played a role in promoting green operations. Specific actions we have taken include working with suppliers to develop plastic-reducing products, committing to the goal of completely eliminating disposable plastics by 2050, promoting "iLove Food" in stores to reduce food waste, setting up Veggie Selection zones to reduce carbon emissions, and obtaining raw material sustainability certification through green procurement. In terms of social participation, PCSC has leveraged corporate scale and intense store advantages to build a senior-friendly platform and has been promoting "Good Neighbor Meal Delivery Team" campaign and inviting demented elderly to stores to interact with others for a long time. PCSC was also the first retailer to create an O2O public welfare fundraising platform, "OPEN POINT APP Online Charity Donation" service, bringing together convenience stores, social enterprises and social welfare organizations to create a sustainable circular economy for convenience stores. In terms of corporate governance issue, PCSC has been ranked in the top 5% of corporate governance ratings for seven consecutive years and has been selected as a constituent of the MSCI Global Sustainability Index, FTSE4Good Emerging Markets Sustainability Index, and Taiwan Sustainability Index, as well as a constituent of the DJSI World Index and Emerging Markets Index for three consecutive years. The Company is ranked among the world's benchmark companies and has received international recognition.

Business Prospects

The epidemic will eventually be winding down but we still face various operational challenges in the future. PCSC is employing an innovative and integrated business model to bolster its digital platform and delivery service competitiveness by optimizing the seven basic elements of management: people, stores, products, systems, logistics, policies, and culture, to become a "reliance-based service platform that surpasses customer's expectations. As we continue to recover and grow, we will not only achieve an economic success, but also play an active role in influencing people and things around us as we pursue a common goal, and move forward together with our partners in the industry ecosystem.

Corporate sustainable operations never end. PCSC is "determined to become the most outstanding retailer by offering convenient services and being a good corporate citizen". To achieve this vision, PCSC focuses on three core goals: creating a happy company, positively impacting society, and achieving environmental sustainability. We strive to make life more convenient for our customers, ensure steady profitability for our franchisees, create a fair and friendly working environment for our employees, and increase shareholder value for our shareholders.

2. Remuneration policy, standards, and arrangements, the procedures for determining remuneration, and the relationship between remuneration and company performance:

- (1) PCSC's remuneration policy is based on the Company's business strategy, human resource policy, and financial capability. Every year, the Company participates in salary surveys undertaken by specialist salary survey organizations; the company's remuneration levels are then reviewed based on the results of these surveys.
- (2) According to Article 32 of PCSC's Articles of Incorporation, if the current year's profit situation (pre-tax profits prior to deduction of employee compensation and director remuneration) is deducted by accumulated deficit, no more than 2% of said surplus shall be distributed as director remuneration. Reasonable compensation has been assessed and given to directors based on PCSC's operational achievements, continuous educations, engagement of business sustainability, and the director's respective contribution to the Company which includes financial KPIs such as company's profitability. Relevant performance and reasonableness of remuneration are to be assessed by PCSC's remuneration committee and the Board of Directors. The remuneration system is to be reviewed and adjusted as necessary based on actual operational status and relevant regulations as PCSC seeks to realize sustained operations and risk management.
- (3) Remuneration paid to the PCSC president, senior vice presidents and vice presidents is set according to their individual performance including financial KPIs, such as company's profitability, and their contribution to the company's operations. Said remuneration shall also conform to PCSC's remuneration regulations and take into consideration typical remuneration levels paid by other companies (using data compiled by market research firms). Bonuses shall be awarded based on PCSC's performance management regulations and take into consideration both PCSC's operating performance and the individual's own performance.

	Yes	No	Brief Explanation	
1. Has PCSC established governance structure and set up a dedicated (part-time) unit to promote sustainable development, which is authorized by the board of directors to handle senior management, and supervised by the board of directors?	V		<p>1. PCSC's Board of Directors resolved to establish a "Corporate Social Responsibility Committee" under the Board of Directors on December 12, 2018, and incorporated into the independent director mechanism. On June 24, 2021, the Board of Directors changed the name of the organization and the organization rules to "Sustainable Development Committee". In accordance with the "Rules and Regulations of the Sustainable Development Committee of PCSC", the committee is convened at least twice a year.</p> <p>2. The committee consists of six members, three of whom are independent directors, and is responsible for the formulation and supervision of the CSR policy direction and promotion plan, with the following main responsibilities:</p> <ol style="list-style-type: none"> (1) The Company's corporate social responsibility and sustainable management system is proposed to be revised in accordance with the relevant regulations. (2) Oversee the direction and promotion plan of our corporate social responsibility and sustainable development policy, and regularly track the progress of implementation. (3) The effectiveness of the Company's CSR and sustainability programs is regularly evaluated and the annual results are reported to the Board of Directors each year. (4) Validate the Sustainability Report. (5) Other matters that the Board of Directors has resolved to direct the Committee to do. <p>The committee met twice, once on June 25 and once on November 1 in 2021, and reported to the Board of Directors on December 10 on the current year's performance results and the next year's performance plan.</p> <p>3. 	Yes	No	Brief Explanation	
2. Has PCSC designated personnel to implement corporate social responsibility policy with senior management authorized by the Board of Directors to manage them and do they give status reports to the Board of Directors?	V		<p>1. This disclosure covers the Company's sustainability-related performance for the period January 2020 to December 2021, with some information prior to 2020. The risk assessment boundary focuses on PCSC mainly, including the headquarter, retail locations and shopping centers. In addition, four affiliated logistics companies (Uni-President Cold-Chain Corporation, Wisdom Distribution Service Corporation, Retail Support International, and President Logistics International Corporation) were included. The topics covered included energy and greenhouse gases (Scope 3), customer health and safety, etc. We expect to include data from other affiliated companies in order to present comprehensive information on PCSC's value chain in the future.</p> <p>2. In the rapidly changing food retail industry, PCSC has been concerned with major social, economic and environmental trends to grasp the risk items that affect sustainable operation of the company. In July 2020, PCSC's board of directors resolved to establish the "Risk and Information Security Management Office" under the Sustainable Committee and adopted the "Risk Management Policy of PCSC" as the highest guiding principle of the company's risk management. Each task forces identifies, analyzes, measures, monitors, responds, reports risks, and improves response measures based on the business-related risk characteristics and impact.</p> <p>3. PCSC integrates major themes into the daily risk management system, and is committed to maintaining a complete risk management system. The company's board of directors, managers and employees at all levels participate in and promote implementation. Relevant risk identification and countermeasures please refer to (Note 2).</p>	Compliant
3. Environmental Topic				
(1) Has PCSC established an environmental management system that is specifically designed with PCSC operations in mind?	V		<p>1. PCSC continued to pay attention to the issue of energy saving and carbon reduction, and has formulated an "Energy Policy" to optimize the energy management framework. Since 2017, we have commissioned SGS to conduct ISO 14064-1 greenhouse gas inventory, which covered 6,030 locations with 99% coverage. In 2021, PCSC received ISO 50001 certification for its energy management system, which covered the 6th floor of the headquarters building and one store each in North 1 and North 2.</p> <p>2. PCSC took advantage of the intense store network and 24-hour operation to assist in the notification of disasters and the dissemination of early warning information. In response to disasters caused by climate change, PCSC has installed a weather information distribution system and enhance the training of store personnel in responding to typhoons and floods.</p>	Compliant
(2) Has PCSC endeavored to make more efficient use of resources and use renewable materials that have a lower impact on the environment?	V		<p>1. The Company is committed to energy saving, carbon reduction and greenhouse gas emission reduction, bringing a better green living environment to the people of Taiwan. Energy-saving design is considered at the initial planning stage of new store openings such as building insulation, signage energy saving, lighting reduction, variable frequency system adoption, outdoor energy saving, indoor lighting management and LED lighting adoption. Existing stores are actively replaced with high-efficiency energy-saving equipment. In 2021, EUI value (energy use intensity) of electricity consumption in stores was 891 kWh/m² in 2021, 3.11% less in 2020, surpassing target performance.</p> <p>2. At this stage, we are not using renewable energy, but we are doing our best to increase the proportion of renewable energy use by introducing the feasibility and practice of renewable energy equipment. As for the use of recycled materials, 100% of the plastic bags in our stores are made from recycled materials, and recycled PET bottles are made into public goods. PCSC continued to build the largest recycling platform in Taiwan.</p>	Compliant
(3) Does PCSC evaluate potential risks and opportunities of climate change for the Company now and in the future, and make countermeasures to issues related to climate change?	V		PCSC's governance structure of climate change issues have the Board of Directors as the highest governing body. We introduced TCFD in 2020 and assessed 4 major climate risks and 2 opportunities: Increased severity of extreme weather events such as typhoons, floods and snow, rising mean temperatures, Requirements and supervision of existing products and services, Low-carbon and new technologies, Adopt a more efficient transportation method or distribution process, Shift to buildings/ equipment with higher energy and resource efficiency. We continued to assess the financial impact of risks and opportunities. In 2021, a carbon reduction task force was also set up to integrate and optimize management strategies in response to the impact of major risks and opportunities on PCSC. It is expected to reduce the financial impact of climate risks on operations and maximize the benefits of climate change issue response by integrating and optimizing the strategies.	Compliant

(4) Did PCSC calculate greenhouse gas emissions, water use and total weight of waste in the past two years and did it establish policies for saving energy, reduction carbon, reduction of water use, as well as waste management?	V		<p>Since 2017, we've followed ISO 14064-1:2006 for greenhouse gas inventory, and since 2020, we've adopted the new version of ISO14064-1:2018 to conduct greenhouse gas inventory, and has passed third-party verification.</p> <p>Greenhouse gas emissions in the last 2 years: The GHG inventory for 2020 covered 6,030 locations. t CO2 e/yr</p> <table><tr><th>Year</th><th>Scope 1</th><th>Scope 2</th><th>GHG emissions intensity (CO2 e /mn turnover)</th><th>Scope 3</th></tr><tr><td>2019</td><td>30,703</td><td>446,065</td><td>-</td><td>-</td></tr><tr><td>2020</td><td>30,910</td><td>472,365</td><td>4.15</td><td>193,802</td></tr></table> <p>The reduction target is based on the direct and indirect GHG emission intensity of the GHG inventory in 2020, namely 4.15 metric tons of CO2e per NT\$million in turnover. After taking future revenue growth and operational expansion into consideration, we have promised to lower the emission intensity by 7% at 3.85 metric tons of CO2e/NT\$million in revenue compared to the baseline year of 2020. In the future, we will devote ourselves to promoting energy conservation in stores and offices, but also to promote carbon reduction in logistics and transportation. We will continue to review the progress of achieving the goals. Taking into account the trend of economic growth and energy-saving technology progress, we will update the medium and long-term reduction targets, and gradually achieve the promised reduction targets.</p> <p>Water consumption in the last 2 years:</p> <table><tr><th>Year</th><th>Total water consumption (m³)</th><th>Data scope</th></tr><tr><td>2019</td><td>2,658,958</td><td>Actual statistics: Headquarters building and 3,764 stores Estimated: 8 zones offices and 1,891 stores</td></tr><tr><td>2020</td><td>2,830,318</td><td>Actual statistics: Headquarters building and 3,952 stores Estimated: 8 zones offices and 2,072 stores</td></tr></table> <p>We installed water-saving facilities to adjust water flow to 500 milliliters per second, which successfully reduced the water consumption at stores. PCSC made the commitment to maintain the intensity between average water consumption of stores and PSD at the 0.5% level of 2018 between 2019 and 2021. The intensity of water consumption correlation in the stores was 0.6% in 2020. The slight difference from the target value was due to the 45% increase in coffee sales in 2020, resulting in the intensity of correlation of water consumption falling short of the target value. We will continue to track the correlation between water consumption and PSD as reference for future targets. Headquarters building continued to reduce water consumption through water-saving actions. For example, we introduced a device to reduce the amount of water coming out of the taps in restrooms and coffee rooms, as well as installing water-saving devices at the urinals, adjusting the optimal water output of the toilets, reducing the frequency of sprinklers and so on.</p> <p>Waste weight in last 2 years:</p> <table><tr><th>Year</th><th>Non-recyclable waste weight (tons)</th><th>Data Scope of non-recyclable waste</th><th>Recyclable waste weight (tons)</th></tr><tr><td>2019</td><td>47,591</td><td>Actual statistics: Headquarters building and 645 stores Estimated: 8 zones offices and 5,010 stores</td><td>10,192</td></tr><tr><td>2020</td><td>43,671</td><td>Actual statistics: Headquarters building and 925 stores Estimated valuation: 8 zones offices and 5,009 stores</td><td>10,576</td></tr></table> <p>1. PCSC has pledged to maintain the clearance weight to PSD at 0.9%. In the meantime, PCSC will continue to track the intensity of the correlation between waste clearance and PSD as reference for future goals. In 2020, the intensity of the relationship of waste clearance from the stores was 0.8%, which exceeded the target. The improved measures were implemented through Convenient Recycling Platform, Store Equipment Reuse, and Paper-saving. 		Brief Explanation	
(1) Has PCSC established management policies and procedures in accordance with relevant laws and regulations and international human rights conventions?	V	PCSC consulted such international human rights conventions as the "International Human Rights Law", "Core Labor Standards, Fundamental ILO Conventions", and "Ten Principles of the United Nations Global Compact" when formulating its human rights policies. Our seven major policies are to provide a friendly and safe working environment and treat our employees with dignity. We prohibit any unlawful discrimination, sexual harassment, workplace violence, intimidation, provide a complaint mechanism and handle all human rights violations appropriately. We also prohibit forced labor, human trafficking, and child labor. PCSC implements diversified employment in the workplace to ensure equal job opportunities, training and benefits, reward and evaluation, and promotion. We respect employee freedom of association, maintain smooth communication with them, and build a harmonious workplace environment. We are committed to promoting physical and mental health and work-life balance for our employees, and we provide multiple channels of communication to ensure the rights of our stakeholders. Specific management and implementation plans include, regular annual reviews of occupational safety and health as well as labor conditions; employing comprehensive internal and external training channels to give employees inter-company and interdisciplinary work rotation experience as well as important positions and challenges to cultivate outstanding talents; hold annual health check-ups and implement health promotion campaigns based on the data analysis findings of health exams over the years to enhance the employee health index; and PCSC has a variety of communication channels available in its auditing office, joint service center, and in the stakeholder area on its official website. In addition, it also has a comprehensive system and mechanism to ensure that feedback and suggestions are actually handled.	Compliant
(2) Does PCSC have and implement employee welfare measures, including bonuses, holidays, and other benefits, and is its operational performance and achievements reflected in their pay?	V	1.Employee Remuneration The PCSC remuneration policy ensured that all full-time employees receive higher payment than the statutory minimum wages and PCSC reviewed whether the employees' salary levels are market-competitive and in line with employees' needs by adjusting the starting salary of new recruits in April each year. In addition, PCSC provided employees in areas with higher price levels with an additional allowance of 5-10% of the basic salary so that the employees and their families had enough for a decent life. The starting salary for the new recruits at PCSC is equal for men and women for equal work, and the salary and benefits do not differ based on gender or age. In 2020, the starting salary of college graduates that were hired as PCSC's back office staff was 1.46 times the statutory minimum wages, and 1.73 times for those with a master's degree. 2.Workplace Diversity and Equality : As of December 31, 2020, PCSC's female employees account for 55.34% of all PCSC employees, while 52.02% of managers in revenue-generating functions are female, showing that PCSC values gender equality in the work environment and talent recruitment. We do not hire people under the age of 15 as workers in accordance with the "Labor Standards Act." We provide job opportunities for people seeking re-employment and part-time job opportunities for student jobseekers. We also collaborate with senior high (vocational) schools to provide students with job opportunities, and we have employed more people with disabilities than the statutory quota. In 2020, the PCSC head office and directly operated stores hired a total of 261 employees with disabilities, accounting for 3.07% of our total workforce and being 3.07 times higher than the statutory quota. Besides employees with disabilities, PCSC also hired 118 indigenous employees, accounting for 1.39% of all employees. 3. Comprehensive employee benefits: (1) In accordance with the Official Letter Taipei City Social II No. 58459 of the Department of Social Welfare, PCSC established the Employee Benefit Committee on December 21, 1987. Members of the Committee are jointly elected by both labor and management. The Committee regularly hosts a variety of activities, organizes health check-ups for employees, and provides other benefits, such as subsidies for in-service education programs. (2) The PCSC benefit scheme includes self-selected benefits, health examinations, employee stock ownership plans, club subsidies, discount purchasing, wedding and funeral allowances, paid maternity and paternity leave, group insurance, employee travel allowance, and other benefits provided by Employee Benefits Committee to meet employee needs. 4.Comprehensive rewards system: PCSC gives employees annual bonuses based on the Company's net profit and gross profit growth to encourage them to stay and grow with the Company. (3) Does PCSC provide employees with a safe and healthy work environment and regularly implement safety and health education programs for employees?	V		<p>PCSC provides employees with comprehensive education and training programs and works to realize our objectives of showing human care and improving their physical and mental health, focusing on the wide-ranging implementation of our Health Management Program to help employees care for their own health. The Company has engaged specialized nurse practitioners and works with doctors specializing in workplace health services to provide health consultation services. PCSC encourages employees to manage their personal health and create a healthy, harmonious, and safe work environment.</p> <p>1. Safety and Health Committee PCSC established a level 1 Occupational Safety Office and a Safety and Health Committee in accordance with the Occupational Safety and Health Act. The committee is held on a quarterly basis with supervisors of the highest level of each unit and labor representatives discussing the Company's safety and health matters. The meeting also establishes occupational safety targets and ensures the suitability and effectiveness of occupational safety and health.</p> <p>2. Occupational Safety and Health Policy The President approved the Occupational Safety and Health Policy in 2018 with five guidelines for implementing risk prevention and management. PCSC took the following actions to achieve this goal: safety and health education and training, safety risk assessments and safety audits, air, lighting, drinking water quality monitoring. Furthermore, we continued to implement the Overload Prevention Plan, Human Factor Hazard Prevention Plan, Illegal Violence Prevention Plan, and Maternity Health Protection Plan to protect employees' health and safety through prevention measures and risk identification.</p> <p>3. Employee Occupational Injury Statistics (1) PCSC strives to reduce occupational injuries. We have the achievement of zero cases of work-related fatalities or critical injuries for five consecutive years through various safety and health management plans. In 2021, the number of employees' occupational injuries were 21 cases, accounting for 0.25% of the total number of employees. The frequency-severity indicator was 0.2 in 2021, lower than the retail industry's average rate of 0.38 in the past three years according to the Occupational Safety and Health Administration, Ministry of Labor. Furthermore, PCSC had no cases of work-related ill health for our employees in 2021. (2) In order to reduce the probability of employees' occupational injuries, for special situations, such as being illegally violated in the workplace, we immediately start the caring, protection and assistance mechanism, investigate the cause and carry out hazard identification to create a friendly workplace environment.</p> <p>4. Human Rights and Labor Audits PCSC provided training regarding the Labor Standards Act to 170 people in 2020. For other human rights risk assessments and mitigation measures, please refer to "PCSC Human Rights Due Diligence Procedure" on PCSC Investor Relations website. https://www.7-11.com.tw/company/irr/policy.html</p> <p>5. Protecting Employee Health, Workplace Epidemic Prevention Measures Due to the special circumstances of the COVID-19, PCSC maintain workplace health and implement epidemic prevention. The "Implementation Measures for Colleagues Working from Home" has been specially formulated, allowing to work remotely from home, and start work diversion to avoid the peak crowds of public transportation and reduce risks. In 2021, in response to the epidemic, we took out anti-epidemic insurance for employees, if they are diagnosed or contacted with a confirmed person and are quarantined, each can apply for a compensation of 100,000 dollars. We also provide "Home Epidemic Prevention Commodities box", and directly delivered to home by Transnet, so that employees can stay at home with peace of mind.</p>	Compliant

(4) Has PCSC established an effective career skills development training program for employees?	V		<p>PCSC attaches a great deal of importance to personnel training. We help our employees be all that they can be through job rotation, working in different positions and in different organizations within our Company, giving them important jobs and challenges, and by broadening their horizons.</p> <p>1. Since it set up an employee career development path and management mechanism in 2016, PCSC has reviewed the succession candidates of all positions every year. In 2021, we continued to build key talent pools of different units and assign supervisors and commissioners to different units for training. The annual selection and construction of rotation/promotion talent pools are based on different ranks and functional fields in order to implement cross-company/ cross-task rotation, expand employees' horizons, and cultivate future executive talents at all levels. The training mode is different from the physical training mode in the classroom in the past, and the digital online learning method is changed to promote more flexible and independent learning of talents at all levels, continuously improve the company's training quality and employees' satisfaction.</p> <p>2. In accordance with the Company's core values, PCSC has clearly outlined a training program to equip employees with the skills and standards required for positions throughout the organization. Managers and employees can enhance their abilities to ensure the ability meets the needs of the company's business direction by participating in internal or external training courses. PCSC organized 20 classes on 360-degree report analysis in 2018, four classes in 2019, and one class in 2020 due to the epidemic prevention policy that put the focus on employee growth and learning, helping managers learn how to assist employees enhance their skill levels and work planning. For some key employees, PCSC mapped out a program of training and development to help them reach their ideal positions within the Company.</p> <p>3. PCSC also encourages employees to pursue self-enrichment in their spare time to strengthen their foundation and professional knowledge through scholarships for outside training and foreign language courses.</p>	Compliant
(5) Does PCSC's product and service marketing and labeling adhere to relevant laws and regulations and international standards as well as the laws and regulations related to customer health and safety and personal information and has it established policies and grievance procedures to protect consumer protection rights?	V		<p>The Company's food safety policies focus on operations, food traceability, and gaining customer recognition. From raw materials, logistics to stores, we set up a management mechanism, including the establishment of our own raw materials and quality assurance management database for commodity food products to ensure commodity raw materials and suppliers can be traced and managed. We also establish a quality inspection laboratory and obtain certificates, import Initial transportation and store commodity management and service inspection, establish whole-process quality control, and conduct various store inspections (quality service, quality assurance operations, tobacco and alcohol sales), etc. The laws and regulations that the company follows are: Consumer Protection Act, Food Traceability System of Food Safety Law, Tobacco Hazards Prevention Act. PCSC has established the Integrated Services Call Center and stakeholder's mail box to serve as a communication channel that consumers can use to ensure that their suggestions or concerns are handled satisfactorily. Internally, the Company also has operating measures for handling product suggestions made by customers to ensure that they are handled satisfactorily.</p>	Compliant

(6) Has the Company established supplier management that requires that suppliers adhere to regulations dealing with such issues as the environment, workplace safety and health, worker rights and, if so, what is the status of implementation?	V		<p>1. To determine whether suppliers are legally established, the quality of their products, how well they cooperate with inspections, and whether they adhere to laws and regulations and PCSC's standards, we have established a section in our internal control regulations dedicated to product safety management. Suppliers and OEM factories that produce PCSC's ownbrand products have a greater impact, so we have set up different management measures for them based on their different characteristics, for example Raw Material Supplier and Raw Materials Management Rules, Rules for Onsite Appraisal for Privately-Owned Brand Product Manufacturers, clearly requiring that the product production, packaging, inspection, and evaluation processes are all carried out in accordance with specific standards. We do our utmost to require that suppliers of privatelyowned brand products obtain food safety management system ISO22000 certification. PCSC holds spot checks of raw materials suppliers and OEM factories and employs hierarchical supplier management, giving them different classifications based on their evaluation scores. In 2021, 206 spot checks were carried out on raw materials suppliers and they all passed. We also carried out 99 spot checks of suppliers and OEM factories that produce PCSC's own-brand products. Only one did not pass but passed after re-evaluation. In addition, our Internal Audit Office holds spot checks at raw material suppliers and OEM factories to create a rigorous food safety net for consumers.</p> <p>2. PCSC has also set up the "Code of Conduct for PCSC and Subsidiary Subcontractors", requiring all suppliers to sign "Ethical Corporate Management and Corporate Social Responsibility Agreements", to which have been incorporated five major standards, including worker, health, environmental safety, ethics, and fairness.</p>	Compliant
5. Does the Company follow international recognized reporting criteria or guides when disclosing non-financial Corporate Social Responsibility reports? Did it obtain assurance or verification statements from third-party certification bodies for previously disclosed reports?	V		<p>PCSC publishes Sustainability Report every year and discloses the reports of previous years on the Company website. The 2020 PCSC CSR Report is based on the Global Reporting Initiative's GRI Core Standards and the Sustainability Accounting Standards Board's (SASB) industry standards (food retail and distribution industry).</p> <p>SGS Taiwan was engaged to confirm that the information in the CSR report meets the requirements of the AA1000 Type II high assurance level, and PwC Taiwan was engaged to provide independent limited assurance on certain subject information in accordance with the Republic of China Standard on Assurance Engagement Bulletin No. 1, Assurance Engagement Other than Audits or Reviews of Historical Financial Information.</p>	Compliant
<p>6. If PCSC has drawn up a code for Sustainable Development based on the Sustainable Development Best Practice Principles for TWSE/GTSM Listed Companies, please describe any differences between said code and the Best Practice Principles: In accordance with the Sustainable Development Best Practice Principles for TWSE/ GTSM Listed Companies, PCSC drew up the Rules for the Practice of Sustainable Development which we adhere to. It governs implementation of corporate governance, development of sustainable operations, protection of public welfare, strengthening of CSR information disclosure, and protection of stakeholder rights and interests. PCSC employees follow these regulations to manage Company risks and impacts on the economy, environment, and society.</p>				
<p>7. Other important information for facilitating the understanding of Sustainable Development and its implementation:</p> <ol style="list-style-type: none"> The Company is committed to the safety of our products. In 2021, we invested NT\$122,971,000 to enhance food safety management of the raw materials and we continued to ensure food safety through such activities as giving guidance and checking our OEM and suppliers and product inspection. To respond to the issue of food safety, PCSC formulated the Product Safety Information Gathering and Inventory Tracking Operating Procedures to strengthen crisis management capabilities and perform self-reviews of potential major product safety incidents and related regulations to prevent latent food safety risks. The PCSC quality assurance laboratory has been certified by the TFDA for seven testing areas (microorganism counts, coliform bacteria, E. coli, Salmonella, Listeria monocytogenes, colorants, Ochratoxin A, Patulin, and testing for residues of 48 veterinary drugs) and TAF certification for five testing areas. In 2013, PCSC received TAF Certification for the first time, and received TFDA Certification in 2014. The validity period is three years. We have continued to pass extension applications for accreditation, once again recognizing the management quality of our laboratories. In 2021, the quality assurance laboratory performed testing on over 1,173 raw materials and products to maintain strict control on the safety of food products. To deal with changes in laws and regulations, PCSC took it upon itself to make adjustments to the items in its product inspection standards so that they comply with the requirements of laws and regulations. PCSC has optimized the own-brand product raw material management system to strengthen traceability management of raw materials. PCSC has optimized fresh food product ingredient labeling simplification and allergen labeling standards that meet with government standards and allow consumers to more easily determine food product ingredients and potential allergens. In order to provide franchise partners with a more secure business environment and a smooth feedback channels, mailbox FR885@mail.7-11.com.tw was set up in January 2021 for the franchisees to provide the franchisees with a channel for communication and to collect opinions. PCSC has introduced Teacher Chang's professional resources to help train internal volunteers, and has trained 280 volunteers so far, of which 154 have completed volunteer certification. Volunteers care about a wide range of issues, including interpersonal workplace, work adjustment, family, gender relations and health, and manage cases in different levels. To date, 3,775 cases and 2,844 caring hours have been completed by internal volunteers. If a case is observed to be in need of professional assistance, it is referred to a counselor for assistance, so as to effectively help colleagues reduce stress. ISO14001 is not applicable to PCSC, because it is not in the manufacturing industry. Please refer to the Sustainable Development section on the PCSC website for more information at https://www.7-11.com.tw/company/csr.asp

Note 2: ESG risk assessment and management policy.

ESG Topic	Risk Type	Implementation of risk management
Environmental	Climate risks	<p>1. PCSC's governance structure on climate change issues is governed by the board of directors, and the relevant issue management and control mechanism is established under the Sustainable Development Committee. Issue management and risk assessment are carried out through the task forces under the committee, and regularly report management and implementation to the board of directors. In 2021, Carbon Reduction task force was formally established to integrate and optimize management strategies.</p> <p>2. In 2021, TCFD framework was adopted to evaluate PCSC's climate-related risks and opportunities. After cross-departmental discussions, 4 major climate risks and 2 opportunities have been identified.</p> <p>3. In 2018, the ISO14064-1 greenhouse gas inventory was carried out, and we entrusted SGS to conduct third-party inspection operations. The progress of the target achievement was checked based on the results of the carbon inventory, and the mid- and long-term reduction targets will be updated.</p> <p>4. PCSC has introduced an energy management system to control and manage electricity consumption in stores. In 2021, SGS was entrusted to carry out ISO50001 energy management system certification. Other bases also conduct energy management according to the operation structure of the energy management system, so as to achieve the purpose of continuous improvement of energy use.</p> <p>5. The annual internal audit plan is planned, aiming at the compliance with various relevant environmental laws and regulations, and each operating process has complied with the regulations.</p>
Social	Occupational Safety	<p>1. PCSC Passed the "TAF ISO45001 Occupational Safety Management System International Certification" again in 2021.</p> <p>2. PCSC Held the Occupational Safety and Health Committee on a quarterly basis, conducted management review meetings every year, promoted the organization of contractors' safety agreement meetings, etc., and held safety and health education and training to new and existing employees, occupational safety online courses including Traffic Safety Promotion (defensive driving)", " Office Ergonomic Hazards Prevention ".</p> <p>3. Through on-site safety observation, conducting safety counseling with on-site construction personnel, and carry out risk hazard identification: the improvement rate of annual workplace inspections is 100%.</p>
	Food safety risk	<p>PCSC pay attention to the health and safety of consumers, and put food safety as the top priority and invest each year to ensure rigorous quality control is maintained. From production to stores, we are continually setting up rigorous food safety protection networks for our consumers:</p> <p>1. Establishing the Merchandise Safety Committee and holding regular meetings to review contract manufacturers and supplier and implementation progress.</p> <p>2. Establishing the Product Safety Information Collection and Inventory Tracking Operational Standards and setting up inventory and tracking procedures to ensure the safety of Company products.</p> <p>3. Using measures like contractual cooperation, production site management, ingredient tracing mechanisms and systems, supplier grading, management and on-site assessment system, distribution centers and periodic store checks, as well as occasional sampling of raw materials and finished products, to stay on top of the entire supply chain from production to store.</p>
	Risks related to demographic structure changes	<p>Our major area of operations is the region of Taiwan. Convenience stores and logistics services, the important parts of our business, are both labor intensive. Taiwan has been faced with such issues as an acceleration in the aging of the population, and a declining birthrate. Thus, we consider the decrease in the labor force to be a risk for us.</p> <p>Countermeasures:</p> <p>1. Continuing to keep tabs on changing trends in consumer groups and develop products needed by senior consumers to take advantage of related business opportunities.</p> <p>2. Hiring re-employed women, middle-aged and senior workers.</p> <p>3. Taking advantage of technological developments, such as AI, and optimize business structure and processes, and human resource allocation at stores to increase efficiency and lower personnel costs.</p>
Corporate Governance	Regulatory compliance	<p>PCSC has established a cross-unit regulation identification team to collect information on newly revised regulations every month to confirm the compliance status regulations. We also held "Regulations Identification Meeting" to grasp the information of changes in regulations and take appropriate countermeasures. In addition, a "crisis management team" has been established to effectively control and deal with market risks and crises that may occur or have occurred.</p>

(6) Dividend policy and implementation:

1. Dividend policy

(1) Dividend policy as outlined in the Company's Articles of Incorporation

The current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses. Should there still be a surplus, 10% of the remaining amount is to be set aside as a legal reserve. After setting aside and reserving a special reserve, the remaining amount combined with accumulated unappropriated earnings from prior years will be distributable earnings for the period. The distribution of accumulated distributable earnings is proposed by the Board of Directors in consideration of industry conditions, the Company's future operations, and investment plans, which are disbursed following approval of the proposal by the Shareholders' Meeting. Disbursement of shareholder dividends and bonuses are set as 50-100% of the accumulated distributable earnings, and 50-100% of which is to be issued as cash dividends, while the remainder is to be unappropriated retain earnings.

(2) PCSC business is growing steady. Taking the capital requirements and profitability of the Company into consideration, the Company's profit distribution over the next 3 years will consist primarily of cash dividends. In accordance with the Articles of Incorporation, 50%-100% of said profits are to be issued in the form of cash dividends.

2. The proposed distribution of 2021 profit approved by the Board of Directors will be submitted to the 2022 Annual Shareholders' Meeting for approval. The proposal approved by the Board of Directors on February 24, 2022 is as follows: allocating NT\$7,495,676,458 from the 2021 distributable earnings with a distribution amount of NT\$7.21 per share and NT\$1,860,923,837 from the legal reserve with a distribution amount of NT\$1.79 per share to be issued as cash dividends, distributing NT\$ 9 per share. After the approval at the Shareholder's Meeting, the Board of Directors shall set a distribution record date.

(7) Impact on the Company's operating performance and EPS of the stock dividend proposed at the Shareholders' Meeting:

The Company did not distribute stock dividends this year, so this is not applicable.

(8) Employee compensation and director remuneration:

1. According to PCSC's Articles of Incorporation, if the current year's profit situation (pre-tax profits prior to deduction of employee compensation and director remuneration) is deducted by accumulated deficit, no less than 2% of said surplus shall be distributed as employee compensation and no more than 2% as director remuneration. Staff employed at the Company or subsidiaries meeting the requirements shall be eligible for compensation, distributed in the form of stock or cash. Relevant requirements are outlined separately.

2. The Board adopted the below employee compensation and director remuneration proposal for 2021:

- (1) The Board proposed allocating the amount of NT\$455,764,447 as employee compensation and the amount of NT\$152,269,129 as remuneration for directors.
- (2) The amount of employee stock compensation and their proportion of overall earnings distribution: all employee compensation will be paid in cash.

	Distribution Approved by the Board
Distribution: (Unit: NT\$1,000)	
Employee Compensation	\$ 455,764
Director Remuneration	\$ 152,269

3. Distribution of the previous year's remuneration to employees and directors:

PCSC's distributable earnings in 2020 were distributed as employee compensation and director remuneration as follows:

	Distribution Approved by the Board and at the Shareholder's Meeting
Distribution: (Unit: NT\$1,000)	
Employee Compensation	\$ 543,617
Director Remuneration	\$ 181,620

4. The estimate of employees' compensation and directors' remuneration is made by calculating Company current year's profits (pre-tax profits prior to deduction of employee compensation and director remuneration) are deducted by accumulated deficit. In case of a discrepancy between the actual amount paid out and the estimate, it will be accounted for as changes in estimates and recognized as profit or loss in the following fiscal year.

5. In the 2020 financial statement, employee compensation totaled NT\$543,617,166, while remuneration for directors totaled NT\$181,620,380. These amounts are consistent with the amounts approved by the Shareholders' Meeting.

3. Present and future products and services

- O2O: In the face of the epidemic, 7-ELEVEN Taiwan has been actively developed digital platform and stabilizing operations with a Online-To-Offline integration strategy, integrating OPEN PONT membership program, mobile payment, Mobile ordering and pickup APP, iPre-order & iGroup-buying through the OPEN POINT APP, allowing consumers to shop online anytime, anywhere, and pick up at nearby stores.
PCSC continued to expand products on Mobile ordering and pickup function to enhance consumer convenience and frequency of store visits and we rolled out multiple online marketing strategies and point feedback promotions on iPre-order, breaking the restrictions on merchandise display and consumption time and showing the advantages of online-to-offline integration. The brand new intelligent group-buying platform “iGroup-buying” offers discounted group-buying prices for popular products, which has attracted millions members to join. OPEN Delivery is the first delivery platform to provide one-stop access to three major delivery platforms. 7-ELEVEN Taiwan continued to extend the products and services to every corner to meet the demands of consumers in all aspects.
- Membership: PCSC have continued to expand the OPEN POINT member ecosystem and integrated with 50 major livelihood brands to create the OPEN POINT one-day living circle, becoming a service platform that consumers rely on. The member activity has grown multiply and the number of members has exceeded more than 14 million through precise marketing of the member promotion strategy. We also used three major payment tools (icash 2.0, icash Pay, and OPEN Wallet) or member account to complete the payment, point accumulation, and discount process in one go to provide a smoother shopping experience.
- Stores:
 - (1) In 2021, 7-ELEVEN Taiwan actively expanded over 6,300 stores and launched various lifestyle modules, such as Cold Stone Ice Cream, Veggie Selection, and Semeur Bakery to meet the diversified needs of customers based on business district and lifestyle. The co-branded stores combine the most popular portraits, such as Sanrio Family, Pokémon, Case Closed, and Demon Slayer, to drive per store benefits and provide customers with a surprising shopping experience.
 - (2) In 2021, we opened the first Diverse Lifestyle Center, using the Group's resources to integrate COSMED, Starbucks, Mister Donut, Books.com, as well as more than 10 other brands to provide new generation customers with quality lifestyle ideas.
 - (3) We opened X-STORE 5, integrating intelligence, co-branding and membership to build a new digital life economic circle, introducing a new shopping experience “iscan X ipay” for the first time. Personal smartphones become smart mobile shopping carts in seconds, optimizing the consumer journey experience and increasing the possibility of connecting with the metaverse.
- Products and services:
 - Fresh foods: 7-ELEVEN plays the role of “social kitchen”, providing high-quality products by stabilizing the supply chain. During the epidemic, we used the strategy of buying and eating nearby to take advantage of business opportunities and trends in cooking at home. In response to the trend of health and environmental protection, we continue to expand our private brand Veggie Selection to meet the diversified dietary needs of customers.
 - Co-branded: We have launched two special zones “Star Feast” and “Famous Hot Pot Festival” to take advantage of the co-branding opportunity. We provide Michelin-starred cuisine and cooperate with starred hotels/restaurants, such as the Regent and Sheraton Grand Taipei Hotel – The Guest House, so customers can enjoy delicious food at 7-ELEVENs nearby. The company launched a new “Famous Hot Pot Festival” to take advantage of the business opportunity of not being able to go out to eat hot pot during the epidemic and has collected more than 70 well-known restaurants online and offline to continue to enhance the customers experience of the value of fresh food products.
 - Coffee: In CITY CAFE, we are actively cultivating the premium coffee market, building a second growth curve, and grasping the digital trend by Mobile ordering and pickup APP that allows members to buy now, pick up later. This year, we introduced a subscription system and precision marketing to promote redemption rate and cultivate member loyalty. We continue to introduce out-of-store services, such as intelligent coffee machines and delivery services, to generate additional sales.
 - E-Service: We have taken advantage of our intense network of stores and comprehensive logistics system to establish a unique storefront shipping and pickup service worldwide. By strengthening the self-operated platform “Myship” and expanding diversified delivery services, including quick collection service, international delivery service, and Cold-chain in-store pickup service, we expect to have the second growth curve to drive future growth momentum.

(2) General economic and industry overview

1. General economic analysis

The global economy grew at a rate of 4.3% in 2021, driven by a gradual recovery in consumer demand and global industrial production. Taiwan exports grew steadily mainly due to private investment, the significant expansion of production capacity in Taiwan for semiconductors and information and communications products, emerging applications such as 5G and cloud computing, and business opportunities for epidemic prevention, resulting in an 11-year high of 6.45% GDP growth in 2021, up 3.34 percentage points from 2020. Total exports reached US\$446.5 billion, an annual increase of 29.4%.

On the price side, impacted by international oil prices and raw material price hike, the industry has reflected the cost and increased prices after the epidemic has subsided. The consumer price index increased at an annual rate of 1.96% for the year, including a 4.23% increase in foods, due to a 21.61% increase in the price of fruits due to weather conditions, as well as an increase in eggs (up 11.75%), meat (up 5.49%), vegetables (up 3.36%) and a 2.39% increase in the cost of eating out. In addition, the wholesale sales index in 2021 grew by 9.42%, also hitting a new high in 41 years.

2. Industry overview

Retail business turnover in 2021 were NT\$3,985.5 billion, an increase of 3.3% over the same period last year. Turnover of overall retail sales of goods reached NT\$1,302.6 billion in 2021, up 0.8% from 2020. Despite the impact of the epidemic, the convenience store industry still ranked first in turnover with NT\$361.4 billion, up 0.1%, followed by department store turnover of NT\$342.6 billion, down 3.2% due to the epidemic, supermarket turnover of NT\$248.2 billion, up 8.0% from 2020, and hyper market turnover of NT\$243.9 billion, up 6.6% from 2020. PCSC will continue to evolve, provide more differentiated products, and strengthen the operation of the shopping surroundings to become a local community service center and actively lay out a digital platform to demonstrate the advantages of online-to-offline integration to meet consumer needs in real time and build a service platform that consumers rely on.

Through the end of 2021, key players in the convenience store industry had the below numbers of stores:

	7-ELEVEN	FamilyMart	Hi-Life	OK	Total
No. of Stores	6,379	3,980	1,500	761	12,620

3. Vertical supply chain

Based on “focused operations, traceability, and winning consumer trust”, PCSC’s food safety policies have as their top priority safety and quality. We have established a Product Safety Committee that has set up a systematic management system for PCSC’s own products. It meets regularly each year to discuss such topics as government regulations, OEM and supplier evaluations and deficiencies, product safety information as well as product safety monitoring programs and their implementation status to ensure that the products on our shelves are safe. To enhance the quality control of our own products, we worked with Taiwan Delica Foods to set up a management database to trace and manage materials and suppliers. In addition, as the first retailer to have an internationally certified quality assurance lab in Taiwan that meets ISO17025 standards as well as accreditation from both the TFDA (Taiwan Food and Drug Administration) and TAF (Taiwan Accreditation Foundation), PCSC continues to expand our testing capabilities to provide customers with safer, more convenient, and more delicious food products. In our franchise operations, we will expand individual store autonomy and individual product management to ensure sales growth in our stores. Operating efficiency of stores has increased through system optimization and the introduction of labor-saving equipment. PCSC continues to improve our franchise system, resulting in year over year increases in franchisee compensation and the proportion of franchise outlets. PCSC continues to build a happy Company, to positively impact society, and to work towards environmental sustainability. By valuing our partners, expanding store locations, and developing innovative products and services, we are creating a virtuous circle that benefits both business and our community.

4. Product development trends and competitiveness

(1) Product development trends

Despite the uncertainties, we face the epidemic with a serious attitude. In addition to providing sufficient supplies for epidemic prevention in our stores, we have created a safe shopping and work environment. PCSC also makes good use of digital tools to enhance the operational efficiency of stores and through iGroup-buying, OPEN delivery, and intelligent vending machines, helping stores to operate business opportunities outside of the store to improve franchisee performance and profitability. We also continue to innovate and integrate to strengthen our brand management and take advantage of market trends and opportunities, while enhancing the product structure of our stores to meet customers lifestyle needs through our diverse lifestyle center and lifestyle stores.

- Digital operations: In response to the trend of no-contact business opportunities driven by the epidemic, we have continued to strengthen our digital management and provide digital tools for stores to enhance sales, such as Mobile ordering and pickup and iGroup-buying, which break the time and space constraints and allow customers to make purchases any time, thus enhancing store management efficiency.
- Membership economy: We continue to optimize the OPEN POINT membership program and points mechanism, expand the channels’ access to points, and build the OPEN POINT points ecosystem. We utilize group’s power to provide exclusive discount programs to enhance the value and sense of honor of members and strengthen their loyalty.

- **Mobile Payment:** In order to provide a more time-saving, convenient and diversified mobile payment experience for members, we actively promote OPEN POINT to bundle multiple mobile payments, which can be bundled and used through OPEN POINT APP, making it convenient for customers to complete payment, accumulate points and deposit invoices at checkout in one go.
- **Diversified Myship / delivery service:** The Company has launched Quick Collection Service to meet the growth trend of small online sellers on the market, providing customers with a large number of shipping needs with in-home collection services to enhance convenience and reduce store operations. We are also aware of international logistics trends and our international deliveries are linked to cross-border store pick-up services. In order to meet the needs of consumers who want to pick up their frozen online purchases near them, we have introduced cold chain store pickup service and will continue to expand our services to meet future consumer trends.
- **Differentiated products:** In response to the impact of the epidemic and restrictions on going abroad, PCSC continues to introduce foreign products through international procurement, strengthening product structure and brand positioning, and strategically collaborating with major manufacturers at home and abroad to develop and introduce exclusive products aimed at what customers want and that are appealing in terms of “value, style, and design”, creating a structure characterized by more differentiated products and distinctiveness.
- **Epidemic prevention business opportunities:** In response to the impact of the 2021 epidemic and the uncertainty of the future epidemic, in addition to cooperating with the government’s epidemic prevention program to pre-purchase masks by name, we launched epidemic prevention-related products and provided sufficient epidemic prevention supplies for our stores to create a shopping environment that gave customers to shop and store partners to work with peace of mind.

(2) product competitiveness

With the gradual blurring of the demarcation between convenience store and supermarket operations, the extension of virtual shelves with e-commerce platforms, such as iPre-order, allows stores to operate online and offline simultaneously without increasing manpower, creating a virtual-real integrated business model and expanding per store operational efficiency. At the same time, with the demographic and lifestyle changes, such as aging population, fewer children, singles, and marrying later, consumers’ diets and consumption habits have changed, so that the take-out food market has potential to grow and become competitive. Through the integration of delivery platforms, we expand our store operations from in-store to out-store and redistribute delivery market opportunities.

- **Dining-out and food delivery business opportunities:** Staying abreast of future consumption trends, PCSC has enhanced our ready to cook frozen food products that customers can conveniently heat up before eating and expanded the frozen products display space in the store, as well as continued to develop safe and delicious diversified ingredients and dishes, providing fast, convenient, and safe choices for diners. In addition, by cooperating with delivery platforms, PCSC has increased sales opportunities in stores and expanding our store operations from in-store to out-store in local business districts, while providing customers with fast, convenient, and safe choices.
- **Meal Business Opportunities:** 7-ELEVEN offers more than 20 breakfast options, and together with Michelin Bib Gourmand -preferred breakfast restaurants, customers can enjoy popular breakfast items anytime, 24 hours a day. We also offer a variety of co-branded fresh food items that allow customers to enjoy five-star hotel cuisine at the convenience store nearby.
- **Fresh Food Equipment Optimization:** In order to provide customers with a better service experience, we are committed to creating safe and delicious fresh food products, and we invest annually to build an advanced version of fresh food equipment and change how we display our products. The “Automatic Freshly-made Panini Machine” was also introduced to meet the characteristics of the single store. Both the staff and customers can easily operate the machine and make a super delicious hot pressed Panini in 3 minutes.
- **Pet Business Opportunity:** We have taken advantage the trend for pet companionship driven by the single and childless generation, setting up a pet product selection made available in stores depending on the needs of the business district, focusing on the four major structures of supplies, snacks, canned food, and dry food to target the demand for pet products nearby.

(3) Technology and R&D

PCSC continues to integrate a variety of innovative products and services to meet the needs of consumers and to compete with differing modes of competition:

1. **Mobile ordering and pickup function:** We continue to introduce more items so that consumers can purchase coffee, fresh food, and beverages using the Mobile ordering and pickup function. We also optimize the consumer experience and improve the system interface, adding functions such as redemption baskets and rewards to make it more convenient for consumers and enhance customer loyalty by using the APP.
2. **iPre-order:** We have innovated the product structure and optimized the system to make the purchase process adhere closer to consumer habits and provide a more complete product structure to meet consumer needs.
3. **iGroup-buying:** The first “iGroup-buying” group-buying platform allows consumers to easily join group-buying groups in stores, get the latest group-buying information in real time, and integrate the process of placing orders, making payments, accumulating points, and saving invoices. It also improves the inconvenience of the

store manager's previous use of communication software to promote products that require manual recording. The digital management of orders has improved sales and saved the manpower.

4. OPEN delivery: We have integrated the paths of various delivery platforms and created the first "OPEN delivery" on the home page of OPEN POINT APP. OPEN POINT members can navigate from a single junction to various delivery platforms, thereby expanding our operational benefits.
 5. X-STORE 5: In response to aging population and labor shortage, the Just Walk Out concept is an innovative self-checkout model that shortens customer queuing time and saves labor hours, creating a new consumer experience.
 6. Intelligent vending machines/intelligent coffee machines: The Company is committed to creating a second growth curve in store sales by applying innovative concepts in technology, such as unmanned stores and automation, operating as a "mother-son store" and serving as a satellite service station for 6,300 stores. Our intelligent vending machines and intelligent coffee machines are located in major commercial offices, technology factories, government agencies, and even remote towns to serve consumers in areas where shopping is not convenient. Our intelligent coffee machines are stationed in corporate pantries and can make a cup of CITY CAFE in 35 seconds. 7-ELEVEN has been actively laying out its smart retailing map, using innovative technology to become a service platform that consumers can rely on.
 7. Map of i-Love food: The map of i-Love food instantly shows the inventory status of food items that are about to expire in all of our stores, making it easy for consumers to find them quickly, further reducing the waste of leftover food in our stores, and continuing to work towards the goal of reducing leftover food by half.
 8. In 2021, a total of NT\$182,173,000 was spent on R&D and system upgrades.
- (4) Short and long-term operating strategies
1. Short-term operating strategies
 - (1) Continue to integrate stores into existing shopping districts and establish a competitive niche with large format stores.
 - (2) Expand store autonomy to create advantages through differentiation.
 - (3) Further integrate virtual and brick and mortar operations to create more virtual service opportunities.
 - (4) Optimize our operational foundation to provide the strength for mid to long-term development.
 2. Long-term business development plan
 - (1) Optimize the franchise model to create a win-win situation for both PCSC and franchisees.
 - (2) Implement value marketing and enhance the consumer experience.
 - (3) Implement "lean operations" to use resources to their fullest.
 - (4) Integrate the Group's resources and seek stable profits growth.
 - (5) Actively nurture talent to ensure sustainable development.

2. Market analysis and merchandising

(1) Market analysis

1. Main product (service) sales areas:

PCSC keeps on top of new consumer trends and develops high value products and innovative services to meet customers' evolving needs. Our goal is to become "a dependent service platform that surpasses customer expectations". No matter where you may be, our mission is to provide a wide variety of high quality, trustworthy products and services with a smile.

2. Future market supply and demand and potential growth:

As of the end of 2021, PCSC held a 50.55% share of the convenience store market in terms of store locations, which made us the top brand in the minds of consumers. We have continued to strengthen the operational capacity of individual stores offline and actively developed online platforms and consumption models to best drive growth through efficiency. As boundaries blur in the retail industry and with the uncertainty of the epidemic, operations will inevitably face more difficult challenges, but as long as we can become a dependent service platform that convenience store customers expect, there is still great potential in the Taiwanese convenience store sector.

3. Competitive niche:

The convenience store industry in Taiwan is highly competitive. However, by capitalizing on our advantages and rapidly evolving to meet needs, we can stay at the head of the pack. PCSC's major competitive advantages are:

- (1) Positive corporate image and good brand reputation.
- (2) The capability to rapidly develop new products (services) to meet customers' changing needs and use integrated marketing techniques to promote them.
- (3) The scale of channel favorable to successful product research, development, and sales.
- (4) A comprehensive logistics support system and an ever more seamless supply chain.
- (5) Strong IT platform and infrastructure with high potential for further development to meet the needs of consumers and effectively create new business opportunities.
- (6) First-rate franchise model.
- (7) The Group has significant resources that can be integrated and shared between members.

4. Positive and negative factors for future growth and strategic responses:

(1) Positive factors:

- The market for dining-out continues to grow with increasing demand for natural, organic food and beverage options.
- Taiwan's society is aging, while more people are having fewer children and living alone, so there are growing business opportunities from seniors, singles, and small families.
- With the rapid development of a variety of smart mobile devices, online shopping, and social network platforms, information has become highly transparent. Shoppers are seeking out entertaining, timely, and mobile shopping experiences.
- As cross-border internet transactions increase, greater opportunities will arise for business and logistics.

(2) Negative factors:

- Faced with uncertainties about the global epidemic, international supply chain have been instable.
- The convenience store market is becoming saturated, while small-scale supermarkets have sprung up, blurring the line between the two and resulting in increasingly fierce competition both in the virtual and brick and mortar space.
- The decline in the labor population and rising personnel costs will increase overall operating costs.

(3) Strategic responses:

In the face of the epidemic and the fast-changing consumer market and emerging consumer trends, PCSC has integrated the group's resources in response to the characteristics and needs of shopping districts, and introduced differentiated products and services through diverse lifestyle center and lifestyle store models to enhance the store operation, and becoming a local community service center to widen the competitive gap. In terms of customized ready-to-eat food needs, we provide safe, delicious and diverse fresh food products through strict food safety control. Through services, such as intelligent vending machine, iPre-order, and iGroup-buying, the stores are able to operate outside the stores and stay on top of consumer needs. In terms of digital services, through the use of OPEN POINT APP, PCSC has integrated members and services, such as Mobile ordering and pickup function, to make it more convenient for consumers to purchase and redeem coffee and fresh food and to increase customer loyalty. We have also entered the high-end segment of the premium coffee business and become the first choice for a more convenient life. We continue to innovate and integrate to provide services and products that exceed consumer expectations, enhance our brand management, and continue to be a service platform that consumers rely on.

- (3) In 2021 and up to the printing of this annual report, competent authorities fined some stores NT\$30,000 for violating the Act Governing Food Safety and Sanitation. PCSC has already required improvements in all stores and has strengthened education regarding relevant regulations.
- (4) Information regarding EU Restriction of Hazardous Substances (RoHS) Directive: The Company and its subsidiaries do not sell directly or indirectly to Europe, and therefore is not subject to RoHS.

5. Labor-management relations

(1) Employee benefits

1. Integration of the group's HR system and resources

PCSC and its affiliates jointly review, revise, and integrate their HR systems to build a robust talent pool and career planning systems for the group. The result is an environment that facilitates a fair and reasonable development of inhouse talents.

2. Comprehensive employee benefits:

(1) In accordance with the Official Letter Taipei City Social II No. 58459 of the Department of Social Welfare, PCSC established the Employee Benefit Committee on December 21, 1987. Members of the Committee are jointly elected by both the enterprise union and the Company. The Committee regularly hosts a variety of activities, organizes health check-ups for employees, and provides other benefits, such as subsidies for in-service education program.

(2) The PCSC benefit scheme includes, health examinations, employee stock ownership plans, club subsidies, library centers, discount purchasing, wedding and funeral allowances, paid maternity and paternity leave, group insurance, employee travel allowance, and other benefits provided by Employee Benefits Committee to meet employee needs. In addition, to take care of employees, PCSC also assists employees' families, sets up nursing rooms in the office, and contracts with childcare institutions to provide preferential prices to reduce the burden of childcare on employees.

(3) To assist employees to effectively and efficiently manage sources of stress from work, home life, and health as well as to bolster physical and emotional health, and encourage positive interpersonal relationships, PCSC organizes employee relationship promotion activities throughout the year to not only relieve the physical and mental pressure of partners, but also to enhance the establishment of the relationship between the organization and employees. In addition, the Company commissioned the Teacher Chang Foundation, starting in 2009, to provide three hours of free counselling services each year for employees.

(4) In 2010, the Company decided to become more proactive in our care for employees, establishing the "Happy Cooperative" in May of that year. In 2021, the program assisted employees in a total of 3,775 cases and 2,844 caring hours.

(5) Due to the special circumstances of the COVID-19 epidemic since 2020, in order to maintain workplace health and implement epidemic prevention, we assisted colleagues to cope with the following:

- PCSC has specially formulated the Implementation Measures for Colleagues Working from Home and supporting measures for attendance, allowing logistics colleagues to work remotely from home. In May 2020, the guidelines for the work of colleagues outside the office were also set, and the system began to include working outside the office (home).
- The Company started work diversion, and logistics colleagues could also flexibly choose time to go to and from get off work to avoid rush hour and reduce risks. In addition to the original four flexible working hours from 07:30 to 09:00, a new 9:30-18:30 shift schedule was added to allow employees to adjust their times to meet family needs and achieve a work-life balance.
- Compensation for cancellation of travel itinerary was provided to colleagues who had already planned to go abroad. If the overseas itinerary had been confirmed and related expenses had been paid, and the private overseas itinerary had been cancelled and related losses had been compensated, compensation was given.
- In response to the escalation of the epidemic, giving priority to employees has been important. In response to possible future conditions, the Company has prepared each employee a box of "home epidemic prevention items" and carefully arranges direct delivery when needed, so that employees can have peace of mind in their homes.
- The company provided free anti-epidemic insurance for each employee. If a person who is diagnosed or has contact with a confirmed person is notified to be quarantined, each can apply for a compensation of 100,000 dollars. In addition, when a colleague is diagnosed with the diagnosis, in addition to caring and condolences, one-time caring and condolence payment of \$32,000 will be issued, and an additional \$1,000 per day if hospitalized.

(6) The Company established "Operational Procedures of Employees Assistance in Severe Accidents", encouraging supervisors to offer employees timely concern on behalf of the Company and to take the initiative to offer them paid leave for convalescence and financial help to take care of them in the event of serious accidents.

(7) PCSC provides its employees with competitive salaries and wages and ensures that base pay is greater than the national standard for each year through salary and benefit surveys. In addition, men and women in the same position are given the same base pay to promote equality. Salary and benefits do not differ according to gender or age.

3. Providing entrepreneurial opportunities: PCSC provides an incentive program to encourage employees to become franchisees, so that they can grow and develop with the Company.

4. Safe and friendly workplace:

Received international certification for the TAF ISO45001 Occupational Health and Safety Management Systems, which is valid until 2025/1/2. To realize health and safety, the Company has taken the following steps:

(1) Establishment of a health and safety organization: The Worker Safety Office holds Health and Safety Committee meetings each quarter and Management Review Meetings each year and encourages contractors to hold safety agreement organization meetings.

(2) Sanitation and safety training and drills: Both new and existing employees participate in safety and health education and training, and we hold occupational safety online courses, "Traffic Safety Promotion (defensive driving)", "Office Ergonomic Hazards Prevention", to enhance employees understanding of traffic safety and musculoskeletal hazards prevention.

- License training (Level C/First Aid): 159 sessions/4,374 individuals engaged.
- "Traffic Safety Promotion (defensive driving)": 19,493 individuals engaged.
- "Office Ergonomic Hazards Prevention": 1,989 individuals engaged.

(3) Implement risk assessments and safety audits:

- Contractor management: Through on-site safety observation and safety counseling with construction personnel, a total of 74 risk contractors were promoted, with a total of 415 individuals engaged.
- Risk and danger identification: In 2021, we held audits in various locations with 373 corrective actions taken in 211 locations in which 39 actions found zero missing. Improvements were suggested and implemented for 100% improvement.
- Guiding fresh food factory: Implemented supply chain management, coached 12 fresh food factories to establish occupational safety systems, promoted 8 fresh food factories to introduce ISO45001 certification, and handled 1 online occupational safety training course.
- Testing indoor air quality to ensure that CO2 emissions were below 1000 ppm and that the illuminance and the quality of the drinking water were above standard.

(4) Healthcare: When employees first report for work, they are signed up for group accident insurance, life insurance, medical insurance, and we provide subsidies for physical examination. PCSC also hired specialized nurse practitioners and doctors from NTU Hospital to provide health counseling services. PCSC further employs health education campaigns, such as the Healthy Life Circle app, e-newsletters, and lectures, to encourage employees to manage their personal health.

(5) Event safety controls: Affected by the epidemic, in line with the Company's epidemic prevention policy, we stopped handling large-scale events to avoid the risk of infection by company employees and people participating in the event.

(6) Promoting employee health exams: Strengthen personal health management and illnesses prevention through regular health checks.

- Senior employee in-depth health exams: Provide full-time employees 35-years old or older with at least 5 years of service with NT\$16,000 subsidy every two years for in-depth health exams. In 2021, a total of 2,192 employees could apply for such assistance.
- Annual health exams: We provide employees and food industry workers with annual health exams. Affected by the epidemic in 2021, only the food industry workers would be inspected. For general employees who meet the age limit, the health exams would be arranged individually. 4,631 people had health exams and 93% participation rate.

(7) Implementing employee health management: Employing doctors and nurses to proactively provide employees with individual health care and consultations.

- Doctors: In 2013, PCSC began asking doctors to provide health services to employees (once every two months). By 2019, this was increased to 16 times per month (3 hours each time). In 2021, doctor services totaling 576 hours over the entire year, providing one on one health services 753 times with an employee satisfaction score of 4.92.
- Nurses: A team of four nurses was hired to provide employee healthcare. In 2021, the team provided treatment 133 times. In addition, PCSC introduced a comprehensive health management system to provide employees who received abnormal exam results with tiered health management. Extremely high risk employees have been under 100% intervention management, follow up treatment tracking, and individual case follow up management.

(8) Promoting occupational disease prevention and health protections for specific groups: Establishing maternal health protection for female workers and prevention mechanisms for ergonomic hazards, workplace violence, and fatigue. In 2021, a total of 111 cases had been resolved.

- (9) Workplace emergency preparedness: Automated external defibrillators (AED) are installed according to office size and number of employees and regular training is held. In 2019, PCSC received the Ministry of Health and Welfare's AED Workplace Certification for the third year in a row.
- (10) Implementing health promotion activities: Encouraging employee self-health management to improve health outcomes through group activities.
- Our health promotion campaign has incorporated an innovative and revolutionary app that features a Healthy Living Community for employees, encouraging all employees to maintain the healthy practice of exercising. In 2021, four special activities, including the New Year Epidemic Prevention and Exercise Together, Food Planet, Mid Autumn Festival, Ghosts Touring Taiwan, were held (each lasted for one month) with 5,338 participants. A total 19,700 kilocalories was burning off with a total of about 2,559 kg.
 - COVID vaccination: The coverage rate of the first dose of service employees was 96%, and the coverage rate of the second dose of all employees was 77%. The annual COVID-19 vaccination project in Taipei, New Taipei, Keelung and Taoyuan City was assisted to complete 15,988 individuals.
 - Influenza vaccination campaign: A total of 177 people received vaccinations.
- (11) Health certifications and healthy workplace competitions:
- Received the three year Lequn Health Award from the Ministry of Health and Welfare's Health Promotion Administration Outstanding Healthy Workplace Awards in 2019. Certification is valid from 2019 to 2021.

(2) Training and development

1. PCSC's training statistics for 2021 are as follows:

Internal Training				External Training			Online Training			Total		
Training Sessions	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs	Number of Trainees	Hours of Training	Training Costs
1,197	9,562	48,795	NT\$14.469 million	308	3,347	NT\$0.725 million	284,265	55,209	NT\$3.036 million	294,135	107,351	NT\$18.23 million

2. In accordance with the Group's core values, PCSC issued "General Skills Needed by Logistics Personnel and Standards for Training Courses" covering training programs developed by PCSC for various positions within the organization to build employee skills and standards.
3. We also issued "Training Management Guidance" to serve as guidelines for training activities. Based on their individual needs, employees can take internal or external training classes or different departments can organize their own training. In addition, they can draw up a "Personal Development Plan" with their immediate superiors based on their education, experience, work requirements, performance evaluation results, and career development needs to map out the training sequence most suitable for them. Giving employees a goal and a plan encourages disciplined learning and growth to ultimately enrich professional knowledge and skills.
4. For some key identified talents, PCSC has mapped out a program of training and development that includes courses, mobile learning, and personal development plans as well as attending regular meetings to let high-level managers know how well they are doing in their studies and what they have accomplished to help them reach their ideal position within the Company.
5. Potential external training courses are vetted through a rigorous screening process to ensure that all offerings are up to our exacting standards. Depending on the nature of the course and the participants, each class employs unique educational activities. In addition, utilizing the latest technologies, PCSC has built a digital learning platform for online courses to provide a more effective way to attain a competitive edge.
6. Continuing education: At PCSC, employees can take charge of their own learning through the many diverse training channels available, which include guidance by supervisors and peers, knowledge management system, internal and external training programs, lectures and seminars, online learning, and on-the-job training. PCSC also encourages employees to pursue self-enrichment in their spare time to shore up their foundation and professional knowledge through scholarships for outside training and language courses.
7. An internal system for training lecturers that uses Company resources to cultivate enthusiasm and a willingness to share with our partners and train to be specialized internal lecturers to transform our Company into an organization that emphasizes learning and sharing. Just before Teachers' Day, the Company recognizes and expresses appreciation to individuals who have lectured internally to help create within them a sense of value and mission.
8. Career development:
- (1) Multi-channel career development opportunities: PCSC has spared no effort in employee training and personal development and we fully support employees' quest for knowledge and enhanced work skills. Through training programs, providing equipment, online resources, and a mentoring system, the Company helps employees map out their career development plan and provides a diverse range of opportunities for personal growth.
- (2) Job rotation: We encourage our employees to try new things and to learn by working in various departments, different companies, or even various areas to broaden their horizons and increase competence in a range of skills.

(3) Retirement plan**1. Old system under the Labor Standards Act**

On Oct 16, 2020, PCSC modified its employee retirement program, applicable to all existing employees. As stipulated by law, the program calculates an employee's years of service starting with his or her hiring date. Employees who have worked for the Company for less than 15 years (inclusive) shall be granted two basic units for each full year of service. From the 16th year onward, each full year of service shall be translated into one basic unit in the calculation of pensions. Any service period that is less than six months shall be calculated as half a year; while any service period that is between six months and twelve months shall be calculated as one full year. The number of basic units in the calculation of pensions is capped at 45. Pensions are calculated on the basis of years of service and the average monthly salary at the time of retirement. Calculation of average salaries shall be made in compliance with the Labor Standard Act.

2. Service year calculations under the old system for transferred employees:

- Service years for transferred employees include the number of years they served in every PCSC affiliate and/or members of the Uni-President Group.
- The sharing of pensions among affiliates is based on the percentage of the years of service spread over the affiliates that the employee has served.

3. New system under the Labor Pension Act:

Beginning on July 1, 2005, in accordance with the Labor Pension Act, PCSC implemented a new system that is applicable to all employees. Existing employees could opt for the old system under the Labor Standard Act as stated in (1) or the new system under the Labor Pension Act. As stipulated in the Labor Pension Act, the monthly contribution is made based on the Monthly Contribution Wages Classification, which currently amounts to 6% of employee monthly income transferred to a personal retirement account with Bureau of Labor Insurance.

(4) Labor-management relations**1. Open communication channels**

PCSC established an internal communication platform which sends out important messages directly to employees. To encourage direct communication between employees and managers, in addition to providing an Integrated Services Center, e-mailbox, and a dedicated stakeholder section of our website that allows employees to get timely answers to their questions, the Company set up an internal suggestion system, which allows employees to offer opinions and suggestions about Company operations directly to management in real time.

2. Employee code of conduct

PCSC has written an employee handbook and regulations regarding incentives and rewards and has also set up a committee to implement related affairs. Furthermore, the Company has established an employee code of conduct to spell out specific regulations governing employee behavior. The code of conduct includes the below requirements:

- (1) Employees may not embezzle Company funds for personal purposes, engage in unscrupulous behaviors for profit, participate in illegal acts, violate any contracts, damage public property, or otherwise jeopardize the Company's reputation.
- (2) Employees shall not abuse any other individual, affect other individual's work performance or threaten to exchange the establishment of service contracts, compensations, performance reviews, promotions/demotions, rewards/disciplinary actions with any language or actions that contain sexual requests, that are sexually suggestive, or discriminate on the basis of sex.
- (3) Employees shall not give gifts to managers or treat managers for meals; however, managers may give gifts to subordinates and treat subordinates for meals as a token of gratitude for their hard work.
- (4) Employees shall not be engaged in any unofficial monetary transactions with any business-related vendors or individuals.
- (5) Employees shall not receive any benefits from business-related vendors or individuals.
- (6) Employees shall not make any publications, statements, or displays in the name of the Company without permission from the Company.
- (7) Employees should maintain complete confidentiality in all business activities for which they are responsible and shall never, under any circumstance, assist anyone with interests at odds with those of PCSC or reveal trade secrets to competing enterprises or individuals.
- (8) Employee attendance and behavior shall comply with regulations set forth by HR.

3. Labor-management negotiations:

PCSC has always considered our employees as the most important asset. The Company works to align our vision for the future with the development goals of employees. PCSC also holds regular labor-management meetings as required by law. Therefore, the interaction between PCSC and its employees has been very positive and harmonious over the years.

4. Losses due to labor disputes:

- (1) PCSC provides employees with a comprehensive benefit system, quality working environment, and open communications channels. Therefore, no major labor disputes have occurred and no significant losses have been reported.
- (2) Violations of the Labor Standards Act in the last year up until the printing of this annual report: None
- (3) Current and future amount of money that might have to be paid: None

6. Information security management

- (1) Explain the information security risk management framework, information security policy, specific management plan and the resources invested in the information security management, etc.
1. With the rapid changes in technology, information security risks are mostly generated through the network environment and employee behavior, such as hacker attacks, network traffic attacks, software (ransom) viruses, phishing, spam, software updates, and privilege control. The impact on the Company may include theft or manipulation of internal information, loss of accounts, disruption of daily operations, and damage to the Company's image.
 2. PCSC's board of directors set up the "Risk and Information Security Management Office" in July 2020 to coordinate the management of various types of company risks, formulate risk management policies and management scope, plan future operations, and strengthen information security management.
 3. The Company has drawn up internal information safety management regulations and regularly conducts inspections to ensure that they are being implemented, performs regular system information safety testing, utilizes information safety equipment, such as firewalls, to review user behavior, enhance anti-virus mechanisms and encryption mechanisms.
 4. Our personal data protection measures have received TPIPAS certification and are tested and evaluated regularly by a third party and employees receive regular training to enhance information safety awareness. Information security risk management matters are also regularly reported to the Board through the Ethical Operations Team.
 5. Estimated capital cost in 2022 was approximately \$37.74 million, consisting of:

Behavior Category	Types of Security Protection	Average annual amount (NT\$m /year)
Website Protection	Firewall/IDP, APFW, SSL Certificate, etc.	17.62
Access Management	Recording Platform, VPN, System Log Saving, etc.	7.13
Security detection	Information Security Testing, Host IDS, IDC Hosting Anti-Virus, Office security protection, etc.	12.99

- (2) The Company shall list losses, possible impacts, and responses to major information and communications security incidents in the most recent year and up to the date of printing of the annual report, and, in the event that it cannot be reasonably estimated, the fact that it cannot be reasonably estimated shall be stated: None.

Note 1: Not applicable, as PCSC is a retail business.

Note 2: The calculations of the above financial ratios utilize the formulas listed on page 80, which are based on IFRS.

Note 3: The reasons for changes in financial ratios over the past two years:

• Cash Flow Reinvestment Ratio: The change was primarily caused by increased in net cash flows from operating activities in 2021.

※Calculations based on IFRS:

※Financial Structure

(1) Debt to Assets Ratio = total liabilities / total assets

(2) Long-term Capital to Property, Plant and Equipment Ratio = (total shareholders' equity + non-current liabilities) / net property, plant and equipment

※Liquidity

(1) Current Ratio = current assets / current liabilities

(2) Quick Ratio = (current assets – inventory – prepaid expenses) / current liabilities

(3) Interest Coverage = earnings before interest and taxes / interest expenses

※Operating Performance

- (1) Average Accounts Receivable Turnover (including accounts receivable and notes receivable arising from business activities) = net sales / average accounts receivable (including accounts receivable and notes receivable arising from business activities)
- (2) Average Collection Days = 365 / average accounts receivable turnover
- (3) Inventory Turnover = cost of goods sold / average inventory
- (4) Average Accounts Payable Turnover (including accounts payable and notes payable arising from business activities) = cost of goods sold / average accounts payable (including accounts payable and notes payable arising from business activities)
- (5) Average Inventory Turnover Days = 365 / inventory turnover ratio
- (6) Property, Plant and Equipment Turnover = net sales / net property, plant and equipment
- (7) Total Asset Turnover = net sales / average total assets

※Profitability

- (1) Return on Assets = [net income + interest expense × (1 – effective tax rate)] / average total assets
- (2) Return on Equity = net income / average shareholders' equity
- (3) Net Margin = net income / net sales
- (4) Earnings per Share = (net income attributable to owners of the parent – preferred stock dividends) / weighted average number of shares outstanding

※Cash Flow

- (1) Cash Flow Ratio = net cash flows from operating activities / current liabilities
- (2) Cash Flow Adequacy Ratio = five year sum of net cash flows from operating activities / five year sum of (capital expenditures + increase in inventory + cash dividends)
- (3) Cash Flow Reinvestment Ratio = (net cash flows from operating activities – cash dividends) / (gross property, plant and equipment / long-term investments + other non-current assets + working capital)

※Leverage

- (1) Operating Leverage = (net sales – variable operating costs and expenses) / operating profit
- (2) Financial Leverage = operating profit / (operating profit – interest expenses)

2026	Investments in new and existing stores	5,546,090	1,721,506

2. Other potential benefits:

The year's capital expenditures were primarily used to introduce new stores, expand store space, and set up new IT equipment, which we expect to have the following benefits:

- (1) Optimizing information equipment can improve operational efficiency, introduce various digital payment tools and delivery platforms, and expand the OPEN POINT member ecosystem to provide customers with more convenient life.
- (2) Adding lifestyles elements in stores to provide customers with more shopping alternatives.

5. Analysis of investments in subsidiaries in recent years

(1) Investment policy and plan and reasons for profits or losses at affiliated enterprises:

In 2021, PCSC's investment income accounted for using equity method was NT\$2,838,228,000, which was mainly due to the business including convenience stores, food and beverages, cosmetics and pharmacies, department stores, super and hypermarkets, and an online shopping website. In order to provide customers with a rich, varied shopping experience, PCSC continually expands into new areas. At the end of 2021, PCSC and its subsidiaries boasted a total of 11,070 retail locations, 3,073 of which are 7-ELEVEN branches in the Philippines which has rapidly adapted to market changes, adjusted and optimized product structure, and strengthened digital services. Starbucks Taiwan have now exceeded 525 locations. They are working hard to optimize membership management and continue to strengthen brand leadership through diversified store types and delivery services. Cosmed have 391 locations. They combine online and offline resources to meet customers' fast-changing demands. Transnet continue to optimize business structure and improve logistical efficiency. Books.com take steps to expand e-book and audiobook business, providing a new reading experience. In the future, we will continue to focus on core business operations to enhance the effectiveness of long-term investments.

(2) Improvement Plan for Investments in Affiliated Enterprises and Investment Plans for the Coming Year

To improve performance at affiliated enterprises currently showing a loss, the Company will adjust the business model, improve the product mix offered to enhance the efficiency and performance.

6. Risk management policies and organizational structure and risk assessment

(1) Risk management policies and structure

PCSC endeavors to maintain a comprehensive risk management system that works to manage risks for the entire organization including consolidated subsidiaries. The Board of Directors, managers at all levels, and employees work together to promote proper implementation of risk management.

In addition to observing relevant regulations, PCSC identifies, analyzes, measures, monitors, responds to, reports, and mitigates all potential risks that could arise from operating activities based on the characteristics and impact of such risks. While working to achieve PCSC's strategic goals, we can also effectively maintain and control potential risk.

For the purpose of coordinating the management of various types of risks of the Company, formulating risk management policies and management scope, planning future operation conditions, and strengthening information security management, in July 2020, the Board resolved to place the "Risk and Information Security Management Office" under the CSR Committee.

The Company's primary risk management structure and the various business units responsible for risk management and its implementation are discussed below:

1. Strategic and operational risks: Each business unit and subsidiary is responsible for the planning and risk assessment of any new investments or operational decisions. PCSC's Office of the President regularly conducts related indicator analysis and tracks performance at the PCSC and affiliated enterprises quarterly meetings and regularly scheduled themed project operation reviews for key affiliated enterprises. Appropriate adjustments to operational strategy are made in accordance with changes in market competition and consumer trends to ensure each business entity's strategy is in line with its operational goals and strategic vision.
2. Financial, liquidity, and credit risks: To respond to changes in related regulations, policies, and the market, PCSC's Finance Office defines a range of strategies, procedures, and indicators to perform regularly-scheduled analysis and evaluation of changes in risk status and respond appropriately in order to mitigate potential risks for the entire company.

3. Market risks: Each business unit analyses and assesses major government policies, laws, and technological advances both in Taiwan and abroad and formulates appropriate response measures to reduce potential future risks. In addition, PCSC established an inter-division Regulation Identification Team and holds regular Regulation Identification Meetings to track the latest changes in Taiwan laws and regulations and formulate appropriate responses. Also, the Crisis Management Team, made up of division managers, was established effectively control and manage any potential or existing market risks and crises.
4. Through risk assessment and regulatory reviews, the Internal Audit Office draws up an annual audit plan and self-inspection procedures and methods, which, when implemented, help to control aforementioned risks. The results of these inspections shall be reported periodically to the Board of Directors.

(2) Risk Assessment and Analysis

1. Impact on Company profits and responses to fluctuations in interest rates, foreign exchange rates, and inflation:

(1) Changes in interest rates:

Taiwan's economy grew at a rate of 6.45% in 2021 and is expected to grow at a rate of 4.42% in 2022 according to the Directorate-General of Budget, Accounting and Statistics. In light of developments in terms of the pandemic as well as economic and financial situation, both in Taiwan and around the world, the global economy will continue to recover this year, but growth rate will slow down. With the supply and demand imbalance problem eased, global inflation is expected to gradually stabilize. However, the world still faces uncertainties, such as the evolution of the epidemic, monetary policies of major advanced economies, competition between the US and China, and disasters caused by climate change, which increase the downside risk of the global economy. In principle, the future monetary policy of Taiwan's central bank will move toward tightening, but it will retain flexibility.

Countermeasures: We will continue to monitor the trend of interest rates, negotiate with various financial institutions, and use other capital markets to raise funds to control the Company's financing costs.

(2) Changes in exchange rates:

The Company buys and sells mainly in NT dollars and foreign currency-denominated products account for a very small proportion of total sales, so fluctuations in exchange rates have no significant effect on our profits and losses.

(3) Inflation:

Since the beginning of 2021, the international oil price has risen, which has driven the domestic oil prices to rise. In addition, due to the delayed impact of the typhoon and heavy rain in August, the vegetables and fruits prices have risen sharply. the Directorate-General of Budget, Accounting and Statistics announced that the consumer price index (CPI) was 1.96%, hit a 13-year high.

Looking forward to 2022, due to factors such as international oil prices hike and geopolitical tensions, the domestic inflation rate will continue to remain high, and the annual growth rate of the CPI will be revised up to 2.37%. The central bank has raised interest rates by 0.25% in response to inflation, and with the momentum of exports and private investment has continued to increase, the authorities delivered a forecast GDP growth rate of 4.42%.

Countermeasures: PCSC is continuously committed to strengthening the value of merchandises, improving the gross profit structure, and strengthening the membership economy and providing a deversified platform and other marketing strategies, grasping the consumption trend and business opportunities to reduce the cost increase pressure caused by future inflation and the impact on PCSC.

2. Policies regarding engagement in highly risky or highly leveraged investments, loans to others, endorsements, or derivatives trading; reasons for profits or losses from such activities; and proposed response measures:

(1) Company policy:

PCSC focuses on our retail and distribution business and has not engaged in risky or highly-leveraged investments. However, in order to effectively control and manage business-related risks and enhance the safety of financial operations, PCSC has structured a set of internal management and operational procedures on the basis of the relevant regulations from the Securities and Futures Bureau. These requirements and procedures include "Procedures for Loading of Funds", "Procedures for Acquisitions or Disposals of Assets" and "Procedures for Making of Endorsements". In accordance with the Securities and Futures Bureau's Guidelines Governing Establishment of Internal Control Systems at Publicly Held Companies, PCSC's Internal Audit Office and subsidiaries have defined a set of risk management and assessment procedures.

- (2) Status of loans from PCSC and affiliated enterprises to others, endorsements, and derivatives trading and reasons for profit or losses of such activities:

- a. Loans to others: In 2021, the subsidiary President Pharmaceutical Corp. loaned funds to President Being Corp. in the amount of NT\$40 million, with actual amount of NT\$20 million for the year ending December 31, 2021. The above subsidiaries are engaged in lending funds to others in accordance with the "Procedures for Lending Funds to Others".
 - b. Endorsements and guarantees: The Company and its subsidiaries have not offered endorsements.
 - c. Derivatives: The Company and its subsidiaries are not engaged in the trade of derivatives.
- (3) Future response measures:
- a. The main goal of the risk control and hedging strategy implemented by PCSC is to avoid operational risks. To this end, should the Company utilize derivatives, it should be to establish a hedging position. Financial products shall be selected for the purpose of hedging operational risks resulting from interest expenses, assets, or liabilities.
 - b. PCSC's Finance Office is responsible for managing the Company's derivatives trading position and performs routine market evaluations. If the Finance Office discovers unusual trading or losses, it shall take necessary action and report the situation to the Board immediately. In addition, the Company also conducts routine performance evaluations of derivative trades to ensure they are in line with our operating strategy and that the risks are maintained within the Company's risk tolerance.
3. R&D Plans and Projected Investment:
- (1) Membership and Point System: Providing members with a convenient shopping experience that can accumulate and redeem points. Integrating multiple channels and functional services to expand the OPEN POINT members' ecosystem, accelerating the accumulation of points and expanding the value of points.
 - (2) Mobile ordering and pickup APP optimization: In response to changes in digital consumption patterns, we are expanding our online sales functions and the system functions integrated with our stores to provide consumers with diversified services.
 - (3) OPEN APP Optimization: Optimization focuses on user experience, personalized subscription system, and promotion of various promotions to improve overall satisfaction.
 - (4) The estimated investment in R&D in 2022 was approximately NT\$92.65 million and included membership system, data system, store software, digital payment function optimization to provide better digital services for customers.
4. Financial impacts of and responses to major changes to domestic and overseas laws and government policies:
- (1) PCSC has already taken appropriate measures to respond to recent changes in government policies and laws in Taiwan and overseas, so these changes did not significantly impact the Company's financial operations.
 - (2) In response to the Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter announced in March 2011 by the Securities and Futures Bureau, PCSC established the Remuneration Committee in June 2011. In June 2012, PCSC held new elections for the Company's Board of Directors, invited independent directors to the Board, and established the Audit Committee in response to the March 2011 announcement of the Applicable Scope of Appointment of Independent Directors for Publicly Traded Companies and to optimize the Company's corporate governance. In response to amendments to the Company Act, PCSC implemented electronic voting and voting by polls at the General Shareholders' Meeting in 2013. In 2014, PCSC formulated Ethical Best Practice Principles and Corporate Governance Best Practice Principles, and in 2015 further added the Ethical Operating Procedures and Behavior Guidelines and Procedures Governing Applications to Suspend and Resume Trading. In July 2015, Article 235 of the Company Act was revised, while Article 235-1 was added. In response, the General Shareholders' Meeting passed an amendment to the Articles of Incorporation in June 2016 to change the sources and order of employee and director remuneration to comply with the law. PCSC established the interdepartmental Regulations Identification Team, which issues a quarterly report and keeps up to date on the latest regulatory changes.
5. Financial impacts of and responses to technological and industry changes (includes information security risk):

- (1) Continuing the epidemic in 2021, PCSC encounter the changes in consumption habits in 2022. Consumers tend to use digital platform to shop, so we provide digital service tools such as Mobile ordering and pickup APP, iPre-order, and delivery platforms, allowing consumers order online and pickup in our store or at home.
 - (2) In addition to the online platforms, the intelligent vending machines are also effective equipment providing services for the stores to develop and extend business opportunities. PCSC continues to seek innovation and change as well as contemplate more diversified business models.
 - (3) In response to aging population and labor shortage issues, we developed X-STORE presenting the usage of new technology and extracted the application mode that can help save labor and efficient store operation.
 - (4) As technology advances rapidly, most risks to information safety are caused by network environment and employee behavior, including hacker attacks, traffic flow attacks, software (ransom) virus, phishing, spam, software updates, and access control. Possible effects on the Company include internal data being stolen or altered, account losses, impact on daily operations, and damage to Company reputation. The Company has drawn up internal information safety management regulations and regularly conducts inspections to ensure that they are being implemented, performs regular system information safety testing, utilizes information safety equipment, such as firewalls, to review user behavior, enhance anti-virus mechanisms and encryption mechanisms. Our personal data protection measures have received TPIPAS certification and are tested and evaluated regularly by a third party and employees receive regular training to enhance information safety awareness. Information security risk management matters are also regularly reported to the Board through the Ethical Operations Team.
PCSC's board of directors added the "Risk and Information Security Management Office" in July 2020 to coordinate the management of various types of company risks, formulate risk management policies and management scope, plan future operations, and strengthen information security management.
6. Impacts of changes in corporate image on corporate crisis management and related response measures:
PCSC upholds the corporate culture of "sincerity, innovation, and sharing", and does our utmost to provide the public with safe, convenient, high-quality products and services. In 2021, we have exceeded 6,300 stores. Behind the rapid growth, in addition to pursuing the diversified products and services, it also represents that PCSC has been closely related to people's life in food, clothing, housing, transportation, education, and entertainment are closely intertwined. We must more actively interact with stakeholders and fulfill our corporate responsibilities.
In recent years, we have continued to actively promote sustainable development, and sustainable governance strength has been recognized in 2021. We received the "2021 Taiwan Corporate Sustainability Awards " Top Ten Sustainability Model Corporate Award (Service Industry Group), the Platinum Award of the Sustainability Report award by the TAISE, and has been selected for the Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets Index for three consecutive years, ranked among the world's benchmark companies. PCSC was selected as a constituent stock of FTSE4Good Emerging Index, TWSE Corporate Governance 100 Index and FTSE4Good TIP Taiwan ESG Index, MSCI ESG Leaders indexes, MSCI Global SRI Indexes, and was ranked among the top 5% in the seventh Taiwan Corporate Governance Evaluation System, making it the only listed company in the retail industry to win seven consecutive years. We further strengthen the company's corporate image and internal culture.
In addition, in response to potential crises that may affect the company's image, such as typhoons, earthquakes, floods, fires, casualties, supply chain interruptions and other natural or man-made disasters, PCSC has also established a sound crisis management authority and crisis response unit. Standardize operating procedures with a view to minimizing the damage caused by the crisis. We set up "crisis management team", headed by the Vice President of the operation group, includes the "Emergency Response Team", "Legal team", "Public Relations team" and "Quality Assurance team". Formulate the principle of crisis event reporting, standardize the event response process, and stabilize the operation of PCSC through a strict mechanism. And set up "PCSC Principles of Legal Control and Breakthrough", in which the legal identification meeting is set as the guidance unit for legal compliance, and mechanism is established, so as to grasp the trend of government regulations and ensure the organization can meet the requirements of various laws and regulations.

3 Statement of Internal Control System

Statement of Internal Control System of President Chain Store Corporation (translated from Chinese)

Date: February 24, 2022

According to the results of a self-assessment, President Chain Store Corporation (the "Company") states the following with regard to its internal control system during the year 2021:

1. The Company acknowledges that the establishment, implementation and maintenance of internal control system are the responsibility of Board of Directors and management, and the Company has established the system. The internal control system is aimed to reasonably assure that the goals such as the effectiveness and the efficiency of operations (including profitability, performance and safeguard of assets), the reliability, timeliness and transparency of financial reporting and the compliance of applicable law and regulations are achieved.
2. The internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of achieving the aforementioned three goals. Moreover, due to the change of environment and conditions, the effectiveness of internal control system will be changed accordingly. Nevertheless, the internal control system has self-monitoring mechanism, and the Company will take remedial action in response to any identified deficiencies.
3. The Company evaluates the effectiveness of design and operation of its internal control system based on the judgment items ruled in "Regulations Governing Establishment of Internal Control Systems by Public Companies" (collectively referred herein as "Regulations"). The judgment items of internal control system adopted by the Regulations are the process of management control, and there are five key components of internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities. Each component also includes a certain number of items, and seeing the Regulation for the foregoing items.
4. The Company assessed the effectiveness of design and operation of its internal control system according to the aforementioned Regulations.
5. Based on the foregoing results of evaluation, the Company believes that the internal control system (that includes the supervision and management of subsidiaries), to provide reasonable assurance over the aforementioned goals are accomplished, including the effectiveness and the efficiency of operations, the reliability, timeliness and transparency of financial reporting and the compliance of applicable law and regulations.
6. This statement will be the main content of Annual Report and Prospectus, and will be disclosed publicly. If the above contents contain any falsehood, concealment, or illegality, it will involve in legal liability under Article 20, 32, 171 and 174 of Securities and Exchange Law.
7. This statement has been approved by the meeting of Board of Directors held on February 24, 2022, and those 13 directors in presence all affirm at the contents of this statement.

Hereby declare,

PRESIDENT CHAIN STORE CORP.

February 24, 2022

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of President Chain Store Corp.

Opinion

We have audited the accompanying consolidated balance sheets of President Chain Store Corp. and its subsidiaries (the "Group") as of December 31, 2021 and 2020, and the related consolidated statements of comprehensive income, of changes in equity, and of cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the reports of other auditors, please refer to the Other matter section, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of President Chain Store Corp. and its subsidiaries as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended, in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the reports of other auditors, we believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2021 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2021 consolidated financial statements are stated as follows:

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(25) and 6(25) to the consolidated financial statements for the accounting policy and the details of accounting relating to this key audit matter.

Retail sales revenue is generated by point-of-sale (POS) terminals, which record the merchandise name, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.). After the daily closing process, each store manager uploads their sales information to the ERP (enterprise resource planning) system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report to record the sales information and payment methods (including cash, gift certificates, credit cards and electronic payment devices, etc.) and the cash deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Inspected whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
2. Inspected whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
3. Inspected whether merchandise master file data had been periodically transferred to POS terminals in stores;
4. Inspected whether sales information in POS terminals was periodically and completely transferred to the ERP system and automatically generated sales revenue journal entries;
5. Inspected manual sales revenue journal entries and relevant documents;
6. Inspected daily cash reports and relevant documents; and
7. Inspected whether cash deposit amounts recorded in daily cash reports were in agreement with bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(12) and 6(4) to the consolidated financial statements for the accounting policy and the details of accounting relating to this key audit matter.

As there are various kinds of merchandise, the retail inventory method is used to estimate the cost of inventory and the cost of goods sold. The retail inventory method uses the ratio of the cost of goods purchased to the retail value of goods purchased (known as cost-to-retail ratio) to calculate the cost of inventory and the cost of goods sold. The calculation of the cost-to-retail ratio highly relies on the goods purchased both at cost and retail price, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Interviewed management to understand the calculation of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;

2. Inspected whether additions and changes to the merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.) had been properly approved and the data correctly entered in the merchandise master file;
3. Inspected whether the cost and retail price of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
4. Inspected whether the POS records for the cost and retail price of inventory purchased were periodically and completely transferred to the ERP system and ascertain whether the records could not be changed manually; and
5. Calculated the cost-to-retail ratio to verify its accuracy.

Other matter – Reference to the audits of other auditors

We did not audit the financial statements of certain consolidated subsidiaries which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of these subsidiaries and the information on investees disclosed in Note 13, is based solely on the reports of the other auditors. Total assets of these subsidiaries amounted to NT\$15,269,632 thousand and NT\$17,535,932 thousand, representing 7.1% and 8.4% of the consolidated total assets as at December 31, 2021 and 2020, respectively, and the operating revenue amounted to NT\$26,481,589 thousand and NT\$26,619,815 thousand, representing 10.1% and 10.3% of the consolidated total operating revenue for the years then ended, respectively.

Other matters – Parent company - only financial statements

We have audited and expressed an unmodified opinion with an explanatory paragraph on the parent company only financial statements of President Chain Store Corp. as of and for the years ended December 31, 2021 and 2020.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal controls as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the financial reporting process of the Group.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with the general accepted auditing standard in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the general accepted auditing standard in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Group.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2021 and are, therefore, considered to be the key audit matters. We describe these matters in our auditor's report unless the law or regulations preclude public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PRESIDENT CHAIN STORE CORP. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

(1) President Chain Store Corp. (the "Company") was established on June 10, 1987. The main businesses of the Company and its subsidiaries (collectively referred herein as the "Group") are managing convenience stores, restaurants, drugstores, department stores, supermarkets and online shopping stores. Business areas include Taiwan, Mainland China, Philippines and Japan. The common shares of the Company have been listed on the Taiwan Stock Exchange since August 22, 1997. Details of the Group's main operating activities and segment information are provided in Notes 4 and 14.

(2) The Group's ultimate parent company is Uni-President Enterprises Corp., which holds a 45.4% equity interest in the Company.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on February 24, 2022.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC") New standards, interpretations and amendments endorsed by FSC effective from 2021 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 4, 'Extension of the temporary exemption from applying IFRS 9'	January 1, 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, 'Interest Rate Benchmark Reform—Phase 2'	January 1, 2021
Amendment to IFRS 16, 'Covid-19-related rent concessions beyond 30 June 2021'	April 1, 2021 (Note)

Note : Earlier application from January 1, 2021 is allowed by FSC.

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

Amendment to IFRS 16, 'Covid-19-related rent concessions beyond 30 June 2021'

The amendment extends the application period of the practical expedient by one year to cover COVID-19-related rent concessions that reduce only lease payments originally due on or before June 30, 2022, provided that all specified conditions are met. The original amendment covered only lease payments originally due on or before June 30, 2021.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2022 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 3, 'Reference to the conceptual framework'	January 1, 2022
Amendments to IAS 16, 'Property, plant and equipment: proceeds before intended use'	January 1, 2022
Amendments to IAS 37, 'Onerous contracts—cost of fulfilling a contract'	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2023
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'

The amendments require an entity to recognise deferred tax on particular transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.

The Group recognises deferred income tax on all deductible and taxable temporary differences on January 1, 2022 related to right-of-use assets, provision for decommissioning liability and the accounts which are associated with, the impact will be adjusted on January 1, 2022.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less the present value of defined benefit obligations.

B. The preparation of financial statements, in conformity with IFRSs, requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. The basis for preparation of consolidated financial statements is as follows:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

- (a) As the Company controls the financial and operating policies of Retail Support International Corp., the latter is included as a subsidiary in the consolidated financial statements.
 - (b) The Company acquired an additional 70.87% shares of Connection Labs Ltd., in June 2021, having control over it.
 - (c) The Company acquired an additional 2.66% shares of the subsidiary, Philippine Seven Corp., in February and September 2021. Please refer to Note 6(34).
 - C. Subsidiaries not included in the consolidated financial statements: None.
 - D. Adjustments for subsidiaries with different balance sheet dates: None.
 - E. Significant restrictions: None.
 - F. Subsidiaries that have non-controlling interests that are material to the Group: None.
- (4) Foreign currency translation
- Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.
- A. Foreign currency transactions and balances
 - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
 - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
 - (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
 - (d) All foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.
 - B. Translation of foreign operations
 - (a) The operating results and financial position of all the subsidiaries, associates and jointly arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.
 - (b) When the foreign operation partially disposed of or sold is an associate or jointly arrangements exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Group retains partial interest in the former foreign associate or jointly arrangements after losing significant influence over the former foreign associate, or losing joint control of the former jointly arrangements, such transactions should be accounted for as disposal of all interest in these foreign operations.
 - (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
 - (d) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realized within 12 months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than 12 months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be paid off within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be paid off within 12 months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than 12 months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations (including time deposits with contract period less than 12 months) are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
- (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortized cost, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(11) Leasing arrangements (Lessor)-operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12) Inventories

A. Inventories are initially recorded at cost. Cost of consolidated entities which manage convenience stores is determined using the retail inventory method while cost of other subsidiaries is determined in accordance with the type of business.

B. Ending inventories are stated at the lower of cost and net realizable value. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Investments accounted for using equity method - associates

A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.

B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in "capital surplus" in proportion to its ownership.

D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then "capital surplus" and "investments accounted for using the equity method" shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.

F. Upon loss of significant influence over an associate, the Group remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.

G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amount previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

H. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

(14) Investment accounted for using the equity method - joint ventures

The Group accounts for its investment interests in joint ventures using the equity method. Unrealized profits and losses arising from transactions between the Group and joint ventures are eliminated to the extent of the Group's interest in the joint venture. However, when the transaction provides evidence of a reduction in the net realizable value of current assets or an impairment loss, all such losses shall be recognized immediately. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.

(15) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost.

B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are audited, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors", from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	3~50 years
Transportation equipment	2~15 years
Operating equipment	2~16 years
Leasehold assets	1~20 years

(16) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities

A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate; and
- (c) Amounts expected to be payable by the lessee under residual value guarantees.

The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(17) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 10 to 50 years.

(18) Intangible assets

A. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 1 to 10 years.

B. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

C. License agreement and customer list and other intangible assets

License agreement and customer list acquired in business combination are recognized at fair value at the acquisition date. Other intangible assets are separately acquired trademarks and licenses which are stated at historical cost. The latter has a finite useful life and is amortized on a straight-line basis over its estimated useful life.

(19) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

B. The recoverable amounts of goodwill are evaluated periodically. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognized in profit or loss shall not be reversed in the following years.

C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(20) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(21) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Provisions

The Group's provisions are presented in "Other non-current liabilities". Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(23) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they

are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognizes expense when it can no longer withdraw an offer of termination benefits or it recognizes related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D. Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(24) Income tax

- A. The tax expense for the year comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. A deferred tax asset shall be recognised for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

(25) Revenue recognition**A. Sales of goods**

- (a) The Group operates a chain of retail stores. Revenue from the sale of goods is recognized when the Group sells a product to the customer.
- (b) Payment of the transaction price is due immediately when the customer purchases the product. It is the Group's policy to sell its products to the end customer with a right of return. Therefore, a refund liability and a right to the returned goods (included in other current assets) are recognized for the products expected to be returned. Accumulated experience is used to estimate such returns using the expected value method. Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. The validity of this assumption and the estimated amount of returns are reassessed at each reporting date.
- (c) The Group operates a loyalty program where retail customers accumulate points for purchases made which entitle them to discount on future purchases. The points provide a material right to customers that they would not receive without entering into a contract. Therefore, the promise to provide points to the customer is a separate performance obligation. The transaction price is allocated to the product and the points on a relative stand-alone selling price basis. The stand-alone selling price per point is estimated on the basis of the discount granted when the points are redeemed and on the basis of the likelihood of redemption, based on past experience. The stand-alone selling price of the product sold is estimated on the basis of the retail price. A contract liability is recognized for the transaction price which is allocated to the points and revenue is recognized when the points are redeemed or expire.

B. Sales of services

The Group provides delivery services. Revenue from delivering services is recognized when the services have been provided.

C. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(26) Business Combination

- A. The Group uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the Group measures at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to the proportionate share of the entity's net assets in the event of liquidation at either fair value or the present ownership instruments' proportionate share in the recognized amounts of the acquiree's identifiable net assets. All other non-controlling interests should be measured at the acquisition-date fair value.
- B. The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previous equity interest in the acquiree over the fair value of the identifiable assets acquired and the liabilities assumed is recorded as goodwill at the acquisition date. If the total of consideration transferred, non-controlling interest in the acquiree recognized and the fair value of previously held equity interest in the acquiree is less than the fair value of the identifiable assets acquired and the liabilities assumed, the difference is recognized directly in profit or loss on the acquisition date.

(27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The Group has no such assumptions and estimates which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

6.DETAILS OF SIGNIFICANT ACCOUNTS**(1)Cash and cash equivalents**

	December 31, 2021	December 31, 2020
Cash on hand and petty cash	\$ 1,385,063	\$ 2,049,148
Checking accounts and demand deposits	16,753,260	12,354,395

Short-term financial instruments	4,438,367	6,208,644
	<u>\$ 45,648,486</u>	<u>\$ 46,562,907</u>

A. The Group transacts with a variety of financial institutions, all with high credit quality, to disperse credit risk, so it considers the probability of counterparty default as remote.

B. Information about time deposits provided as security for performance guarantees and reclassified as "Other non-current assets – guarantee deposits paid" is provided in Note 8.

(2)Financial assets at fair value through profit or loss

	December 31, 2021	December 31, 2020
Financial assets mandatorily measured at fair value through profit or loss		
Current items:		
Beneficiary certificates	\$ 660,092	\$ 2,105,429
Valuation adjustment	63	67
	<u>\$ 660,155</u>	<u>\$ 2,105,496</u>
Non-current items:

Valuation adjustment	(156,035)	(189,720)
	<u>\$ 85,480</u>	<u>\$ 85,523</u>

A. The Group recognized net profit of \$24,170 and \$28,099 in relation to financial assets at fair value through profit or loss for the years ended December 31, 2021 and 2020, respectively.

B. No financial assets at fair value through profit or loss of the Group were pledged to others.

C. Information relating to credit risk is provided in Note 12(2).

(3)Accounts receivable

	December 31, 2021	December 31, 2020
Accounts receivable	\$ 6,629,529	\$ 6,322,757
Less: Allowance for doubtful accounts	(144,908)	(107,485)
	<u>\$ 6,484,621</u>	<u>\$ 6,215,272</u>

A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	December 31, 2021	December 31, 2020
Not past due	\$ 6,264,349	\$ 6,228,821
Up to 90 days	358,791	91,138

Over 365 days	107	1,204
	<u>\$ 6,629,529</u>	<u>\$ 6,322,757</u>

The above aging analysis was based on past due date.

B. As of December 31, 2021 and 2020, accounts receivable was all from contracts with customers. And as of January 1, 2020, the balance of receivables from contracts with customers amounted to \$5,808,480.

C. As at December 31, 2021, and 2020, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's accounts receivable were \$6,484,621, and \$6,215,272, respectively.

D. Information relating to credit risk is provided in Note 12(2).

(4) Inventories

Valuation adjustment	895,955	689,873
	<u>\$ 1,165,909</u>	<u>\$ 959,827</u>

A. The Group has elected to classify the listed and unlisted stocks that are considered to be strategic investments and steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$1,165,909 and \$959,827 as at December 31, 2021 and 2020, respectively.

B. Amounts recognized in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	For the year ended December 31, 2021	For the year ended December 31, 2020
Equity instruments at fair value through other comprehensive income		
Fair value change recognized in other comprehensive income	\$ 206,082	\$ 152,712
Dividend income recognized in profit or loss	\$ 63,494	\$ 43,833

C. As at December 31, 2021 and 2020, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group was \$1,165,909 and \$959,827, respectively.

D. No financial assets at fair value through other comprehensive income of the Group were pledged to others.

E. Information relating to credit risk is provided in Note 12(2).

(8) Leasing arrangements – lessee

A. The Group leases various assets including land, buildings, transportation equipment, etc. Rental contracts are typically made for periods of 1 to 60 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2021	December 31, 2020
	Carrying amount	Carrying amount
Land	\$ 872,178	\$ 856,263
Buildings	76,378,170	73,986,497

Other equipment	36,677	29,561
	<u>\$ 13,410,353</u>	<u>\$ 12,764,858</u>

C. For the years ended December 31, 2021 and 2020, the additions to right-of-use assets were \$18,585,257 and \$23,424,064, respectively.

D. The information on profit and loss accounts relating to lease contracts is as follows:

	For the year ended December 31, 2021	For the year ended December 31, 2020
Items affecting profit or loss		
Interest expense on lease liabilities	\$ 1,058,881	\$ 1,143,668
Expense on short-term lease contracts	377,509	403,729
Expense on leases of low-value assets	118,439	70,905
Expense on variable lease payments	433,512	536,597
Gain on sublease of right-of-use assets	517,284	540,712
Gain from lease modification	110,469	79,685

E. For the years ended December 31, 2021 and 2020, the Group's total cash outflow for leases was \$14,519,117 and \$13,817,294, respectively

F. Variable lease payments

(a) Some of the Group's lease contracts contain variable lease payment terms that are linked to sales generated from a store or department store counter. For the above-mentioned stores, approximately 2.82% and 3.60 % as at December 31, 2021 and 2020, respectively, are on the basis of variable payment terms and are accrued based on the sales amount. Variable payment terms are used for a variety of reasons. Various lease payments that depend on sales are recognized in profit or loss in the period in which the event or condition that triggers those payments occurs.

(b) A 1% increase in the aggregate sales amount of all stores with such variable lease contracts would increase total lease payments by approximately \$4,335 and \$5,366 for the years ended December 31, 2021 and 2020, respectively.

G. The Group's leases not yet commenced to which the lessee is committed are business premises for the lessees, and the lease liabilities undiscounted as at December 31, 2021 and 2020, amounted to \$3,635,849 and \$2,773,378, respectively.

H. The Group has applied the practical expedient to "Covid-19-related rent concessions" and recognized the gain from changes in lease payments arising from the rent concessions amounting to \$159,576 and \$145,297, as at other income for the years ended December 31, 2021 and 2020, respectively.

(9) Leasing arrangements – lessor

A. The Group leases various assets including land, buildings, machinery and equipment, etc. Rental contracts are typically made for periods of 1 and 35 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

B. Information on profit or loss in relation to lease contracts is as follows:

(13) Impairment of non-financial assets

A. The Group recognized reversal of impairment loss for the years ended December 31, 2021 and 2020 amounting to \$0 and \$472, respectively. Details of such gain are as follows:

	For the year ended December 31, 2021		For the year ended December 31, 2020	
	Recognized in profit or loss	Recognized in other comprehensive income	Recognized in profit or loss	Recognized in other comprehensive income
Reversal of impairment loss				
Property, plant and equipment	\$ -	\$ -	\$ 472	\$ -

B. The Group performs impairment testing annually. The recoverable amount has been determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by the management covering a five-year period. The recoverable amount calculated using the value-in-use exceeded their carrying amount, so goodwill was not impaired. The key assumptions used for value-in-use calculations are as follows:

- (a) Discount rate: Estimated based on weighted average cost of funds. The discount rate for the years ended December 31, 2021 and 2020 were 6.66% to 14.06%.
- (b) Future value growth rate: Refer to the past long-term average economic growth rate of mature economies and long-term price index growth rate and market competition. The future value growth rate for the years ended December 31, 2021 and 2020 was 1%.

Management determined budgeted gross margin and operating profit margin based on past performance and its expectations of market development. The weighted average growth rates used are consistent with the forecasts included in industry reports. The discount rates used are pre-tax and reflected specific risks relating to the relevant operating segments.

(19)Pensions

A. The Company and its domestic subsidiaries operate a defined benefit pension plan, in accordance with the Labor Standards Law, which covers all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last six months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2%~8% of employees' monthly salaries and wages to a retirement fund at the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions to cover the deficit by next March. Furthermore, the subsidiary, Philippine Seven Corporation has a defined benefit pension plan.

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). Relating condition of execution is supervised by Labor Funds Supervisory Committee. With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2021 and 2020 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the year ended December 31, 2021	For the year ended December 31, 2020
Discount rate	0.55%~4.95%	0.30%~3.83%
Future salary increases	2.00%~5.50%	2.00%~5.50%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2021				
Effect on present value of defined benefit obligation	(\$ 207,068)	\$ 216,274	\$ 212,459	(\$ 203,474)
December 31, 2020				
Effect on present value of defined benefit obligation	(\$ 232,413)	\$ 243,844	\$ 237,276	(\$ 225,935)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once.

The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2022 amount to \$211,803.

(f) As of December 31, 2021, the weighted average duration of the retirement plan is 8~23 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	194,235
1-2 year(s)		223,463
2-5 years		904,813
Over 5 years		12,198,787
	\$	<u>13,521,298</u>

B. Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(a) The Company's mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended December 31, 2021 and 2020 were 14%~20%. Other than the monthly contributions, the Group has no further obligations.

(b) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2021 and 2020 were \$994,271 and \$935,670, respectively.

	<u>\$ 5,171,152</u>	<u>\$ 4,656,273</u>

(21) Share capital

As of December 31, 2021, the Company's authorized capital was \$10,500,000, consisting of 1,050,000,000 shares of ordinary stock, and the paid-in capital was \$10,396,223 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. The number of the Company's outstanding ordinary shares was both 1,039,622,255 as of December 31, 2021 and January 1, 2021.

(22) Capital surplus

In accordance with the Company Act of the Republic of China, any capital surplus arising from paid-in capital in excess of the par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law of the Republic of China requires that the amount of capital surplus to be capitalized, as above, should not exceed 10% of paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(23) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses, then 10% of the remaining amount is to be set aside as a legal reserve. The Company may then set aside or reserve a certain amount as special reserve according to the relevant regulations. The appropriation of the remaining earnings and prior years' unappropriated retained earnings should be proposed by the Board of Directors and voted on by the shareholders at the shareholders' meeting. The dividends and bonus to be distributed to shareholders may be 50%~100% of the total distributable amount, and 50%~100% of dividends are to be distributed as cash dividends, and the remaining undistributed amount to be set aside as unappropriated retained earnings.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of the legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside a special reserve for the debit balance on other equity items at the balance sheet date before distributing earnings. When the debit balance on other equity items is reversed subsequently, the reversed amount should be included in the distributable earnings.
- D. The appropriations for 2020 and 2019 were resolved by the shareholders on July 16, 2021 and June 17, 2020, respectively, as follows:

	2020		2019

B. Risk management policies

- (a) The Group's risk management and hedging policies mainly focus on hedging business risk. The Group also establishes hedge positions when trading derivative financial instruments. The choice of instruments should hedge risks relating to interest expense, assets or liabilities arising from business operations.
- (b) For managing derivative instruments, the treasury department is responsible for managing trading positions of derivative instruments and assesses market values periodically. If transactions and gains (losses) are unusual, the treasury will respond accordingly and report to the Board of Directors immediately.
- (c) There is no related transaction with derivative financial instruments that are used to hedge certain exchange rate risk.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- I. The Group operates internationally and is exposed to foreign exchange risk arising from of the Company and its subsidiaries used in various functional currency, the transactions primarily with respect to the USD and RMB. Exchange risk arises from future commercial transactions and recognized assets and liabilities.
- II. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currencies.
- III. The Company's and certain subsidiaries' functional currency is the New Taiwan dollar (NTD), and for other certain subsidiaries, the functional currency is the Renminbi (RMB). The details of assets and liabilities denominated in foreign currencies whose values would be materially affected by exchange rate fluctuations are as follows:

(Foreign currency: functional currency)	December 31, 2021			December 31, 2020		
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)
<u>Financial assets</u>						
<u>Monetary items</u>						
USD : NTD	\$ 1,347	27.6800	\$ 37,285	\$ 1,878	28.4800	\$ 53,485
RMB : NTD	2,797	4.3549	12,181	2,790	4.3633	12,174
JPY : NTD	32,411	0.2405	7,795	55,921	0.2763	15,451
HKD : NTD	1,028	3.5503	3,650	1,267	3.6734	4,654
EUR : NTD	165	31.3200	5,168	43	35.0200	1,506
<u>Non-monetary items</u>						
JPY : NTD	\$ 842,700	0.2405	\$ 202,669	\$ 861,900	0.2763	\$ 238,143
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD : NTD	\$ 4,018	27.6800	\$ 111,218	\$ 3,081	28.4800	\$ 87,747
RMB : NTD	2,189	4.3549	9,533	2,182	4.3633	9,521
JPY : NTD	111,934	0.2405	26,920	70,741	0.2763	19,546

- IV. Total exchange gain or loss, including realized and unrealized from significant foreign exchange variations on monetary items held by the Group amounted to 13,582 and \$18,840 for the years ended December 31, 2021 and 2020, respectively.
- V. Analysis of foreign currency market risk arising from significant foreign exchange variation: Foreign exchange risk with respect to USD primarily arises from the exchange gain or loss resulting from foreign currency translation of cash and cash equivalents, accounts receivable and accounts payable denominated in USD. If the NTD:USD exchange rate appreciates/depreciates by 5% with all other factors remaining constant, the Group's profit for the years ended December 31, 2021 and 2020 would increase/decrease by \$3,697 and \$1,713, respectively. Foreign exchange risk with respect to JPY primarily arises from the exchange gain or loss resulting from foreign currency translation of cash, financial assets at fair value through other comprehensive income – non-current and accounts payable denominated in JPY. If the NTD:JPY exchange rate appreciates/depreciates by 5%, with all other factors remaining constant, the Group's comprehensive income for the years ended December 31, 2021 and 2020 would increase/decrease by \$9,177 and \$11,702, respectively.

Price risk

- I. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- II. The Group's investments in equity securities comprise shares and open-ended funds issued by the domestic companies. The prices of equity securities would change due to change of the future value of investee companies. If the prices of these equity securities increase/decrease by 5%, and open-ended funds increase/decrease by 0.25%, with all other variables held constant, the post-tax profit for the years ended December 31, 2021 and 2020 would have increased/decreased by \$5,924 and \$9,540, respectively, as a result of gains/losses on equity securities and open-ended funds classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$58,295 and \$47,991, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- I. The Group's interest rate risk arises from short-term borrowings and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk, which are partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During the years ended December 31, 2021 and 2020, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars and Philippine Peso.
- II. If the borrowing interest rate had increased/decreased by 0.25% with all other variables held constant, profit, net of tax for the years ended December 31, 2021 and 2020 would have decreased/increased by \$3,745 and \$3,300, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

(b) Credit risk

- I. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full of the contract cash flows of the accounts receivable based on the agreed terms.
- II. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.
- III. The Group adopts management of credit risk, whereby the default occurs when the contract payments are past due over 90 days.
- IV. The Group assesses whether there has been a significant increase in credit risk on that instrument since initial recognition if the contract payments were past due over 30 days based on the terms.
- V. The Group operates a chain of retail stores, thus the ratio of accounts receivable to total asset is low and the probability that accounts receivable cannot be received is low. For accounts receivable from other transactions, the Group manages individually and follow up regularly. The Group classifies customers' accounts receivable in accordance with credit rating of customer. The Group applies the simplified approach to estimate expected credit loss to assess the default possibility of accounts receivable. Movements in relation to the group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2021	
	Accounts receivable	
At January 1	\$	107,485
Provision for impairment		72,995
Write-offs	(25,654)
Effect of foreign exchange	(9,918)
At December 31	\$	144,908

	2020
	Accounts receivable
At January 1	\$ 55,829
Provision for impairment	61,516
Reversal of impairment	(106)
Write-offs	(3,413)
Effect of foreign exchange	(6,341)
At December 31	\$ 107,485

VI. The Group has no written-off financial assets that are still under recourse procedures on December 31, 2021 and 2020.

(c) Liquidity risk

- I. Cash flow forecasting is performed by the operating entities of the Group and aggregated by the Group's finance department. It monitors rolling forecasts of liquidity requirements to ensure the Group has sufficient cash to meet operational needs, while maintaining sufficient headroom on its undrawn committed borrowing facilities, at all times, so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, and compliance with internal balance sheet ratio targets.
- II. The Group invests surplus cash in interest bearing current accounts, time deposits, money market fund and marketable securities, and chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the aforementioned forecasting. The Group held money market funds of \$660,155 and \$2,105,496 as at December 31, 2021 and 2020, respectively, which are expected to readily generate cash inflows for the purpose of managing liquidity risk.
- III. The Group has undrawn borrowing facilities of \$17,260,589 and \$12,120,795 as of December 31, 2021 and 2020, respectively.
- IV. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. Except for notes payable, accounts payable and other payables, whose contractual undiscounted cash flows are about to book value, maturing within one-year, the amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
December 31, 2021				
Short-term borrowings	\$ 5,097,722	\$ -	\$ -	\$ -
Lease liabilities	13,715,693	14,933,201	12,606,345	44,311,988
Long-term borrowings (including current portion)	584,480	178,660	159,316	684,726

Non-derivative financial liabilities:	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
December 31, 2020				
Short-term borrowings	\$ 4,741,449	\$ -	\$ -	\$ -
Short-term notes and bills payable	3,399,147	-	-	-
Lease liabilities	13,963,145	13,048,917	12,614,870	44,710,678
Long-term borrowings (including current portion)	336,467	162,794	137,045	798,892

- V. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels of the inputs used in valuation techniques to measure the fair value of financial and non-financial instruments are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates and on-the-run Taiwan central government bonds is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investments without an active market is included in Level 3.

B. Fair value information of the Group's investment property at cost is provided in Note 6(10).

C. Financial instruments not measured at fair value

(a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, accounts receivable, other receivables, short-term borrowings, short-term notes and bills payable, notes payable, accounts payable, other payables and long-term borrowings are approximate to their fair values.

	December 31, 2021			
	Book value	Fair value		
		Level 1	Level 2	Level 3
Financial assets:				
Guarantee deposits paid	\$ 3,204,856	\$ -	\$ -	\$ 3,189,820
Financial liabilities:				
Guarantee deposits received	\$ 4,044,359	\$ -	\$ -	\$ 4,021,979

	December 31, 2020			
	Book value	Fair value		
		Level 1	Level 2	Level 3
Financial assets:				
Guarantee deposits paid	\$ 3,106,790	\$ -	\$ -	\$ 3,092,709
Financial liabilities:				
Guarantee deposits received	\$ 3,784,654	\$ -	\$ -	\$ 3,764,776

(b) Guarantee deposits paid/received are measured at fair value, which is calculated based on the discounted future cash flow.

D. The related information for financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) Classification according to the nature of assets and liabilities, relevant information is as follows:

December 31, 2021	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through profit or loss				
Beneficiary certificates	\$ 660,155	\$ -	\$ -	\$ 660,155

	\$ 1,821,716	\$ -	\$ 89,828	\$ 1,911,544

December 31, 2020	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through profit or loss				
Beneficiary certificates	\$ 2,105,496	\$ -	\$ -	\$ 2,105,496
Equity securities	-	-	85,523	85,523
	2,105,496	-	85,523	2,191,019
Financial assets at fair value through other comprehensive income				
Equity securities	\$ 955,479	\$ -	\$ 4,348	\$ 959,827
	\$ 3,060,975	\$ -	\$ 89,871	\$ 3,150,846

(b) The methods and assumptions the Group used to measure fair value are as follows:

- I. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares	Open-ended fund	Government bond
Market quoted price	Closing price	Net asset value	Closing price

- II. Except for financial instruments with active markets, the fair value of other financial instruments is measured using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, by discounted cash flow method or other valuation methods, including calculations by applying models using market information available at the consolidated balance sheet date.

- E. For the years ended December 31, 2021 and 2020, there was no transfer between Level 1 and Level 2.
- F. For the years ended December 31, 2021 and 2020, there was no significant transfer in or out of Level 3.
- G. The Group is in charge of valuation procedures for fair value measurements being categorized within Level 3, which to verify the independent fair value of financial instruments. Such assessments are to ensure the valuation results are reasonable by applying independent information to compare the results to current market conditions, confirming the information resources are independent, reliable and in line with other resources, and represented as the exercisable price, and frequently making any other necessary adjustments to the fair value. Investment property is assessed by independent appraisers or based on recent closing prices of similar property in the neighboring area.
- H. The qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement are provided below:

	Fair value at December 31, 2021	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative					
equity instrument:					
Unlisted shares	\$ 89,828	Market comparable companies	Price to book ratio multiplier	2.47	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value

	Fair value at December 31, 2020	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative					
equity instrument:					
Unlisted shares	\$ 89,871	Market comparable companies	Price to book ratio multiplier	2.58	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value

- I. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, the use of different valuation models or assumptions may result in different measurements. If valuation assumptions from financial assets and liabilities categorized within Level 3 had increased or decreased by 1%, net income or other comprehensive income would not have been significantly impacted for the years ended December 31, 2021 and 2020.

(4) Other information

Due to the outbreak of the COVID-19 pandemic and the impact of the government's prevention measures, some convenience stores of the Group were temporarily closed or had to reduce their operating hours. In response to the prevention measures, the Group has adopted related measures and continued to launch several promotion programs. The working capital of the Group is still sufficient, and all operating departments are operating normally. However, the subsequent sales performance and the extent of actual impact would depend on the development of the pandemic situation.

14. SEGMENT INFORMATION

(1) General information

Management has determined the reportable operating segments based on reports reviewed by the chief operating decision-maker and used to make strategic decisions.

There was no material change in the basis for formation of entities and division of segments in the Group or in the measurement basis for segment information during this period.

The chief operating decision-maker considers the business from industry and geographic perspectives. By industry, the Group focuses on convenience stores, retail business groups, logistics business groups and others. Geographically, the Group focuses on Taiwan and mainland China where most of its business premises are located. As the operation of convenience stores in Taiwan is the focus of the Group, it is classified as a single operating segment. The whole of mainland China is considered the same operating segment.

The revenue of the Group's reportable segments is derived from the operations of convenience stores, retail business group and logistics business group. Other operating segments include a restaurant-related business group, supporting business group and China business. The supporting business group mainly provides services relating to the Group's business, such as system maintenance and development and food manufacturing and supply.

(2) Measurement of segment information

The chief operating decision-maker evaluates the performance of the operating segments based on operating revenue and profit before income tax, which are the basis for measuring performance.

(3) Segment information

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

6 Parent Company Only Financial Statements and Report of Independent Accountants

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Stockholders of President Chain Store Corp.

Opinion

We have audited the accompanying parent company only balance sheets of President Chain Store Corp. as of December 31, 2021 and 2020, and the related parent company only statements of comprehensive income, of changes in equity, and of cash flows for the years then ended, and the notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the reports of other independent accountants (which are described in the Other matters section of our report), the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of President Chain Store Corp. as of December 31, 2021 and 2020, and its parent company only financial performance and its parent company only cash flows for the years then ended, in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with this Code. Based on our audits and the reports of other independent accountants, we believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent company only financial statements for the year ended December 31, 2021 are stated as follows:

Completeness and accuracy of retail sales revenue

Description

Please refer to Notes 4(23) and 6(22) to the parent company only financial statements for the accounting policy and the details of accounting relating to this key audit matter.

Retail sales revenue is generated by point-of-sale (POS) terminals, which record the merchandise name, quantity, sales price and total sales amount of each transaction using pre-established merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.). After the daily closing process, each store manager uploads the sales information to the ERP (enterprise resource planning) system, which summarizes all sales and automatically generates sales revenue journal entries. Each store manager also prepares a daily cash report to record the sales information and payment methods (including cash, gift certificates, credit cards and electronic payment devices, etc.) and the cash deposited to the bank.

As retail sales revenue comprises numerous small amount transactions and highly relies on the POS and ERP systems, the process of summarizing and recording sales revenue by these systems is important with regard to the completeness and accuracy of the retail sales revenue, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Inspected whether additions and changes to the merchandise master file data had been properly approved and supported by relevant documents;
2. Inspected whether approved additions and changes to the merchandise master file data had been correctly entered in the merchandise master file;
3. Inspected whether merchandise master file data had been periodically transferred to POS terminals in stores;
4. Inspected whether sales information in POS terminals was periodically and completely transferred to the ERP system and automatically generated sales revenue journal entries;
5. Inspected manual sales revenue journal entries and relevant documents;

6. Inspected daily cash reports and relevant documents; and
7. Inspected whether cash deposit amounts recorded in daily cash reports were in agreement with bank remittance amounts.

Cost-to-retail ratio of retail inventory method

Description

Please refer to Notes 4(11) and 6(3) to the parent company only financial statements for the accounting policy and the details of accounting relating to this key audit matter.

As there are various kinds of merchandise, the retail inventory method is used to estimate the cost of inventory and the cost of goods sold. The retail inventory method uses the ratio of the cost of goods purchased to their retail value (known as cost-to-retail ratio) to calculate the cost of inventory and the cost of goods sold. The calculation of the cost-to-retail ratio highly relies on the goods purchased both at cost and retail price, and thus has been identified as a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above included the following:

1. Interviewed management to understand the calculation of the cost-to-retail ratio under the retail inventory method, and inspected whether it had been consistently applied in the comparative periods of the financial statements;
2. Inspected whether additions and changes to the merchandise master file data (including merchandise name, cost of inventory, retail price, sales promotions, etc.) had been properly approved and the data correctly entered in the merchandise master file;
3. Inspected whether the cost and retail price of inventory purchased as per delivery receipts were in agreement with POS purchase records after acceptance of the inventory;
4. Inspected whether the POS records for the cost and retail price of inventory purchased were periodically and completely transferred to the ERP system and ascertain whether the records could not be changed manually; and
5. Calculated the cost-to-retail ratio to verify its accuracy.

Other matter –Using the work of other auditors

We did not audit the financial statements of certain investments accounted for using equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of these subsidiaries, associates and joint ventures, and the information on investees disclosed in Note 13, is based solely on the reports of the other auditors. The balance of these investments accounted for using equity method amounted to NT\$2,154,739 thousand and NT\$2,327,307 thousand, constituting 1.5% and 1.6% of parent company only total assets as at December 31, 2021 and 2020, respectively, and the related total comprehensive net income (including share of profit of subsidiaries, associates and joint ventures accounted for using equity method and share of other comprehensive income of subsidiaries, associates and joint ventures accounted for using equity method) amounted to (NT\$79,073) thousand and (NT\$134,437) thousand, representing (0.9%) and (1.5%) of parent company only total comprehensive net income for the years then ended, respectively.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal controls as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor's responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the

Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement in the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
2. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Company.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2021 and are, therefore, considered to be the key audit matters. We describe these matters in our auditor's report unless the law or regulations preclude public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

(1) President Chain Store Corporation (the "Company") was established on June 10, 1987. The Company is primarily engaged in the investment and operation of convenience store chains. Business items included sales of food, beverages, coffee, daily commodities, cosmetics and health care products. The common shares of the Company have been listed on the Taiwan Stock Exchange since August 22, 1997.

(2) The Company's ultimate parent company is Uni-President Enterprises Corp., which holds 45.4% equity interest in the Company.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorized for issuance by the Board of Directors on February 24, 2022.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC"). New standards, interpretations and amendments endorsed by FSC effective from 2021 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 4, 'Extension of the temporary exemption from applying IFRS 9'	January 1, 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, 'Interest Rate Benchmark Reform— Phase 2'	January 1, 2021
Amendment to IFRS 16, 'Covid-19-related rent concessions beyond 30 June 2021'	April 1, 2021 (Note)

Note : Earlier application from January 1, 2021 is allowed by FSC.

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2022 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 3, 'Reference to the conceptual framework'	January 1, 2022
Amendments to IAS 16, 'Property, plant and equipment: proceeds before intended use'	January 1, 2022
Amendments to IAS 37, 'Onerous contracts— cost of fulfilling a contract'	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2023
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment. Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction' The amendments require an entity to recognise deferred tax on particular transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. Upon adoption, the Company expects to recognise a deferred tax asset and liability for all deductible and taxable temporary differences associated with decommissioning liabilities and its corresponding right-of-use assets retrospectively as of January 1, 2022. The potential impacts of these amendments will be retroactively adjusted as of January 1, 2022.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(2) Basis of preparation

A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:

- (a) Financial assets at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less the present value of defined benefit obligations.

B. The preparation of financial statements, in conformity with IFRSs, requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan Dollars, which is the Company's functional currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in parent company only the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and jointly arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.

- (b) When the foreign operation partially disposed of or sold is an associate or jointly arrangements, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, if the Company retains partial interest in the former foreign associate or jointly arrangements after losing significant influence over the former foreign associate, or losing joint control of the former jointly arrangements, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Company retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- (4) Classification of current and non-current items
 - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realized within 12 months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than 12 months after the balance sheet date.
 - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within 12 months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than 12 months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations (including time deposits with contract period of less than 12 months) are classified as cash equivalents.
- (6) Financial assets at fair value through profit or loss
 - A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income.
 - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using settlement date accounting.
 - C. At initial recognition, the Company measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
 - D. The Company recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
- (7) Financial assets at fair value through other comprehensive income
 - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
 - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using settlement date accounting.
 - C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(8)Accounts and notes receivable

- A.Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B.The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9)Impairment of financial assets

For financial assets measured at amortized cost, at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable that do not contain a significant financing component, the Company recognizes the impairment provision for lifetime ECLs.

(10)Leasing arrangement (lessor) – operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(11)Inventories

- A.Purchases are initially recorded at cost. Cost is determined using the retail inventory method.
- B.Ending inventories are stated at the lower of cost and net realizable value, and the item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(12)Investments accounted for using equity method - subsidiaries, associates and joint ventures

- A. Subsidiaries are all entities controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Unrealized gains or losses resulting from inter-company transactions with subsidiaries are eliminated. Necessary adjustments are made to the accounting policies of subsidiaries, to be consistent with the accounting policies of the Company.
- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company continues to recognize its share in the subsidiary's loss proportionately.
- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owner. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- E. When the Company loses control of a subsidiary, the Company remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Company loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.
- F. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.

- G. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- H. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognizes the Company's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- I. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- J. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for using equity method' shall be adjusted for the increase or decrease of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- K. Upon loss of significant influence over an associate, the Company remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- L. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- M. The Company accounts for its interest in a joint venture using equity method. Unrealized profits and losses arising from the transactions between the Company and its joint venture are eliminated to the extent of the Company's interest in the joint venture. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. However, when the transaction provides evidence of a reduction in the net realizable value of current assets or an impairment loss, all such losses shall be recognized immediately. When the Company's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.
- N. According to Rules Governing the Preparation of Financial Statements by Securities Issuers, profit for the year and other comprehensive income for the year reported in the parent company only financial statements, shall be equal to profit for the year and other comprehensive income attributable to owners of the parent reported in the consolidated financial statements, equity reported in the parent company only financial statements shall be equal to equity attributable to owners of parent reported in the consolidated financial statements.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment are measured subsequently using the cost model. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	50 years
Operating equipment	2~7 years
Leasehold improvements	7 years

(14) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities

A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate; and
- (c) Amounts expected to be payable by the lessee under residual value guarantees.

The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(15) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 50 years.

(16) Intangible assets

Computer software and copyright are stated at cost and amortized on a straight-line basis over its estimated useful life of 3 to 15 years.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Provisions

The Company's provisions are presented in 'Other non-current liabilities'. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

(21) Employee benefits**A. Short-term employee benefits**

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions**(a) Defined contribution plan**

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognized immediately in profit or loss.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Company's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Company recognizes expense when it can no longer withdraw an offer of termination benefits or it recognizes related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D. Employees' and directors' remuneration

Employees' remuneration and directors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(22) Income tax

- A. The tax expense for the year comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. A deferred tax asset shall be recognized for the carry forward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(23) Revenue recognition

A. Sale of goods

- (a) The Company operates a chain of retail stores. Revenue from the sale of goods is recognized when the Company sells a product to the customer.
- (b) Payment of the transaction price is due immediately when the customer purchases the product. It is the Company's policy to sell its products to the end customer with a right of return. Therefore, a refund liability and a right to the returned goods (included in 'other current assets') are recognized for the products expected to be returned. Accumulated experience is used to estimate such returns using the expected value method. Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. The validity of this assumption and the estimated amount of returns are reassessed at each reporting date.
- (c) The Company operates a loyalty program where retail customers accumulate points for purchases made which entitle them to discount on future purchases. The points provide a material right to customers that they would not receive without entering into a contract. Therefore, the promise to provide points to the customer is a separate performance obligation. The transaction price is allocated to the product and the points on a relative stand-alone selling price basis. The stand-alone selling price per point is estimated on the basis of the discount granted when the points are redeemed and on the basis of the likelihood of redemption, based on past experience. The stand-alone selling price of the product sold is estimated on the basis of the retail price. A contract liability is recognized for the transaction price which is allocated to the points and revenue is recognized when the points are redeemed or expire.

B. Sales of services

The Company provides delivery services. Revenue from delivering services is recognized when the services have been provided.

C. Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. The Company has no such assumptions and estimates which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

6.DETAILS OF SIGNIFICANT ACCOUNTS**(1)Cash and cash equivalents**

	December 31, 2021	December 31, 2020
Petty cash in store	\$ 979,358	\$ 1,081,157
Checking accounts and demand deposits	9,440,263	6,216,162

Short-term financial instruments	-	3,199,958
	<u>\$ 10,719,621</u>	<u>\$ 10,997,277</u>

A.The Company transacts with a variety of financial institutions, all with high credit quality, to disperse credit risk, so it considers the probability of counterparty default as remote.

B.The Company has no cash and cash equivalents pledged to others.

(2)Accounts receivable

	December 31, 2021	December 31, 2020
Accounts receivable	\$ 734,116	\$ 593,718
Less: Allowance for doubtful accounts	(972)	(972)
	<u>\$ 733,144</u>	<u>\$ 592,746</u>

A.The ageing analysis of accounts receivable is as follows:

	December 31, 2021	December 31, 2020
Not past due	\$ 723,365	\$ 593,044
Up to 90 days	10,042	645
91 to 120 days	127	-
Over 121 days	582	29
	<u>\$ 734,116</u>	<u>\$ 593,718</u>

The above ageing analysis was based on past due date.

B.As at December 31, 2021 and 2020, accounts receivable was all from contracts with customers. And as at January 1, 2020, the balance of receivables from contracts with customers amounted to \$591,655.

C.No accounts receivable of the Company was pledged to others.

D.As at December 31, 2021 and 2020, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's accounts receivable were \$733,144 and \$592,746, respectively.

E.Information relating to credit risk is provided in Note 12(2).

	Cost	Allowance for valuation loss	Book value
Merchandise	<u>\$ 8,907,312</u>	<u>(\$ 15,379)</u>	<u>\$ 8,891,933</u>

The cost of inventories recognized as expense:

	For the year ended December 31, 2021	For the year ended December 31, 2020
Cost of goods sold	\$ 109,471,937	\$ 109,250,147
Loss on (gain on reversal) valuation of inventories	6,491	(27,455)
Spoilage	1,944,364	2,088,237
Others	299,549	279,884
	<u>\$ 111,722,341</u>	<u>\$ 111,590,813</u>

The Company reversed a previous inventory write-down because the Company sold and scrapped certain inventories which were previously provided with allowance during the year ended December 31, 2020.

(4) Financial assets at fair value through profit or loss – non-current

	December 31, 2021	December 31, 2020
Financial assets mandatorily measured at fair value through profit or loss		
Non-current items:

B.No property, plant and equipment of the Company was pledged to others.

(8)Leasing arrangements – lessee

A.The Company leases various assets including buildings and equipment, etc. Rental contracts are typically made for periods of 1 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B.The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2021	December 31, 2020
	Carrying amount	Carrying amount
Buildings	<u>\$ 52,636,229</u>	<u>\$ 50,276,653</u>

	Depreciation charge	Depreciation charge
Buildings	<u>\$ 8,057,125</u>	<u>\$ 7,442,319</u>

C.For the years ended December 31, 2021 and 2020, the additions to right-of-use assets were \$12,021,149 and \$14,667,833, respectively.

D.The information on income and expense accounts relating to lease contracts is as follows:

	For the year ended December 31, 2021	For the year ended December 31, 2020
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 355,278	\$ 338,828

Gain on sublease of right-of-use assets	580,651	569,892
Gain from lease modification	70,238	56,083

E.For the years ended December 31, 2021 and 2020, the Company's total cash outflow for leases were \$8,074,048 and \$7,558,657, respectively.

F. Variable lease payments

(a) Some of the Company's lease contracts contain variable lease payment terms that are linked to sales generated from a store. For the above-mentioned stores, approximately 0.83% and 1.56% of lease payments for the years ended December 31, 2021 and 2020, respectively, are on the basis of variable payment terms and are accrued based on the sales amount. Variable payment terms are used for a variety of reasons. Various lease payments that depend on sales are recognized in profit or loss in the period in which the event or condition that triggers those payments occurs.

(b) A 1% increase in the aggregate sales amount of all stores with such variable lease contracts would increase total lease payments by approximately \$702 and \$1,237 for the years ended December 31, 2021 and 2020, respectively.

G. The Company's leases not yet commenced to which the leases are committed are business premises for the lessees, and the lease liabilities undiscounted amount at December 31, 2021 and 2020 are \$2,934,809 and \$2,436,677, respectively.

H. The Company has applied the practical expedient to "Covid-19-related rent concessions" and recognized the gain from changes in lease payments arising from the rent concessions amounting to \$32,852 and \$25,700, as other income for the years ended December 31, 2021 and 2020, respectively.

(9) Leasing arrangements – lessor

A. The Company leases various assets including land and buildings. Rental contracts are typically made for periods of 2 and 12 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

B. Information on profit in relation to lease contracts is as follows:

(17) Pensions

A. The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2.00% and 2.48% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method of the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

(c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). Relating condition of execution is supervised by Labor Funds Supervisory Committee. With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2021 and 2020 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the year ended December 31, 2021	For the year ended December 31, 2020
Discount rate	0.55%	0.30%
Future salary increases	3.00%	3.00%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with Taiwan Life Insurance Industry 5th Mortality Table. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis is as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2021				
Effect on present value of defined benefit obligation	(\$ 108,545)	\$ 112,847	\$ 111,096	(\$ 107,483)
	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2020				
Effect on present value of defined benefit obligation	(\$ 120,403)	\$ 125,341	\$ 121,375	(\$ 117,277)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remained unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The method and assumption used in the current sensitivity analysis are the same as prior year.

(e) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2022 amount to \$40,265.

(f) As of December 31, 2021, the weighted average duration of the retirement plan is 10 years. The analysis of timing of the future pension payment is as follows:

Within 1 year	\$ 110,461
1-2 year(s)	131,353
2-5 years	488,684
Over 5 years	3,456,418
	<u>\$ 4,186,916</u>

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the Company's defined contribution pension plan for the years ended December 31, 2021 and 2020 were \$219,931 and \$215,011, respectively.

(18) Share capital

As of December 31, 2021, the Company's authorized capital was \$10,500,000, consisting of 1,050,000,000 shares of ordinary stock, and the paid-in capital was \$10,396,223 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. The number of the Company's outstanding ordinary shares was both 1,039,622,255 shares as of December 31, 2021 and 2020.

(19) Capital surplus

In accordance with the Company Act of the Republic of China, any capital surplus arising from paid-in capital in excess of the par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the Securities and Exchange Law of the Republic of China requires that the amount of capital surplus to be capitalized, as above, should not exceed 10% of paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(20) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, must first be used to pay all taxes and offset prior years' operating losses, then 10% of the remaining amount is to be set aside as legal reserve. After setting aside or reversing a special reserve, in accordance with related laws, the remaining amount is distributable for the given period. The appropriation of the total distributable amount (that is, the distributable amount for the year along with accumulated unappropriated earnings from prior years) should be proposed by the Board of Directors and voted on by the shareholders at the shareholders' meeting. The dividends and bonus to be distributed to shareholders may be 50%-100% of the total distributable amount, and 50%-100% of dividends are to be distributed as cash dividends, and the remaining undistributed amount to be set aside as unappropriated retained earnings.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve is not be used for any other purpose. The use of the legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside a special reserve for the debit balance on other equity items at the balance sheet date before distributing earnings. When the debit balance on other equity items is reversed subsequently, the reversed amount should be included in the distributable earnings.
- D. The appropriations for 2020 and 2019 were resolved by the shareholders on July 16, 2021 and June 17, 2020, respectively, as follows:

	2020		2019	
	Amount	Dividends per share (in dollars)	Amount	Dividends per share (in dollars)

<u>Investments accounted for using equity method</u>			
USD: NTD	883,748	28.4800	25,169,157

IV. The total exchange (loss) gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company amounted to (\$327) and \$160 for the years ended December 31, 2021 and 2020, respectively.

V. Analysis of foreign currency market risk arising from significant foreign exchange variation: Foreign exchange risk with respect to USD primarily arises from the exchange gain or loss resulting from foreign currency translation of investments accounted for using equity method denominated in USD. If the NTD:USD exchange rate appreciates/depreciates by 5% with all other factors remaining constant, the Company's comprehensive income for the years ended December 31, 2021 and 2020 would increase/decrease by \$1,157,222 and \$1,258,458, respectively. Foreign exchange risk with respect to JPY primarily arises from the exchange gain or loss resulting from foreign currency translation of financial assets at fair value through other comprehensive income – non-current denominated in JPY. If the NTD:JPY exchange rate appreciates/depreciates by 5%, with all other factors remaining constant, the Company's comprehensive income for the years ended December 31, 2021 and 2020 would increase/decrease by \$10,133 and \$11,907, respectively.

Price risk

- I. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.
- II. The Company's investments in equity securities comprise shares issued by the domestic companies. The prices of equity securities would change due to change of the future value of investee companies. If the prices of these equity securities increase/decrease by 5%, with all other variables held constant, the post-tax profit for the years ended December 31, 2021 and 2020 would have increased/decreased by \$4,274 and \$4,276, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$58,295 and \$47,991, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

The Company's interest rate risk arises from short-term borrowings. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

(b) Credit risk

- I. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- II. The Company manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.
- III. The Company adopts management of credit risk, whereby the default occurs when the contract payments are past due over certain number of days.
- IV. The Company assesses whether there has been a significant increase in credit risk on that instrument since initial recognition if the contract payments were past due over certain number of days based on the terms.
- V. The Company operates a chain of retail stores, thus the ratio of accounts receivable to total asset is low and the probability that accounts receivable cannot be received is low. For accounts receivable from other transactions, the Company manages individually and follow up regularly. The Company assesses credit impairment loss immaterial at December 31, 2021 and 2020.
- VI. The Company has no written-off financial assets that are still under recourse procedures on December 31, 2021 and 2020.

(c) Liquidity risk

- I. Cash flow forecasting is performed by the operating entities of the Group and aggregated by the Group's finance department. It monitors rolling forecasts of liquidity requirements to ensure the Group has sufficient cash to meet operational needs, while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times, so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, and compliance with internal balance sheet ratio targets.
- II. The Company invests surplus cash in interest bearing current accounts, time deposits, money market fund and marketable securities, and chooses instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the aforementioned forecasting. The Company held no money market funds at December 31, 2021 and 2020, respectively.
- III. The Company has undrawn borrowing facilities beyond one year of \$14,058,263 and \$9,547,456 as of December 31, 2021 and 2020, respectively.
- IV. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. Except for notes payable, accounts payable and other payables, whose contractual undiscounted cash flows are about to book value, maturing within one-year, the amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:				
December 31, 2021	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
Short-term borrowings	\$ 3,500,759	\$ -	\$ -	\$ -
Lease liabilities	8,263,489	8,092,149	7,519,834	31,177,635
Non-derivative financial liabilities:				
December 31, 2020	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Over 3 years
Short-term borrowings	\$ 3,100,464	\$ -	\$ -	\$ -
Short-term notes and bills payable	3,399,147	-	-	-
Lease liabilities	8,132,305	7,984,192	7,557,734	30,975,210

- V. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels of the inputs used in valuation techniques to measure the fair value of financial and non-financial instruments are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks, beneficiary certificates and on-the-run Taiwan central government bonds is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investments without an active market is included in Level 3.

B. Fair value information of the Company's investment property at cost is provided in Note 6(10).

C. Financial instruments not measured at fair value

(a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, accounts receivable, other receivables, short-term borrowings, short-term notes and bills payable, notes payable, accounts payable and other payables are approximate to their fair values.

	December 31, 2021			
	Book value	Fair value		
		Level 1	Level 2	Level 3
<u>Financial assets:</u>				
Guarantee deposit paid	\$ 1,585,004	\$ -	\$ -	\$ 1,572,071
<u>Financial liabilities:</u>				
Guarantee deposit received	\$ 3,197,650	\$ -	\$ -	\$ 3,176,369

	December 31, 2020			
	Book value	Fair value		
		Level 1	Level 2	Level 3
<u>Financial assets:</u>				
Guarantee deposit paid	\$ 1,491,661	\$ -	\$ -	\$ 1,479,677
<u>Financial liabilities:</u>				
Guarantee deposit received	\$ 2,964,161	\$ -	\$ -	\$ 2,945,348

(b) Guarantee deposits paid/received are measured at fair value, which is calculated based on the discounted future cash flow.

D. The related information for financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) Classification according to the nature of assets and liabilities, relevant information is as follows:

December 31, 2021	Level 1	Level 2	Level 3	Total
<u>Assets</u>				
<u>Recurring fair value measurements</u>				
<u>Financial assets at fair value through profit or loss</u>				
Equity securities	\$ -	\$ -	\$ 85,480	\$ 85,480
<u>Financial assets at fair value through other comprehensive income</u>				
Equity securities	1,161,561	-	4,348	1,165,909
	\$ 1,161,561	\$ -	\$ 89,828	\$ 1,251,389

December 31, 2020	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through profit or loss				
Equity securities	\$ -	\$ -	\$ 85,523	\$ 85,523
Financial assets at fair value through other comprehensive income				
Equity securities	955,479	-	4,348	959,827
	\$ 955,479	\$ -	\$ 89,871	\$ 1,045,350

(b) The methods and assumptions the Company used to measure fair value are as follows:

- I. The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares
Market quoted price	Closing price

II. Except for financial instruments with active markets, the fair value of other financial instruments is measured using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, by discounted cash flow method or other valuation methods, including calculations by applying models using market information available at the consolidated balance sheet date.

- E. For the years ended December 31, 2021 and 2020, there was no transfer between Level 1 and Level 2.
- F. For the years ended December 31, 2021 and 2020, there was no significant transfer in or out of Level 3.
- G. The Company is in charge of valuation procedures for fair value measurements being categorized within Level 3, which aim to verify the independent fair value of financial instruments. Such assessments are to ensure the valuation results are reasonable by applying independent information to compare the results to current market conditions, confirming the information resources are independent, reliable and in line with other resources, and represented as the exercisable price, and frequently making any other necessary adjustments to the fair value. Investment property is assessed by independent appraisers or based on recent closing prices of similar property in the neighboring area.
- H. The qualitative information on significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement are provided below:

	Fair value at December 31, 2021	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 89,828	Market comparable companies	Price to book ratio multiplier	2.47	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value
	Fair value at December 31, 2020	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 89,871	Market comparable companies	Price to book ratio multiplier	2.58	The higher the multiplier, the higher the fair value
		Net asset value	Net asset value	-	The higher the net asset value, the higher the fair value

- I. The Company has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurements. If net assets value from financial assets and liabilities categorised within Level 3 had increased or decreased by 1%, net income or other comprehensive income would not have been significantly impacted for the years ended December 31, 2021 and 2020.

(4) Other information

Due to the outbreak of the COVID-19 pandemic and the impact of the government's prevention measures, some convenience stores of the Company were temporarily closed or reduced their operating hours. In response to the prevention measures, the Company has adopted related measures and continued to launch several promotion programs. The working capital of the Company is still sufficient and all operating departments are operating normally. However, the subsequent sales performance and the extent of actual impact would depend on the development of the pandemic situation.
